Secrets of master guitarists, revealed in conversation. Guitar Talk offers interviews with many of the most creative guitarists of our time. This new book presents these conversations, between Joel Harrison and Nels Cline, Pat Metheny, Fred Frith, Bill Frisell, Julian Lage, Elliott Sharp, Michael Gregory Jackson, Ben Monder, Anthony Pirog, Henry Kaiser, Mike and Leni Stern, Vernon Reid, Mary Halvorson, Nguyễn Lê, Rez Abbasi, Ava Mendoza, Liberty Ellman, Brandon Ross, Wayne Krantz, Dave Fiuczynski, Wolfgang Muthspiel, Miles Okazaki, Sheryl Bailey, Rafiq Bhatia, and Ralph Towner—twenty-seven great guitarists in all. An enormous range of approaches and sounds exist in the modern guitar. The instrument can howl, scrape, scratch, scream, sing, pluck, and soothe. What stands out in this book is not so much the instrument itself, rather the wonderful and idiosyncratic personalities of these bold souls, their sometimes wild, often zigzagging, and ultimately profound journeys toward beauty, meaning, and excellence in their work. We find out that jazz icon Bill Frisell won a high school band contest playing R&B tunes, beating out future members of Earth Wind and Fire. We learn which of Nels Cline's compositions he wishes to have played at his funeral. Michael Gregory Jackson recounts painful episodes of racism as he stretched between the chasm of avant jazz, rock, and blues in the 1980s. Many more revelations, amusements, and philosophies abound.

This book offers the first concentrated examination of the representation of the black female subject in Western art through the lenses of race/color and sex/gender. Charmaine A. Nelson poses critical questions about the contexts of production, the problems of representation, the pathways of circulation and the consequences of consumption. She analyzes not only how, where, why and by whom black female subjects have been represented, but also what the social and cultural impacts of the colonial legacy of racialized western representation have been. Nelson also explores and problematizes the issue of the historically privileged white artistic access to black female bodies and the limits of representation for these subjects. This book not only reshapes our understanding of the black female representation in Western Art, but also furthers our knowledge about race and how and why it is (re)defined and (re)mobilized at specific times and places throughout history.

A Story of Life, Care and Dying Penguin

This book is a political history of the island of Malaita in the British Solomon Islands Protectorate from 1927, when the last violent resistance to colonial rule was crushed, to 1953 and the inauguration of the island's first representative political body, the Malaita Council. At the book's heart is a political movement known as Maasina Rule, which dominated political affairs in the southeastern Solomons for many years after World War II. The movement's ideology, kastom, was grounded in the determination that only Malaitans themselves could properly chart their future through application of Malaitan sensibilities and methods, free from British interference. Kastom promoted a radical transformation of Malaitan lives by sweeping social engineering projects and alternative governing and legal structures. When the government tried to suppress Maasina Rule through force, its followers brought colonial administration on the island to a halt for several years through a labor strike and massive civil resistance actions that overflowed government prison camps. David Akin draws on extensive archival and field research to present a practice-based analysis of colonial officers' interactions with Malaitans in the years leading up to and during Maasina Rule. A primary focus is the place of knowledge in the colonial administration. Many scholars have explored how various regimes deployed "colonial knowledge" of subject populations in

Asia and Africa to reorder and rule them. The British imported to the Solomons models for "native administration" based on such an approach, particularly schemes of indirect rule developed in Africa. The concept of "custom" was basic to these schemes and to European understandings of Melanesians, and it was made the lynchpin of government policies that granted limited political roles to local ideas and practices. Officers knew very little about Malaitan cultures, however, and Malaitans seized the opportunity to transform custom into kastom, as the foundation for a new society. The book's overarching topic is the dangerous road that colonial ignorance paved for policy makers, from young cadets in the field to high officials in distant Fiji and London. Today kastom remains a powerful concept on Malaita, but continued confusion regarding its origins, history, and meanings hampers understandings of contemporary Malaitan politics and of Malaitan people's ongoing, problematic relations with the state.

A landmark publication in the social sciences, Linda Lindsey's *Gender* is the most comprehensive textbook to explore gender sociologically, as a critical and fundamental dimension of a person's

identity, interactions, development, and role and status in society. Ranging in scope from the everyday lived experiences of individuals to the complex patterns and structures of gender that are produced by institutions in our global society, the book reveals how understandings of gender vary across time and place and shift along the intersecting lines of race, ethnicity, culture, sexuality, class and religion. Arriving at a time of enormous social change, the new, seventh edition extends its rigorous, theoretical approach to reflect on recent events and issues with insights that challenge conventional thought about the gender binary and the stereotypes that result. Recent and emerging topics that are investigated include the #MeToo and LGBTQ-rights movements, political misogyny in the Trump era, norms of masculinity, marriage and family formation, resurgent feminist activism and praxis, the gendered workplace, and profound consequences of neoliberal globalization. Enriching its sociological approach with interdisciplinary insight from feminist, biological, psychological, historical, and anthropological perspectives, the new edition of *Gender* provides a balanced and broad approach with readable, dynamic content that furthers student understanding, both of the importance of gender and how it shapes individual trajectories and social processes in the U.S. and across the globe.

Selected by The New York Times Book Review as a Notable Book of the Year A revelatory tale of science, adventure, and modern myth. When the writer Donovan Hohn heard of the mysterious loss of thousands of bath toys at sea, he figured he would interview a few oceanographers, talk to a few beachcombers, and read up on Arctic science and geography. But questions can be like ocean currents: wade in too far, and they carry you away. Hohn's accidental odyssey pulls him into the secretive world of shipping conglomerates, the daring work of Arctic researchers, the lunatic risks of maverick sailors, and the shadowy world of Chinese toy factories. *Moby-Duck* is a journey into the heart of the sea and an adventure through science, myth, the global economy, and some of the worst weather imaginable. With each new discovery, Hohn learns of another loose thread, and with each successive chase, he comes closer to understanding where his castaway quarry comes from and where it goes. In the grand tradition of Tony Horwitz and David Quammen, *Moby-Duck* is a compulsively readable narrative of whimsy and curiosity.
