Second Language Acquisition Cengage Learning

Spanish is a pluricentric language, meaning that it has several centers of prestige (e.g., San Juan, Buenos Aires, Mexico City, Lima). Moreover, Spanish, like all languages, evinces sociolinguistic variation, in that levels of formality are expressed through the use of different structures. Given this variety, students of Spanish will inevitably come into contact with variation Spanish. This variation in Spanish adds layers of complexity to the learning and instruction of the Spanish language; therefore, a linguistic understanding of variation is crucial for our students to achieve communicative competence. This unique work, which provides an overview of the most important linguistic aspects of Spanish within a context that recognizes variation, assumes no prior linguistic knowledge and is appropriate as a valuable resource manual for teachers and learners of Spanish alike.

The Complete Idiot's Guide to Learning French Pearson Education India

Learn the French grammar with this easy French textbook full of examples and exercises! This course is divided into 7 chapters and includes 200 exercises and free video lessons for each point. The method is simple: start from a simple sentence and add slowly more elements to it. Then practice after each new element with one or more exercises.

English Grammar for Students of Spanish Innovative Language Learning

A Reference Grammar of Spanish is a comprehensive handbook on the structure of the Spanish language. Keeping technical terminology to a minimum, it provides a detailed yet clear point of reference on all the intricacies of Spanish grammar, covering word order, parts of speech, verb use, syntax, gender, number, alphabet, and pronunciation. Accompanied by a wealth of carefully chosen examples, it looks at Spanish in Iberia, the USA, Mexico, and Argentina, and demonstrates the differences between these varieties. It is designed specifically with English-speaking learners in mind, and contains useful tools such as a glossary of terms, an index, and a detailed examination of different registers of the language. Clearly structured and systematically organised, this volume is set to become the standard guide to the grammar of contemporary Spanish, and will be an

invaluable resource for teachers and students, as well as a practical supplement to textbooks and classroom study.

A Reference Grammar of Spanish BRILL

The Fundamentally Simple Logic of Language: Learning a Second Language with the Tools of the Native Speaker presents a data-driven approach to understanding how native speakers do not use subject and direct object to process language. Native speakers know who does what in a sentence by applying intuitively two simple inferences that are argued to be part of universal grammar. The book explains and exemplifies these two inferences throughout. These two inferences explain the native speaker's ease of acquisition and use, and answer difficult questions for linguistics (transitivity, case, semantic roles) in such a way that undergraduate students and second language learners can understand these concepts and apply them to their own language acquisition. While Spanish is used as the primary example, the theory can be applied to many other languages. This book will appeal to teachers and learners of any second language, as well as linguists interested in second language acquisition, in second language teaching, and in argument structure.

Intermediate Spanish For Dummies John Wiley & Sons

A few years ago, a magazine sponsored a contest for the comment most likely to end a conversation. The winning entry? "I teach English grammar." Just throw that line out at a party; everyone around you will clam up or start saying "whom." Why does grammar make everyone so nervous? Probably because English teachers, for decades – no, for centuries – have been making a big deal out of grammar in classrooms, diagramming sentences and drilling the parts of speech, clauses, and verbals into students until they beg for mercy. Happily, you don't have to learn all those technical terms of English grammar – and you certainly don't have to diagram sentences – in order to speak and write correct English. So rest assured – English Grammar For Dummies will probably never make your English teacher's top-ten list of must-read books, because you won't have to diagram a single sentence. What you will discover are fun and easy strategies that can help you when you're faced with such grammatical dilemmas as the choice between "I" and "me," "had gone" and "went," and "who" and "whom." With English Grammar For Dummies, you won't have to memorize a long list of meaningless rules (well, maybe a couple in the punctuation chapter!), because when you understand the reason for a particular word choice, you'll pick the correct word automatically. English Grammar For Dummies covers many other topics as well, such as the following: Verbs, adjectives, and adverbs – oh my! Preposition propositions and pronoun pronouncements Punctuation: The lowdown on periods, commas, colons, and all those other

squiggly marks Possession: It's nine-tenths of grammatical law Avoiding those double negative vibes How to spice up really boring sentences (like this one) Top Ten lists on improving your proofreading skills and ways to learn better grammar Just think how improving your speaking and writing skills will help you in everyday situations, such as writing a paper for school, giving a presentation to your company's big wigs, or communicating effectively with your family. You will not only gain the confidence in knowing you're speaking or writing well, but you'll also make a good impression on those around you!

A Comprehensive Grammar of the English Language University Press of America

A Grammar of Pévé describes and examines a wide range of linguistic forms and functions found in Pévé, a Chadic language spoken in parts of the Republic of Chad and the Republic of Cameroon.

CliffsStudySolver: Spanish I Taylor & Francis

This volume offers an introduction to the field of second language acquisition with a particular focus on second language Spanish. It connects key issues in the acquisition of Spanish as a second language to theoretical and empirical issues in the field of second language acquisition more generally by exemplifying central concepts in second language acquisition through the exploration of the most widely researched structures and most recent developments in the field of second language Spanish. It is written for a non-specialist audience, making it suitable for advanced undergraduate and graduate courses and readers, while its treatment of recent empirical developments also makes it of interest to researchers in second language Spanish as well as allied fields.

Grammar for Teachers Independently Published

This groundbreaking study examines the historical development of the Semitic languages from the

point of view of grammaticalization, the linguistic process whereby lexical items and constructions lose their lexical meaning and serve grammatical functions.

French Verbs For Dummies Routledge

This textbook teaches the basics of French grammar, reinforcing its lessons with exercises and key practice translations. A systematic guide, the volume is a critical companion for university-level students learning to read and translate written French into English; for graduate scholars learning to do research in French or prepping for proficiency exams; and for any interested readers who want to improve their facility with the French language. In addition, *A Short Course in Reading French* exposes readers to a broad range of French texts from the humanities and social sciences, including writings by distinguished francophone authors from around the world. The book begins with French pronunciation and cognates and moves through nouns, articles, and prepositions; verbs, adjectives, and adverbs; a graduated presentation of all the indicative and subjunctive tenses; object, relative, and other pronouns; the passive voice; common idiomatic constructions; and other fundamental building blocks of the French language. Chapters contain translation passages from such authors as Pascal, Montesquieu, Proust, Sartre, Bourdieu, Senghor, Césaire, de Certeau, de Beauvoir, Barthes, and Kristeva. Drawn from more than two decades of experience teaching French to students from academic and nonacademic backgrounds, Celia Brickman's clear, accessible, and time-tested format enables even beginners to develop a sophisticated grasp of the language and become adept readers of French. There is an answer key for translation exercises and for non-copyrighted translation passages available to professors and teachers who have assigned this title in a class. Please provide your name, title, institution, and number of students in the course in an email to coursematerials@columbiauniversitypress.com.
