Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term "POPaganda" to describe his signature and darkly satirical renderings of corporate branding icons.

Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image

that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and "agit-pop." Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

The first major U.S. monograph in ten years on Murakami is the definitive survey of the paintings of one of today's most influential artists. Takashi

Murakami (b. 1962), one of contemporary art's most widely recognized exponents, receives a long-awaited critical consideration in this important volume. Accompanying the first retrospective exhibition devoted solely to Murakami's paintings, this book traces Murakami's career from his earliest training to his current studio practice. Where other books address the commercial aspects of Murakami's work, this is the first serious survey of his work as a painter. Through essays and illustrations—many previously unpublished—it explores the artist's relationship to the tradition of Japanese painting and his facility in straddling high and

low, ancient and modern, Eastern and Western, commercial and high art. New texts address Murakami's output in the context of postwar Japan, situating the artist in relation to folklore, traditional Japanese painting, the Tokyo art scene in the 1980s and 1990s, and the threat of nuclear annihilation. This richly illustrated volume also includes a detailed biography and exhibition history. Takashi Murakami is a true essential for collectors and fans alike.

Vitamin P3: New Perspectives in Painting Phaidon Press
The first monograph on the iconic independent New York street fashion label Supreme. In April 1994, Supreme opened its doors on Lafayette Street in

downtown Manhattan and became the home of New York City skate culture. Challenging the dominance of the established Wes Coast skater scene and the new conservatism of 1990s New York, Supreme defined the aesthetic of an era of rebellious cool that reached from skaters to fashionistas and hip hop heads. Over the last sixteen years, the brand has stayed true to its roots while collaborating with some of the most groundbreaking artists and designers of its generation, and with stores in Los Angeles and Japan has become an international icon of independent counter-cultural style. This definitive monograph - with written contributions from contrasting arbiters of

style, Aaron Bondaroff and Glenn O'Brien, and including an interview between founder James Jebbia and the artist KAWS - brings together the disparate elements of the brand's output, from legendary advertising campaigns to especially commissioned skateboard designs, photographs, and artworks, and a comprehensive index of their products to date. Including collaborations with Jeff Koons, Richard Prince, Damien Hirst, Public Enemy, Lou Reed, and Futura 2000 among many others, this richly illustrated book is a survey of sixteen years of contemporary street fashion and culture reflected in the pioneering work of one of New York's most influential independent

labels.

Virgil Abloh: Figures of Speech Penguin

Appropriating characters, images and effects from pop culture, the work of KAWS blurs the lines between high and low art, and between art

and fashion. Effectively deploying film and television favorites for his toys, large-scale sculpture and bold, nearly abstract painting, KAWS recasts the familiar colours and forms of popular entertainment in cheeky and often poignantly human terms. Influenced by Andy Warhol and other Pop artists, hard-edge abstract painting and graffiti, KAWS' work deftly straddles consumer culture and artistic innovation, and his distinctive style is as much at home in his toys as in his monumental sculpture. KAWS: Where the End Starts explores the artist's prolific career in depth, featuring key paintings, sculptures, drawings, toys and fashion and advertising designs. This extensive

monograph, including contributions from Andrea Karnes, Michael Auping, Dieter Buchhart and Pharrell Williams, reveals critical aspects of KAWS' formal and conceptual development over the past 20 years, as his career has shifted from graffiti to fine art and collaborations with designers and brands such as Comme des Garçons, SUPREME, Nigo (A Bathing Ape) and Nike.

Snoopy & Woodstock: Best Friends

Simon and Schuster
Early in the 1900s, one-time oil baron Henry Morrison Flagler took interest in the Southern coast of Florida and began developing an exclusive resort community.

Establishing a railroad that would allow easier access to the area, he went on to build two hotels—his hope was that America's first families would come to populate the area. This modest community would later evolve into an iconic American destination, hosting British royalty, American movie stars, and becoming the home-away-from-home to some of the country's leading families. As the century continued, Palm Beach established itself as a luxury hideaway synonymous with old-world glamour and new-world sophistication. In this splendid volume, longtime resident and Palm Beach social fixture Aerin Lauder takes us through her Palm Beach. From

favorite restaurants like Nandos and Renatos, to favorite houses like La Follia and Villa Artemis, she takes us to the elite shopping of Worth Avenue and the scenic

walkways of the Lake Worth trail, all the while relating to us the histories, faces, and places that have become so identified with Palm Beach.
