The book summarizes the history of biological control in Latin America and the Caribbean. Few publications provide historical detail and the records are, therefore, fragmented until now. By bringing information together in this book, we offer a more complete picture of important developments in biological control on this continent. There are a wealth of text, tables and references about the history of such projects, and which were successful and which failed. This will help plan future biocontrol projects. An overview is provided of the current situation in biological control for many Latin American and Caribbean countries, revealing an astonishing level of practical biological control applied in the regio, making it the largest area under biological control worldwide. The final part describes new developments and speculates about the future of biological control in Latin America and the Caribbean.

Excesses, Discontents and Measures in Travel and Tourism University Science Books	
Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of ‘undoing violence’ by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

From New York Times bestseller Lexi Ryan comes a sexy friends-to-lovers romance. A family wedding with a fake boyfriend, meddling parents, and an obsessive ex . . . What could go wrong? The only thing worse than being single at my sister's wedding is finding out that my ex will be there too. Not just any ex—the guy everyone expected me to marry, the man I came to Jackson Harbor to escape. Now I need a date, and fast. Enter Carter Jackson—the firefighter who's dealing with an unwanted five minutes of fame ever since a shirtless photo of him saving a puppy went viral. He's warding off propositions left and right, and he needs a fake relationship as much as I do. Sweet and sexy, Carter is completely off-limits. See, I have a rule. A no-heartache rule. Not only is Carter my friend and a known heartbreaker, but his job as a firefighter puts him in danger daily, and that's something I just can't handle. Landscapes of Power and Identity is a groundbreaking comparative history of two colonies on the frontiers of the Spanish empire—the Sonora region of northwestern Mexico and the Chiquitos region of eastern Bolivia's lowlands—from the late colonial period through the middle of the nineteenth century. An innovative combination of environmental and cultural history, this book reflects Cynthia Radding's more than two decades of research on Mexico and Bolivia and her

consideration of the relationships between human societies and the geographic landscapes they inhabit and create. At first glance, Sonora and Chiquitos are quite different: one a scrub-covered desert, the other a tropical rainforest of the greater Amazonian and Paraguayan river basins. Yet the regions are similar in many ways. Both were located far from the centers of colonial authority, organized into Jesuit missions and linked to the principal mining centers of New Spain and the Andes, and then absorbed into nation-states in the nineteenth century. In each area, the indigenous communities encountered European governors, missionaries, slave hunters, merchants, miners, and ranchers. Radding's comparative approach illuminates what happened when similar institutions of imperial governance, commerce, and religion were planted in different physical and cultural environments. She draws on archival documents, published reports by missionaries and travelers, and previous histories as well as ecological studies and ethnographies. She also considers cultural artifacts, including archaeological remains, architecture, liturgical music, and religious dances. Radding demonstrates how colonial encounters were conditioned by both the local landscape and cultural expectations; how the colonizers and colonized understood notions of territory and property; how religion formed the cultural practices and historical memories of the Sonoran and Chiquitano peoples; and how the conflict between the indigenous communities and the surrounding creole societies developed in new directions well into the nineteenth century.

A one-night stand with the boss was never in her plans. Neither was falling in love . . . Return to Jackson Harbor for this sweet and sexy standalone Christmas romance. The rumors are true. I'm a hot mess with an awful track record at love. Single mom. Down on her luck. Yeah, I'm bad news. If the hardest part of moving back home to Jackson Harbor was going to be people talking, I'd be fine. I've kept my chin up through worse than their decade-old gossip. I was wrong. The hardest part is resisting my boss. Brayden Jackson is the very picture of tall, dark, and handsome. And thanks to an ill-advised one-night stand we had seven months ago, I know exactly what I'm missing when I turn him down. Every. Single. Delicious. Inch. But I have my son to care for and my job to keep, so I'll keep on saying no. Until my string of bad luck continues, and suddenly my precious four-year-old and I find ourselves with nowhere to live. At Christmas, no less. It's for my son that I accept Brayden's offer to stay at his place. One by one, my defenses are falling, as fast as I am. If Brayden was smart, he'd run, because it's only a matter of time before he realizes he deserves better than what a girl like me can offer. Unless, for once, my bad luck is leading me exactly where I need to be.
