Different Places, Different Voices Oswaal Books and Learning Private Limited

Different Places, Different Voices challenges Western feminist and post-colonial approaches in its analysis of the changing lives of women of Asia, Africa, Latin America and Oceania. Recognising the significance of place, this is a book informed by the voices of female geographers from the

developing world. Twenty case studies present regional perspectives on urban and rural development, household reproduction and production and community organisation. The theoretical and contextual approach and the emphasis on location and positionality highlight the differences created by place to suggest other ways of seeing.
