The Jungle and the Damned Wentworth Press
Proven principles for sustainable success, with new leadership insight

PEAK is the popular, transformative guide to doing business better, written by a seasoned entrepreneur/CEO who has disrupted his favorite industry not once, but twice. Author Chip Conley, founder and former CEO of one of the world's largest boutique hotel companies, turned to psychologist Abraham Maslow's Hierarchy of Needs at a time when his company was in dire need. And years later, when the young founders of Airbnb asked him to help turn their start-up

home sharing company into a world-class hospitality giant, Conley once again used the principles he'd developed in PEAK. In the decade since this book's first edition, Conley's PEAK strategy has been developed on six continents in organizations in virtually every industry. The author's foundational premise is that great leaders become amateur psychologists by understanding the unique needs of three key relationships—with

employees, customers, and investors—and this message has resonated with every kind of leader and company including some of the world's best-known, from Apple to Facebook. Avid users of PEAK have found that the principles create greater loyalty and differentiation with their key stakeholders. This new second edition includes in-depth examples of real-world PEAK companies, including the author's own at Airbnb, and exclusive PEAK leadership practices that will take you—and

your company's performance—to new heights. Whether you're at a startup or a Fortune 500 company, at a for-profit, nonprofit, or governmental organization, this book can help you and your people reach potential you never realized you had. Understand how Maslow's hierarchy makes for winning business practices Learn how PEAK drove some of today's top businesses to success Help employees reach their full potential—and beyond Transform the

customer experience and keep investors happy The PEAK framework succeeds because it elevates the business from the inside out. These same principles apply in the boardroom, the breakroom, and your living room at home, and have proven to be the foundation of healthy, fulfilled lives. Even if you think you're doing great, you could always be doing better—and PEAK gives you a roadmap to the next level.

Design and optimization of integrated circuits are essential to the creation of new semiconductor chips, and physical optimizations are becoming more prominent

as a result of semiconductor scaling. Modern chip design has become so complex that it is largely performed by specialized software, which is frequently updated to address advances in semiconductor technologies and increased problem complexities. A user of such software needs a high-level understanding of the underlying mathematical models and algorithms. On the other hand, a developer of such software must have a

keen understanding of computer science aspects, including algorithmic performance bottlenecks and how various algorithms operate and interact. "VLSI Physical Design: From Graph Partitioning to Timing Closure" introduces and compares algorithms that are used during the physical design phase of integrated-circuit design, wherein a geometric chip layout is produced starting from an abstract circuit design. The emphasis is on essential and fundamental

techniques, ranging from hypergraph partitioning and circuit placement to timing closure. The Prison Guard's Daughter Diversion Books Miniature vintage and classic caravans ¿ otherwise known as `tinies¿ and `teardrops¿ ¿ have become hugely popular in recent years, due to their dinkiness and versatility. The good use of compact spaces and the appeal of quality design have always caught Don and Marilyn Jessen¿s imagination, and their travels have

connected them with a wide variety of people at the forefront of the `tinies; and `teardrops; movement. This book pulls together a collection of these small but perfectly formed mobile spaces from across Australia and New Zealand.

A laird and a suspected witch find that love is the most potent of remedies in this sweeping romance from the USA Today- bestselling author. The

sweeping historical romance that began with Deception of a Highlander, and continued with Possession of a Highlander, reaches its dazzling conclusion in this scorcher set on the Scottish plains. Alec MacLean returns home after a decade to find his recently deceased father has let his inheritance fall to ruin. As the new laird, it's Alec's responsibility to rebuild the castle and restore the lands. He must also regain the people's trust after having abandoned them so long

ago, a feat not easily done when he fears he's plagued with the same darkness as his father. Celia escaped the North Berwick witch trials at a young age, surviving because of the sacrifice of her beloved caretaker. She's made a life for herself in the wilds of Scotland where no laird rules, a life where she heals for coin, a life without love so she can never feel the hurt of loss again. When the new laird comes back to claim his land, his determination to restore order threatens

everything Celia has worked so hard to gain, especially with the undeniable attraction sizzling between them. Together, they will face all challenges, from the tangle of their own damaged pasts to the fire-fueled witch hunts sweeping the Isle of Mull. Together, they will find that the best way to overcome darkness and war is through the undeniable light of love. “Romantic tension is an ever-present force...This tension, coupled with the mysterious witch hunts, is

the driving force behind this enchanting series conclusion.”—Publishers Weekly

The “engrossing, thoroughly researched look at women who are in romantic relationships with incarcerated men”—fully updated with twenty-first-century cases (Publishers Weekly). In 1991, Sheila Isenberg’s classic study *Women Who Love Men Who Kill* asked the provocative question, “Why do women fall in love with convicted murderers?” Now, Isenberg returns to the same question in the age of smart phones, social media, mass shootings, and modern prison dating.

The result is a compelling psychological study of prison passion in the new millennium. Isenberg conducts extensive interviews with women who seek relationships with convicted killers, as well as conversations with psychiatrists, social workers, and prison officials. She shows that many of these women know exactly what they are getting into—yet they are willing to sacrifice everything for the sake of a love without hope, promise, or consummation. This

edition of *Women Who Love Men Who Kill* includes gripping new case studies and an absorbing look at how the digital age is revolutionizing this phenomenon. Meet the young women writing “fan fiction” featuring America’s most sadistic murderers; the killer serving consecutive life sentences for strangling his wife and smothering his toddler daughters—and the women who visit him in prison; the high-powered journalist who fell in love

and risked it all for “Pharma Bro” Martin Shkreli; and many other women absorbed in online and real-life dalliances with their killer men.

On the 50th anniversary of America's deadliest prison riot comes a prison-guard daughter's quest to uncover the truth about her father's murder during the uprising—a story of crossing racial divides, befriending inmates and correctional officers alike, and challenging the state to reveal and pay for its malfeasance. Deanne Quinn Miller was five years old when her father—William “Billy” Quinn—was murdered in the first minutes of the Attica Prison Riot, the only

corrections officer to die at the hands of inmates. But how did he die? Who were the killers? Those questions haunted Dee and wreaked havoc on her psyche for thirty years. Finally, when she joined the Forgotten Victims of Attica, she began to find answers. This began the process of bringing closure not only for herself but for the other victims' families, the former prisoners she met, and all of those who perished on September 13, 1971—the day of the “retaking,” when New

York State troopers and corrections officers at the Attica Correctional facility slaughtered twenty-nine rioting prisoners and ten hostages in a hail of gunfire. In *The Prison Guard's Daughter*, Dee brings readers in on her lifelong mission for the truth and justice for the Attica survivors and the families of the men who lost their lives. But the real win was the journey that crossed racial and criminal-justice divides: befriending infamous Attica prisoner Frank "Big Black" Smith, meeting

Richard Clark and other inmates who tried to carry her father to safety after his beating, and learning what life was like for all of the people—prisoners and prison employees alike—inside Attica. As Miller lays bare the truth about her father's death, the world inside Attica, and the state's reckless raid and coverup, she conveys a narrative of compassionate humanity and a call for prison reform.

Hassoldt Davis (1907–1959) was an adventurer and travel writer whose work Ernest Hemingway once described as "fantastic . . . magnificent." With his intrepid new wife, filmmaker Ruth Staudinger, Davis sets off on an improbable honeymoon, first to Devil's Island, and then down an unexplored river in the interior of French Guiana. The result is a swashbuckling saga that deserves a place on any adventure bookshelf.
