Finalist for the 2018 Epigram Books Fiction Prize Adjonis Keh (the “d” is silent) is a successful actor who apparently has everything: looks, adoration, a shelf filled with acting awards, and all the vanilla yogurt he can eat (thanks to a hefty endorsement deal). He also has a dark secret: he can’t act. So far, he has managed to fool the world with a clever little trick—until the day he meets an inquisitive young journalist whose unexpected friendship causes him to question everything in his life. *Have You Seen?* Oxford [Oxfordshire] ; New York : Oxford University Press This lively, lavishly illustrated book

explains the effects of the age of technology on American show business. Ranging over nearly a century, but as up-to-date as the latest box-office hits, the book traces the development of the major electronic media, then compares the treatment of popular genres in each of the different media.

The Riley Covington Collection: Monday Night Jihad / Blown Coverage / Blackout / Inside Threat Simon and Schuster NEW YORK TIMES BESTSELLER • A “meticulously documented and endlessly chilling” (The New York Times) exploration of the NFL’s decades-long attempt to deny and cover up mounting evidence connecting football and brain damage. “A first-rate piece of reporting [that] adds

crucial detail, texture, and news to the concussion story, which despite the NFL's best efforts, isn't going away."—Time ONE OF THE BEST BOOKS OF THE YEAR: The Boston Globe, NPR "Professional football players do not sustain frequent repetitive blows to the brain on a regular basis." So concluded the National Football League in a December 2005 scientific paper on concussions in America's most popular sport. That judgment, implausible even to a casual fan, also contradicted the opinion of a growing cadre of neuroscientists who worked in vain to convince the NFL that it was facing a deadly new scourge: chronic traumatic encephalopathy (CTE), a chronic brain disease that was driving an alarming number of players—including some of the all-time greats—to madness. Everyone knows that football is violent and dangerous. But what the players who built the NFL into a \$10 billion industry didn't know—and what the league sought to shield from them—is that no amount of padding could protect the human brain from the force generated by modern football. In *League of Denial*, award-winning ESPN investigative reporters Mark Fainaru-Wada and Steve Fainaru expose

the public health crisis that emerged from the playing fields and examine how the league used its power and resources to attack independent scientists and elevate its own flawed research—a campaign with echoes of Big Tobacco's fight to deny the connection between smoking and lung cancer. They chronicle the tragic fates of players like Hall of Fame Pittsburgh Steelers center Mike Webster, who was so disturbed at the time of his death he fantasized about shooting NFL executives, and former San Diego Chargers great Junior Seau, whose diseased brain became the target of a scientific battle between researchers and the NFL. Based on exclusive interviews, previously undisclosed documents, and private e-mails, *League of Denial* is the story of what the NFL knew and when it knew it—questions at the heart of a crisis that threatens American football—and of the battle for the sport's future.

Using her signature style of diamond sharp social satire, page-turning action and plot, humor and pathos, Gloria Nagy has written a true tour de force of a novel, set on the perfect metaphorical site; the most lavish cruise ship in the world; a symbol of a world gone mad with excess. The ship, gliding serenely, reveals nothing of the turmoil within and its human cargo, mirroring the deception. Nothing and no one on the Palace of the Dolphins is what it seems, and none of them will return (those who do) unchanged. Gloria Nagy is the author of nine previous books including the N.Y. Times best-seller, *A House in the Hamptons*. She lives with her husband Richard Saul Wurman in Newport, R.I. They have four children, six grandchildren and three yellow labs, Abraham, Isaac and Jacob, who do not cruise. C Previous praise for Gloria Nagy "Hip, Hilarious, Heartbreaking" *Cosmopolitan* "Fabulous entertainment...an essential summer read" *Kirkus Reviews* "A stunning accomplishment... funny and sad, erotic

and ultimately very moving" Gael Greene, New York Magazine "Nagy's style is fresh, her pace brisk and her humor delightful." Los Angeles Times "Sensitive, humorous and compassionate" Elie Weisel, Nobel Laureate

Screenwriting for Neurotics is a quirky and accessible handbook for beginning screenwriters. Whether you are a student in a screenwriting class or just someone who wants to try their hand at writing for film or television, this handy guidebook makes the entire process simple and un intimidating. Balancing theory and practice and offering valuable and insightful examples from recognizable and well-known classic and contemporary films, ranging from Casablanca to A Christmas Story to Clerks, Sublett provides the new writer with the necessary tools to successfully write a feature-length screenplay and offers a roadmap of where to go next.
