Season of Terror Independently Published

Season of Terror is the first book-length treatment of the little-known true story of the Espinosas—serial murderers with a mission to kill every Anglo in Civil War-era Colorado Territory—and the men that brought them down. For eight months during the spring and fall of 1863, brothers Felipe Nerio and José Vivián Espinosa and their young nephew, José Vincente, New Mexico-born Hispanos, killed and mutilated an estimated thirty-two victims before their rampage came to a bloody end. Their motives were obscure, although they were members of the Penitentes, a lay Catholic brotherhood devoted to self-torture in emulation of the sufferings of Christ, and some suppose they believed themselves inspired by the Virgin Mary to commit their slaughters. Until now, the story of their rampage has been recounted as lurid melodrama or ignored by academic historians. Featuring a fascinating array of frontier characters, Season of Terror exposes this neglected truth about Colorado's past and examines the ethnic, religious, political, military, and moral complexity of the controversy that began as a regional incident but eventually demanded the attention of President Lincoln. *Culture, Science, and Statecraft* Nostalgia Ventures

The story reveals the fate of Wilhelm von Horst, the lost member of the previous book's outer world expedition to Pellucidar, which had been led by Jason Gridley and Tarzan to rescue Pellucidarian emperor David Innes from the Korsars. The action begins by

recapping the incident in which Gridley, von Horst, and Tarzan's Waziri warriors, led by Muviro, are caught up in and separated by a horde of saber-toothed tigers' cooperative hunt. Now on his own, von Horst quickly becomes lost, links up again with the Waziri by accident, and gets lost again when he foolishly goes out hunting on his own.

Republicanism, the Cult of Nature, and the French Revolution  
Fortress Press

"Waging a counterinsurgency war and justified by claims of 'an agreement between Guatemala and God,' Guatemala's Evangelical Protestant military dictator General Ríos Montt incited a Mayan holocaust: over just 17 months, some 86,000 mostly Mayan civilians were murdered. Virginia Garrard-Burnett dives into the horrifying, bewildering murk of this episode, the Western hemisphere's worst twentieth-century human rights atrocity. She has delivered the most lucid historical account and analysis we yet possess of what happened and how, of the cultural complexities, personalities, and local and international politics that made this tragedy. Garrard-Burnett asks the hard questions and never flinches from the least comforting answers. Beautifully, movingly, and clearly written and argued, this is a necessary and indispensable book." -- Francisco Goldman, author of *The Art of Political Murder: Who Killed the Bishop?* "Virginia Garrard-Burnett's *Terror in the Land of the Holy Spirit* is impressively researched and argued, providing the first full examination of the religious dimensions of la violencia - a period of extreme political repression that overwhelmed Guatemala in the 1980s. Garrard-Burnett excavates the myriad ways Christian evangelical imagery and ideals saturated political and ethical discourse that scholars

usually treat as secular. This book is one of the finest contributions to our understanding of the violence of the late Cold War period, not just in Guatemala but throughout Latin America." --Greg Grandin, Professor of History, New York University Drawing on newly-available primary sources including guerrilla documents, evangelical pamphlets, speech transcripts, and declassified US government records, Virginia Garrard-Burnett provides a fine-grained picture of what happened during the rule of Guatemalan president-by-coup Efraín Ríos Montt. She suggests that three decades of war engendered an ideology of violence that cut not only vertically, but also horizontally, across class, cultures, communities, religions, and even families. The book examines the causality and effects of the ideology of violence, but it also explores the long durée of Guatemalan history between 1954 and the late 1970s that made such an ideology possible. More significantly, she contends that self-interest, willful ignorance, and distraction permitted the human rights tragedies within Guatemala to take place without challenge from the outside world.

**The Land of Terror** Farrar, Straus and Giroux (BYR)

Are the post-9/11 measures initiated by the government and law enforcement agencies the products of a totalitarian impulse, or panic?-or are they simply a prudent response to a seriously perilous world? Are our liberties likely to be narrowed down forever?-or will we restore them when the crisis is over? (How will we know when it's over?) One way to begin thinking carefully about that is to consider how Americans have responded in the past. Our struggle to reconcile the conflicting claims of liberty and security is not an easy one-but it turns out to have a history. It is,

in fact, one of the threads the historical fabric of our nation is woven from. Here a lawyer and professor does what a lawyer does: he examines the precedents, from the Alien and Sedition Acts of 1799 through the Civil War, the forced relocation of Japanese Americans in World War II, the Red Scares of the 20th Century to our present "war on terror." This work shows the balance of liberty and security from the Alien and Sedition Acts in the Adams administration through the creation of military commissions in the Mexican War, Lincoln's suspension of habeas corpus in the Civil War, the internment of Japanese Americans in World War II, the Red Scares of the twentieth century, to the "War on Terror." About the author: Michael Geary is the Coordinator of the Criminal Justice Program at Albertus Magnus College, in New Haven, Connecticut. He joined the College's faculty in 2003 after retiring as a sergeant from the New York City Police Department. Professor Geary received his B.S. in Criminal Justice in 1983, his M.S. 1995, and his J.D. from Pace University School of Law in 1996.

*Terror at Bottle Creek* Penguin

In this gritty, realistic wilderness adventure, thirteen-year-old Cort is caught in a battle against a Gulf Coast hurricane. Cort's father is a local expert on hunting and swamp lore in lower Alabama who has been teaching his son everything he knows. But when a deadly Category 3 storm makes landfall, Cort must unexpectedly put his all skills-and bravery-to the test. One catastrophe seems to lead to another, leaving Cort and two neighbor girls to face the storm as best they can. Amid miles of storm-thrashed wetlands filled with dangerous, desperate wild animals, it's up to Cort to win-or lose-the fight for their lives. This title has Common Core connections.

*Land of Hope and Terror* Columbia University Press

Professor Tribble focuses on four variations upon the theme of terror in the Bible. By combining the discipline of literary criticism with the hermeneutics of feminism, she reinterprets the tragic stories of four women in ancient Israel: Hagar, Tamar, an unnamed concubine, and the daughter of Jephthah. In highlighting the silence, absence, and opposition of God, as well as human cruelty, Tribble shows how these neglected stories interpreted in memoriam challenge both the misogyny of Scripture and its use in church, synagogue, and academy.

Years ago David Innes and Abner Perry bored straight down through five hundred miles of the earth's crust and landed in Pellucidar, the savage, primeval world that lies at the center of the earth. This is the story of their continuing adventures in the timeless land of perpetual noon and their encounters with the hideous creatures and savage men who pursue them. Although they encounter enemies at every turn, David and Abner find a few loyal friends as they embark on exhilarating adventures.

*Reign of Terror* Oxford University Press

If you have ever wondered what a civilized man of the twentieth century would do if catapulted into an Old Stone Age where huge cave bears, saber-toothed tigers, monstrous carnivorous dinosaurs, mammoths, and mastodons roamed the savage terrain, you need look no further than Land of Terror, the sixth installment of Edgar Rice Burroughs's Pellucidar series.

When Cook's newborn baby entered the world, he had nothing but hope for its future. However, it was immediately clear that this was no ordinary child - it's murderous screams seemed a dark portent. As it grew, things only got worse, and the child's mother began to despair. The new parents hoped their child would grow out of it, but soon came to realize that its inauspicious beginnings were only a sign of things to come.

Neil Krishan Aggarwal's timely study finds that mental-health and biomedical professionals have created new forms of knowledge and practice in their desire to understand and fight terrorism. In the process, the state has used psychiatrists and psychologists to furnish knowledge on undesirable populations, and psychiatrists and psychologists have protected state interests. Professional interpretation, like all interpretations, is subject to cultural forces. Drawing on cultural psychiatry and medical anthropology, Aggarwal analyzes the transformation of definitions for normal and abnormal behavior in a vast array of sources: government documents, professional bioethical debates, legal motions and opinions, psychiatric and psychological scholarship, media

publications, and policy briefs. Critical themes emerge on the use of mental health in awarding or denying disability to returning veterans, characterizing the confinement of Guantánamo detainees, contextualizing the actions of suicide bombers, portraying Muslim and Arab populations in psychiatric and psychological scholarship, illustrating bioethical issues in the treatment of detainees, and supplying the knowledge and practice to deradicalize terrorists. Throughout, Aggarwal explores this fascinating, troublesome transformation of mental-health science into a potential instrument of counterterrorism.

Over 800,000 copies sold in the series! Book 23 in the highly successful Imagination Station series finds cousins Beth and Patrick nearing Washington, D.C., on the train with Abraham Lincoln, heading to his first inauguration. But a band of assassins plan to meet Lincoln in Baltimore and end his presidency before it starts. Can the cousins help get him through the city safely and on to his big history-making day?

*Terror All Around* YBK Publishers, Inc.

"Natural right - the idea that there is a collection of laws and rights based not on custom or belief but that are "natural" in origin - is typically associated with liberal politics and freedom. But during the French Revolution, this tradition was interpreted to justify the most repressive actions of the violent period known as the Terror." "In *The Terror of Natural Right*, Dan Edelman argues that the revolutionaries used the natural right concept of the "enemy of the human race" - an individual who has transgressed the laws of nature and must be executed without judicial formalities - to authorize three-quarters of the deaths during the Terror. But the significance of the natural right did not end with its legal application. Edelman argues that the Jacobins shared a political philosophy that he calls "natural republicanism," which assumed the natural state of society was a republic and that natural right provided its only acceptable laws. Ultimately, he argues that what we call the Terror was in fact only one facet of the republican theory that prevailed from Louis's trial until the fall of Robespierre." "A work of historical analysis, political theory, literary criticism, and intellectual history, *The Terror of Natural Right* challenges prevailing assumptions of the Terror to offer a new perspective on the Revolutionary period."--BOOK JACKET.

*A Novel* Columbia University Press

Among the many strategies of persuasive speech, biblical prophets often employ a rhetoric of horror. Prophets use verbal threats and graphic images of destruction to terrify their audience. Contemporary horror theory provides insight into the rhetoric of horror employed by the prophets. In this book, Amy Kalmanofsky applies horror theory to the book of Jeremiah and considers the nature of biblical horror and the objects that provoke horror, as well as the ways texts like Jeremiah work to elicit horror from their audience. Kalmanofsky begins by analyzing the emotional response of horror as reflected in characters' reactions to terrifying entities in the book of Jeremiah. Horror, she concludes, is a composite emotion consisting of fear in response to a threatening entity and a corresponding response of shame either directed toward one's self or felt on behalf of another. Having considered the nature of horror, she turns to the objects that elicit horror and consider their ontological qualities and the nature of the threat they pose. There are two central monstrous figures in the book of Jeremiah-aggressor God and defeated Israel. Both of these monsters refuse to be integrated into and threaten to disintegrate the expected order of the universe. She then presents a close, rhetorical reading of Jeremiah 6 and consider the way this text works to horrify its audience. The book concludes by considering fear's place within religious experience and the theological implications of a rhetoric that portrays God and Israel as monsters.

If you're a true fan of horror fiction, don't miss scholar Edith Birkhead's classic survey of the origins of the genre, *The Tale of Terror*. Focusing on the early roots of horror in the Romantic and Victorian eras, this comprehensive study offers compelling insight and analysis of well-known tales and obscure gems alike.

*State of Terror* Jovian Press

Between 1982 and 1983, in the name of anti-communism the military government of Guatemala prosecuted a scorched-earth campaign of terror against largely Mayan rural communities. Under the leadership of General Efraim Rios Montt, tens of thousands of people perished in what is now known as *laviolencia*, or 'the Mayan holocaust.' Rios Montt, Guatemala's president-by-coup was, and is, an outspokenly born-again Pentecostal Christian - a fact that would seem to be at odds with the atrocities that took place on his watch. Virginia Garrard-Burnett's book is the first in English to view the Rios Montt era through the lens of history. Drawing on newly-available primary sources such as guerrilla documents, evangelical pamphlets, speech transcripts, and declassified US government records, she is able to provide a fine-grained picture of what happened during Rios Montt's rule. Looking back over Guatemalan history between 1954 and the late 1970s, she finds that three decades of war engendered an ideology of violence that cut across class, cultures, communities, religions, and even families. Many Guatemalans converted to Pentecostalism during this period, she says, because of the affinity between these churches' apocalyptic message and the violence of their everyday reality. Examining the role of outside players and observers: The US government, evangelical groups, and the media, she contends that self-interest, willful ignorance, and distraction permitted the human rights tragedies within Guatemala to take place without challenge from the outside world.

*The Queen of Terror* The Grove Point Press

From 1940 on, when Palestine was still ruled by the British, violence and terror were used by Zionist terror groups to deny the rights of the indigenous Palestinians to the land they had lived in for generations, and to attack anyone, including the British, who

tried to uphold those rights. It is uncomfortable to read and shocking in its implications, providing evidence for a case that has been denied for 60 years or more by the Israelis. Suarez takes the story beyond the establishment of Israel in 1948 and shows how in first decade of its existence, the new Israel government, angered by the fact that Palestinian Arabs still remained in the state, continued to use terror in an attempt to make the remaining Arab inhabitants leave their land.

*America's First Trial by Jury That Ended a War and Helped to Form a Nation* TokyoPop

*Land of Terror* is a 1944 fantasy novel by American writer Edgar Rice Burroughs, the sixth in his series about the fictional "hollow earth" land of Pellucidar. It is the penultimate novel in the series and the last to be published during Burrough's lifetime. Unlike most of the other books in the Pellucidar series, this novel was never serially published in any magazine because it was rejected by all of Burroughs's usual publishers.
