"One of the most provocative entrepreneurs of our time, who started Eckō Unltd out of his parents' garage and turned it into a media empire, Marc Eckō reveals his formula for building an authentic brand or business. Marc Eckō began his career by spray-painting t-shirts in the garage of his childhood home in suburban New Jersey. A graffiti artist with no connections and no fashion pedigree, he left the safety net of pharmacy school to start his own company. Armed with only hustle, sweat equity, and creativity, he flipped a \$5,000 bag of cash into a global corporation now worth \$500 million.

Unlabel is a success story, but it's one that shares the bruises, scabs, and gut-wrenching mistakes that every entrepreneur must overcome to succeed. Through his personal prescription for success--the Authenticity Formula--Eckō recounts his many innovations and misadventures in his journey from misfit kid to the CEO. It wasn't a meteoric rise; in fact, it was a rollercoaster that dipped to the edge of bankruptcy and even to national notoriety, but this is an underdog story we can learn from: Ecko's doubling down on the core principles of the brand and his formula for action over talk are all lessons for today's entrepreneurs. Ecko offers a brash message

with his inspirational story: embrace pain, take risks, and be yourself. Unlabel demonstrates that, like or not, you are a brand and it's up to you to take control of it and create something authentic. Unlabel is a groundbreaking guide to channeling your creativity, finding the courage to defy convention, and summoning the confidence to act and be competitive in any environment"--

Unlabel Die Gestalten Verlag-DGV

"A tribute to a time when style -- and maybe even life -- felt more straightforward, and however arbitrary, there were definitive answers." -- Sadie Stein, Paris Review As a glance down any street in America quickly reveals, American women have

forgotten how to dress. We lack the fashion know-how we need to dress professionally and beautifully. In *The Lost Art of Dress*, historian and dressmaker Linda Przybyszewski reveals that this wasn't always true. In the first half of the twentieth century, a remarkable group of women -- the so-called Dress Doctors -- taught American women that knowledge, not money, was key to a beautiful wardrobe. They empowered women to design, make, and choose clothing for both the workplace and

the home. Armed with the Dress Doctors' simple design principles -- harmony, proportion, balance, rhythm, emphasis -- modern American women from all classes learned to dress for all occasions in ways that made them confident, engaged members of society. A captivating and beautifully illustrated look at the world of the Dress Doctors, *The Lost Art of Dress* introduces a new audience to their timeless rules of fashion and beauty -- rules which, with a little help, we can certainly learn again.
