Over the decades, the business expanded and prospered under the leadership of the various keepers of the flame, such as Sir Dorabji Tata, J.R.D. Tata and Ratan Tata, to name a few. But one day, the headlines boldly declared that the chairman of the board of Tata Sons, Cyrus Mistry, had been fired. What went wrong? In this exclusive and authorized book, insiders of the Tata businesses open up to Peter Casey for the first time to tell the story. From its humble beginnings as a mercantile company to its growth as a successful yet philanthropic organization to its recent brush with Mistry, this is a book that every business-minded individual must read.

The Journey Within India Viking

Vikrant Pande and Neelesh Kulkarni's quest to retrace the trail of Rama's fabled travels during his years in exile began with their trying to locate Chitrakoot on the map and realizing that they had little idea where it might be. Curious about the places mentioned in the Ramayana, they set off on a journey of their own, following Rama's route from Ayodhya to the Dandakaranya forest and Panchavati (near Nashik) and on to Kishkindhya (close to Hampi), Rameshwaram and Sri Lanka. Along the way they would discover how closely the narrative of the Ramayana is linked to local folklore, and how the stories of the Ramayana and the moral framework that binds them together still speaks to the people who live in the land across which Rama, Sita and Lakshman made their journey. For the armchair traveller as well as the enthusiast for epic tales, this is a wonderful book with which to revisit the world of the Ramayana.

The definitive account of India's biggest startup that redefined e-commerce, entrepreneurship and the way we shop and live. IIT graduates Sachin Bansal and Binny Bansal founded out of a Bangalore apartment what would become India's biggest e-commerce startup. Established in October 2007, Flipkart began as an online bookstore and soon came to be known for its 'customer obsession'. As the startup's reputation grew, so did its value, with venture capitalists in India and abroad lining up to invest heavily in the company that stood for bold ambition, unabashed consumerism and the virtues of technology. Investigative journalist Mihir Dalal recounts the astounding story of how the Bansals built Flipkart into a multi-billion-dollar powerhouse in the span of a few years and made internet entrepreneurship a desirable occupation. But it is also a story of big money, power and hubris, as both business and interpersonal complexities weakened the founders' control over their creation and forced them to sell out to a retailer whose dominance they had once dreamt of emulating. Flipkart's auction involved some of the

corporate world's biggest names, from Jeff Bezos, Satya Nadella, Sundar Pichai to Masayoshi Son and Doug McMillon, an ironic testimony to the strength of what the Bansals had forged. Based on extraordinary research, extensive interviews and deep access to key characters in the Flipkart story, Big Billion Startup is the riveting and revealing account of how Sachin and Binny Bansal built and sold India's largest internet company.

An endearing portrait of an Indian legend I told him that when I write a book, I would write about another side of him and not just historic events or business milestones. I would write about us and our adventures together, and how I saw him, colours and shades of him unknown to the world. Life beyond the great steel wall of 'industry doyen'. He agreed. 'There cannot be one book that captures everything ... So you do your thing, give your perspective.' It was their shared empathy for homeless dogs that sparked an unlikely friendship. In 2014, Shantanu Naidu, an automobile design engineer in his early twenties, developed an innovation to save the local strays from being run over by speeding cars. Ratan Tata, himself known for his compassion for stray dogs, took note. Impressed, he not only decided to invest in the venture, but over the years became a mentor, boss and an unexpectedly dear friend to Shantanu. I Came Upon a Lighthouse is an honest, light-hearted telling of this uncommon bond between a millennial and an octogenarian that gives glimpses of a beloved Indian icon in a warm light.

Shivaji Harper Collins

The Promise and the Reality Way back in 1947, as India became independent, Prime Minister Jawaharlal Nehru set out a vision to shape the country's economy and the development of a just and equitable society. Manufacturing was key to this vision, since it is crucial to generating employment and higher growth. More than

seventy years later, manufacturing is far from competitive and contributes only 15 per cent of the GDP. As a result, removing the wide socio-economic disparities remains a distant dream. In Getting Competitive, R.C. Bhargava draws upon his unique experience of more than sixty years as a policymaker and industry leader to give practical suggestions. These include replacing socialistic industry-related policies with those that would promote competitive manufacturing, and substituting Western management culture with that of the East to create trust with citizens and partnership relations with industrialists, workers and the government. The bureaucracy must be enabled to facilitate and promote competitiveness. Above all, we need to create national acceptance that manufacturing competitiveness is our first priority. For policymakers and general readers alike, this book brings promise to what has become a disappointing scenario.

'Who am I?' It was a question that had troubled him all his life. His whole life had seemed entangled in the answer. His dignity, his destination, his ambitions -- they all seemed linked to that entanglement. The irony was that the truth, instead of liberating him, had made him rudderless. In the Mahabharata, Karna is known to be the only warrior who could match Arjuna. Born of a

god and a mother who abandons him at birth, Karna is mistreated from birth. Rejected by Drona, taunted by Draupadi, insulted by his blood brothers, misunderstood by many and manipulated even by the gods, Karna is the classic tragic hero. In his novel Radheya, Ranjit Desai, the author of Marathi classics like Shriman Yogi and Swami, gives voice to the angst and loneliness of Karna. Translated into English for the first time, the novel brings to surface the many sides to Karna's character: his compassionate nature, his hurt and hubris, the love for his wife, his allegiance to Duryodhana, and his complicated relationship with Krishna. Golda Meir was the first female head of state in the Western world and one of the most influential women in modern history. A blend of Emma Goldman and Martin Luther King Jr. in the guise of a cookie-serving grandmother, her uncompromising devotion to shaping and defending a Jewish homeland against dogged enemies and skittish allies stunned political contemporaries and transformed Middle Eastern politics for decades to follow. She outmaneuvered Richard Nixon and Henry Kissinger at their own game of Realpolitik, and led Israel through a bloody war even as she eloquently pleaded for peace, carrying her nation through its most perilous hours while she herself battled cancer. In this masterful biography, critically acclaimed author Elinor Burkett paints a vivid portrait of a legendary woman defined by contradictions: an iron resolve coupled with magnetic charm, a kindly demeanor that disguised a stunning hard-heartedness, and a complete dedication to her country that often overwhelmed her personal relationships.

Mukund Joshi is fourteen and newly in love. He attends the same private tuitions as his classmate, Shirodkar, just for a glimpse of her, and follows her back home every day. Sadly, she has not a clue that he is pining away for her, because in their society, boys and girls don't interact freely, much less talk about love. When he's not negotiating the tricky alleys of love, Mukund sits around the school field or loafs about town with his close friends, Surya, Chitre and Phawdya, railing against the education system, and debating ideas such as discipline and Bohemianism. Set in a small Maharashtrian town during the Emergency of 1975, Shala is a heart-warming, nuanced novel about the adolescent struggles that are as tortuous in real time as they are amusing in retrospect.

The nineteenth century was an exciting time of initiative and enterprise around the world. If John D. Rockefeller was creating unimagined wealth in the United States that he would put to the service of the nation, a Parsi family with humble roots was doing the same in India. In 1822, a boy was born in a priestly household in Gujarat's Navsari village. Young Nusserwanji knew early on that his destiny lay beyond his village and decided to head for Bombay to start a business - the first in his family to do so. He had neither higher education nor knowledge of business matters, just a burning passion to carve a path of his own. What Nusserwanji started as a cotton trading venture, his son Jamsetji, born in the same year as Rockefeller, grew into a multifaceted business, turning around sick textile mills, setting up an iron and steel company, envisioning a cutting-edge institute of higher learning,

building a world-class hotel, and earning himself the title of the 'Bhishma Pitamah of Indian Industry'. Stewarded ably over the decades by Jamsetji's sons Dorabji and Ratanji, the charismatic and larger-than-life JRD, and thereafter the more business-like Ratan, the Tata group today is a 110-billion-dollar empire. The Tatas is their story. But it is more than just a history of the industrial house; it is an inspiring account of India in the making.

It chronicles how each generation of the family invested not only in the expansion of its own business interests but also in nation building. Few know, for instance, that the first hydel power project in the world was conceived of and built by the Tatas. Nor that some radical labour concepts such as eight-hour work shifts were born in India, at the Tata mill in Nagpur. The Tata Cancer

Research Centre, the Indian Institute of Science, the Tata Institute of Fundamental Research, as also the national carrier Air India - the family has a long, rich and unrivalled legacy. The Tatas is a tribute to a line of visionaries who have a special place in the hearts and minds of ordinary Indians. Written by seasoned journalist Girish Kuber, this is also the only book that tells the complete Tata story spanning almost two hundred years.
