"December 2016. Luke Harding, the Guardian reporter and former Moscow bureau chief, quietly meets former MI6 officer Christopher Steele in a London pub to discuss President-elect Donald Trump's Russia connections. A month later, Steele's now-famous dossier sparks what may be the biggest scandal of the modern era. The names of the Americans involved are well-known, but here Harding also shines a light on powerful Russian figures whose motivations and instructions may have been coming from the highest echelons of the Kremlin. Harding takes the reader through every bizarre and disquieting detail of the Trump-Russia story, an event so huge it involves international espionage, off-shore banks, sketchy real estate deals, the Miss Universe pageant, mobsters, money laundering, poisoned dissidents, computer hacking, and the most shocking election in American history." -- Provided by publisher.

### **The Inside Story of Putin's War on America and the Election of Donald Trump** Random House

This is a hard copy of the report from the Inspector General (released December 9th, 2019) regarding the review of four FISA applications and other aspects of the FBI's Crossfire Hurricane investigation. A hardback version may be found by searching for ISBN 9781680923148. The Department of Justice (Department) Office of the Inspector General (OIG) undertook this review to examine certain actions by the Federal Bureau of Investigation (FBI) and the Department during an FBI investigation opened on July 31, 2016, known as "Crossfire Hurricane," into whether individuals associated with the Donald J. Trump for President Campaign were coordinating, wittingly or unwittingly, with the Russian government's efforts to interfere in the 2016 U.S. presidential election. Our review included examining: - The decision to open Crossfire Hurricane and four individual cases on current and former members of the Trump campaign, George Papadopoulos, Carter Page, Paul Manafort, and Michael Flynn; the early investigative steps taken; and whether the openings and early steps complied with Department and FBI policies; - The FBI's relationship with Christopher Steele, whom the FBI considered to be a confidential human source (CHS); its receipt, use, and evaluation of election reports from Steele; and its decision to close Steele as an FBI CHS; - Four FBI applications filed with the Foreign Intelligence Surveillance Court (FISC) in 2016 and 2017 to

conduct Foreign Intelligence Surveillance Act (FISA) surveillance targeting Carter Page; and whether these applications complied with Department and FBI policies and satisfied the government's obligations to the FISC; - The interactions of Department attorney Bruce Ohr with Steele, the FBI, Glenn Simpson of Fusion GPS, and the State Department; whether work Ohr's spouse performed for Fusion GPS implicated ethical rules applicable to Ohr; and Ohr's interactions with Department attorneys regarding the Manafort criminal case; and - The FBI's use of Undercover Employees (UCEs) and CHSs other than Steele in the Crossfire Hurricane investigation; whether the FBI placed any CHSs within the Trump campaign or tasked any CHSs to report on the Trump campaign; whether the use of CHSs and UCEs complied with Department and FBI policies; and the attendance of a Crossfire Hurricane supervisory agent at counterintelligence briefings given to the 2016 presidential candidates and certain campaign advisors.

Twenty years after the Starr Report and the Clinton impeachment, former special prosecutor Ken Starr finally shares his definitive account of one of the most divisive periods in American history. You could fill a library with books about the scandals of the Clinton administration, which eventually led to President Clinton's impeachment by the House of Representatives. Bill and Hillary Clinton have told their version of events, as have various journalists and participants. Whenever liberals recall those years, they usually depict independent counsel Ken Starr as an out-of-control, politically driven prosecutor. But as a New York Times columnist asked in 2017, "What if Ken Starr was right?" What if the popular media in the 1990s completely misunderstood Starr's motives, his tactics, and his ultimate goal: to ensure that no one, especially not the president of the United States, is above the law? Starr -- the man at the eye of the hurricane -- has kept his

unique perspective to himself for two full decades. In this long-awaited memoir, he finally sheds light on everything he couldn't tell us during the Clinton years, even in his carefully detailed "Starr Report" of September 1998. Contempt puts you, the reader, into the shoes of Starr and his team as they tackle the many scandals of that era, from Whitewater to Vince Foster's death to Travelgate to Monica Lewinsky. Starr explains in vivid detail how all those scandals shared a common thread: the Clintons' contempt for our system of justice. This book proves that Bill and Hillary Clinton weren't victims of a so-called "vast right-wing conspiracy." They played fast and loose with the law and abused their powers and privileges. Today, from the #MeToo aftermath and Russiagate to President Trump's impeachment trial, the office of the American presidency is in crisis—and Starr's insights are more relevant now than ever.

*The Final Chapter One American's Opinion* Micah Fisher-Kirshner  
This is the final book in the One American's Opinion — For Patriots Who Love Their Country Trilogy. The first book was about President Obama's years in office. The second book covered the first year of the Trump presidency. This final book chronicles the current state of America, the Marxist destruction of American culture, and the power and control over America they desire. The original colonists came to America to escape religious persecution, escape repression, and find better economic opportunity. If we lose America to the progressives and their Marxist based ideology, we will no longer have freedom of speech, freedom of religion, freedom from repression, or economic opportunity. Our cultural heritage, our philosophy of government, and our free market capitalist-based economy has made America the greatest civilization the world has ever known. We are in a fight for the soul of our democracy. Historically, throughout civilization, it has not been a question of whether a successful society can last forever but how long it can last. There is no society that has outlasted the test of time. The real question is when. America's future existence is the crucial question for this book.

In *Kremlin Winter*, Robert Service, acclaimed biographer of Lenin, Stalin and Trotsky and one of the finest historians of modern Russia, brings his deep understanding of that country to bear on the man who leads it. 'One of our most accomplished, erudite and prolific historians of modern Russia.' – Rodric Braithwaite, *New Statesman* Vladimir Putin has dominated Russian politics since Boris Yeltsin relinquished the presidency in his favour in May 2000. He served two terms as president, before himself relinquishing the post to his prime minister, Dimitri Medvedev, only to return to presidential power for a third time in 2012. Putin's rule, whether as president or prime minister, has been marked by a steady increase in domestic repression and international assertiveness. Despite this, there have been signs of liberal growth and Putin – and Russia – now faces a far from certain future. Robert Service reveals a premier who cannot take his supremacy for granted, yet is determined to impose his will not only on his closest associates but on society at large. *Kremlin Winter* is a riveting insight into power politics as Russia faces a blizzard of difficulties both at home and abroad. Brad Peery shows why China's rise and the Belt and Road Initiative must be a top concern for the Trump administration. A must read to understand US-China relations from an American perspective. Dr. Sebastien Goulard, coordinator of OBOR Europe China's One Belt, One Road Initiative, in which it is investing in about seventy countries, will allow it to develop maritime ports to challenge the supremacy of the United States of America in a way the world has never seen. As a police state with almost ninety million Communist Party members and a leader for life, China seeks to replace the United States as the strongest country in the world politically, technologically, and militarily. While the United States is at a disadvantage because of changing presidential administrations, it has one strategic advantage: It can spur technological innovation through the private sector. It also has President Donald Trump, who is challenging China in ways previous administrations did not. Brad Peery, a former U.S. Senate candidate with decades of experience in the investment industry, examines Trump's policies as well as the political, ethical, and economic issues that face companies trying to do business in China. He also explores how China is developing or

supporting emerging technologies such as self-driving and electric vehicles, quantum computing, and artificial intelligence and stealing intellectual property from American companies along the way.

Award-winning Associated Press reporter Seth Hettena untangles the story of Donald Trump's long involvement with Russia in damning detail—including new reporting never before published. As Special Counsel Robert Mueller's investigation into the relationship between members of Trump's campaign and Russian operatives continues, there is growing evidence that Trump has spent decades cultivating ties to corrupt Russians and the post-Soviet state. In *Trump/Russia: A Definitive History*, Seth Hettena chronicles the many years Trump has spent wooing Russian money and power. From the collapse of his casino empire—which left Trump desperate for cash—and his first contacts with Russian deal-makers and financiers, on up to the White House, Hettena reveals the myriad of shady people, convoluted dealings, and strange events that suggest how indebted to Russia our forty-fifth president might be. Using deeply researched reporting, along with newly uncovered information, court documents, and exclusive interviews with investigators and FBI agents, Hettena provides an expansive and essential primer to the Trump/Russia scandal, leaving no stone unturned.  
Russia and the Second Coming of Vladimir Putin *Liberatio Protocol*  
The disturbing, untold story of one of the largest financial institutions in the world, Citigroup—one of the "too big to fail" banks—from its founding in 1812 to its role in the 2008 financial crisis, and the many disasters in between. During the 2008 financial crisis, Citi was presented as the victim of events beyond its control—the larger financial panic, unforeseen economic disruptions, and a perfect storm of credit expansion, private

greed, and public incompetence. To save the economy and keep the bank afloat, the government provided huge infusions of cash through multiple bailouts that frustrated and angered the American public. But, as financial experts James Freeman and Vern McKinley reveal, the 2008 crisis was just one of many disasters Citi has experienced since its founding more than two hundred years ago. In *Borrowed Time*, they reveal Citi's history of instability and government support. It's not a story that either Citi or Washington wants told. From its founding in 1812 and through much of its history the bank has been tied to the federal government—a relationship that has benefited both. Many of its initial stockholders had owned stock in the Bank of the United States, and its first president, Samuel Osgood, had been a member of the Continental Congress and America's first Postmaster General. From its earliest years, Citi took massive risks that led to crisis. But thanks to private investors, including John Jacob Astor, they survived throughout the nineteenth century. In the twentieth century, Senator Carter Glass blamed Citi CEO "Sunshine Charlie" Mitchell for the 1929 stock market crash, and the bank was actually in violation of the senator's signature achievement, the Glass-Steagall law, in the late 1990s until then U.S. Treasury Secretary Robert Rubin engineered the law's repeal. Rubin later became the chairman of the executive committee of Citigroup, helping to oversee the bank as it ramped up its increasing mortgage risks before the 2008 crash. The scale of the financial panic of 2008 was not, as the media and experts claim, unprecedented. As *Borrowed Time* shows, disasters have been relatively frequent during the century of government-protected banking—especially at Citi.

Americans were shocked and outraged to see chaos unfold at the Capitol on January 6, 2021. The melee shut down plans by some Republican lawmakers to object to Congress's official certification of the 2020 presidential election results. Democrats, the news media, and many leading Republicans immediately blamed the roughly four-hour disturbance on President Trump. The president "incited an insurrection," the American public was told. It prompted a second impeachment trial of Donald Trump after he left office. But one year later, the original narrative of what happened that day has crumbled while hundreds of Americans

have been swept up in an unprecedented investigation led by Joe Biden's Justice Department to punish them for their involvement in the January 6th protest. The public has been misled—and flat-out lied to—about a number of aspects related to that day. This book exposes them all.

From Fox News' politics editor Chris Stirewalt -- a fun and lively account of America's populist tradition, from Andrew Jackson and Teddy Roosevelt, to Ross Perot, Pat Buchanan, and Donald Trump. Whatever the ideological fad of the moment, American populism has always been home to a fascinating assortment of charismatic leaders, characters, kooks, cranks, and sometimes charlatans who have - with widely varying degrees of success - led the charge of ordinary folks who have gotten wise to the ways of the swamp. This attitude of skeptical resentment also makes populism a fertile field for the work of conspiracy theorists and other enthusiastic apostates from civic convention. After all, if the people in power are found to be rigging one part of the system, why not the rest? Every Man a King tells the stories of America's populist leaders, from an elderly Andrew Jackson brutally caning his would-be-assassin, to William Jennings Bryan's pre-speech routine that combined equally prodigious quantities of prayer and food, to Ross Perot's military-style campaign that made even volunteers wear badges with stars to show rank. It is a rollicking history of an American attitude that has shaped not only our current moment, but also the long struggle over who gets to define the truths we hold to be self evident.

The House Select Intelligence committee transcript was converted from an OCR'd PDF downloaded from the House Intelligence Committee website. It required numerous edits to correct mistakes made by the OCR and was reformatted for readability. Do not use this as a source for academic or legal research, but it is adequate to understand the gist of Simpson's testimony. The second part was converted from the Senate Judiciary transcript document made available by Senator Feinstein. That original document was not formatted for ease of reading. The 2016 Election, which altered American political history, was not decided by the Russians or in Ukraine or by Steve Bannon. The event that broke Hillary's blue wall in the Midwest and swung Florida and North Carolina was an October Surprise, and it was wholly a product of the leadership of the FBI. This is the inside story by the reporter closest to its center. In September 2016, Hillary Clinton was the presumptive next president of the US. She had a blue wall of states leaning her way in the Midwest, and was ahead in North Carolina and Florida, with a better than even shot at taking normally Republican Arizona. The US was about to get its first woman president. Yet within two months everything was lost. An already tightening race saw one seismic correction: it came in October when the FBI launched an investigation into the Clinton staff's use of a private server for their emails. Clinton fell 3-4 percent in the polls instantly, and her campaign never had time to rebut the investigation or rebuild her momentum so close to election day. The FBI cost her the race. October Surprise is a pulsating narrative of an agency seized with righteous certainty that waded into the most important political moment in the life of the nation, and has no idea how to back out with dignity. So it doggedly stands its ground, compounding its error. In a momentous display of self-preservation, James Comey, Andrew McCabe, and key Justice Department officials decide to protect their own reputations rather than save the democratic process. Once they make that determination, the race is lost for Clinton, who is helpless in front of their accusation even though she has not intended to commit, let alone actually committed, any crime.

A dark true-life thriller with historic consequences set at the most crucial moment in the electoral calendar, *October Surprise* is a warning, a morality tale and a political and personal tragedy.

As a young man, Arturo Rodriguez was always the guardian of the underdog. This theme carried through to his adult life when he became the first Mexican-American Texas Ranger, an intense and dramatic event in South Texas history. In *Rodriguez... Texas Ranger!* author Rick Harper recounts Rodriguez's life and law enforcement career. As Harper tells Rodriguez's story, he also chronicles many of Texas and Mexico's significant historical events and their corresponding sociocultural, economic, and racial developmental patterns to demonstrate not only their

immediate impact, but also the ways in which these events and patterns framed the region's present state. Providing insight into the dynamic nature of Texas during the 1960s and '70s, *Rodriguez... Texas Ranger!* tells a tale of Gringos and Chicanos, justice and vengeance, the law and the lawless, pistoleros and politics, sharpshooters and shopkeepers, ranchers and farmers, cowboys and cattle drives, governors and goat headers, and Texas Rangers. It's about the passing of a frontier system and the emergence of modern times.
