Ellsworth Kelly made the drawings reproduced in this volume in the Fall of 1954. Published for the first time in this sketchbook facsimile, these drawings offer a rare and special glimpse into the distinguished artist's working process at the dawn of his career. The inspiration for the drawings in Sketchbook 23 came to the artist while riding a bus. Inspired by the shadows cast across the pages of a book, the artist took out his pencil and quickly recorded the outlines of the shadows directly onto the pages. Upon returning to his studio, Kelly reached for a sketchbook and began developing the sketches in ink, experimenting with variations, cropping and layering the shadow forms to generate new ones. These black and white drawings became the source material for larger works, including some of the artist's most celebrated canvases, such as *Atlantic* (1956) purchased by the Whitney Museum of American Art in 1957, the first work by Kelly to enter a museum collection.

Affectionately known as 'Koss', Paul Kossoff's playing touched people. It still does today, more than forty years after his sad and untimely death at the age of twenty-five. This authorised biography pays fitting tribute to a much-loved and widely admired musician whose influence and inspiration is still very evident. It's all here: Kossoff's musical childhood, his formative years with Black Cat Bones, forming Free at seventeen, that group's dizzying success, breakup, reforming and dissolution, the solo years, *Back Street Crawler* - the sessions, the tours and big concerts, the triumphs, the tragedies and the heartbreak - J.P. James takes the reader right there. Over four distinct sections, Kossoff's many guitars and the equipment he used to make them sing are fully documented; a brand-new detailed analysis of Kossoff's distinctive playing style and technique is presented for the first time; a broad overview of Kossoff's creative life draws on the voices of family, friends and fellow musicians; and finally, Kossoff's musical influences, approach to playing and his wider musical interests, hopes and dreams are explored - all drawn from his own words. Cramming so much into his short years, Paul Kossoff left a rich musical legacy, and he is indeed All Right Now. Thoroughly researched and sensitively written, given often in Kossoff's own words and packed with anecdotes from those who were there, musicians and fans alike will enjoy this authoritative and comprehensive biography.

But they are cruelly betrayed from within and, in a horrific spasm of violence, the city is brought to its knees. With the help of her bodyguard, Kork, the battle-trained young Rina narrowly escapes the slaughter and makes her way to the lair of an ancient sorcerer--the Ink Mage--who gifts her with a strange, beautiful set of magical tattoos. Now a duchess in exile, Rina sets out on a quest to reclaim what is rightfully hers, aided by a motley assortment of followers who will help her in her cause--some for noble reasons and others for their own dark purposes. With the enemy's agents nipping at her heels, Rina must learn to harness her new and startling magical powers if she is to assert her rightful place as ruler of Klaar.

The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

It has been 110 years since Alfa Romeo was founded. A name that has become synonymous with cars, so important has its presence been both industrially and in motorsport. Over this long period of time, the celebrated Italian manufacturer has created cars that have become part of motoring history such as the 1900, the Giulietta, the Giulia and the Alfetta. At the same time, Alfa Romeo has enjoyed an outstanding sporting career, winning all of the most significant races and titles, among them the Mille Miglia, the 24 Hours of Le Mans, the Tourist Trophy and the Formula 1 World Championship. This book, which first appeared in 2010 when Alfa Romeo (under the title 'Alfa Romeo 1910-2010') celebrated its first century, was written by the late Maurizio Tabucchi, an expert on the history of the marque, who passed away a few years ago. His work has now been updated to include all the latest models produced from 2017 to the present day such as the Stelvio and the Giulia Quadrifoglio Verde. The book has been completed with an examination of the Alfa Romeo marque's return to competition in partnership with Sauber, demonstrating that its "sporting heart" is still beating as strongly as ever.

*Advocating for Women with Postpartum Psychosis* takes the reader into the world of one of the most misunderstood mental illnesses. Affecting 1 to 2 out of 1,000 childbearing women a year in the United States, postpartum psychosis creates hallucinations and delusions, which, if untreated, can lead to infanticide and subsequently imprisonment or death for the mother. While other parts in the world, particularly the United Kingdom have more sympathetic laws, in the United States, women with postpartum psychosis are often stigmatized as "baby killers", and face the ultimate penalty. Through this book, though, authors Feingold and Lewis humanize the mother's experience to promote understanding and compassion. Beginning with an overview of the mental health and legal facets surrounding postpartum psychosis, the authors then provide vital resources and tools for mental health practitioners and legal professionals to enact change in their practices and communities. Complete with case studies and the authors' experiences in changing the law in their own state of Illinois, this book is a necessary resource for furthering dialogue and action around maternal mental illness.

Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those

were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

This book provides a comprehensive narrative history of U.S. involvement in Southeast Asia, from 1942 to 1975--with a concluding section that traces U.S.-Vietnam relations from the end of the war in 1975 to the present. Unlike most general histories of U.S. involvement in Vietnam--which are either conventional diplomatic or military histories--this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth, elucidating more of the complexities of the U.S.-Vietnam entanglement. It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina, and why they failed. Key topics: The Fall of Saigon: The End as Prelude. Vietnam: A Place and A People. The Elephant and the Tiger. An Experiment in Nation Building. Raising the Stakes. Going to War. The Chain of Thunders. The Year of the Monkey. A War to End a War. The End of the Tunnel. Market: For anyone curious to know about the long American involvement in Southeast Asia, 1942-1975.
