Today the language of mission is in disarray. Where do the language and idea of 'mission' come from? Do they truly have precedence in the early centuries of the church? Michael Stroope investigates these questions and shows how the language of mission is a modern phenomenon that shaped a 'grand narrative' of mission. He then offers a way forward. In recent years, the historiography of nineteenth-century Spain and Latin America has been invigorated by interdisciplinary engagement with scholars working on topics such as empire, slavery, abolition, race, identity, and captivity. No scholar better exemplified these developments than Christopher Schmidt-Nowara, a specialist on Spain and its Caribbean colonies in Cuba and Puerto Rico. A brilliant career was cut short in 2015 when he died at the age of 48. Rethinking Atlantic Empire takes Schmidt-Nowara's work as a point of departure, charting scholarly paths that move past reductive national narratives and embrace transnational approaches to the entangled empires of the Atlantic world.

You cannot discover lands already inhabited. In this prophetic blend of history, theology, and cultural commentary, Mark Charles and Soong-Chan Rah reveal the damaging effects of the "Doctrine of Discovery," which institutionalized American triumphalism and white supremacy. This book calls our nation and churches to a truth-telling that will expose past injustices and open the door to conciliation and true community. Begin. Innocentius Papa X. Ad Perpetuam Rei Memoriam. Romanus pontifex tamquam primas ecclesiae, et princeps civilis e monumentis omnium seculorum demonstratus Rutgers University Press
As early as 1441, and well before other European countries encountered Africa, small Portuguese and Spanish trading vessels were plying the coast of West Africa, where they conducted business with African kingdoms that possessed significant territory and power. In the process, Iberians developed an understanding of Africa's political landscape in which they recognized specific sovereigns, plotted the extent and nature of their polities, and grouped subjects according to their ruler. In African Kings and Black Slaves, Herman L. Bennett mines the historical archives of Europe and Africa to reinterpret the first century of sustained African-European interaction. These encounters were not simple economic transactions. Rather, according to Bennett, they involved clashing

understandings of diplomacy, sovereignty, and politics. Bennett unearths the ways in which Africa's kings required Iberian traders to participate in elaborate diplomatic rituals, establish treaties, and negotiate trade practices with autonomous territories. And he shows how Iberians based their interpretations of African sovereignty on medieval European political precepts grounded in Roman civil and canon law. In the eyes of Iberians, the extent to which Africa's polities conformed to these norms played a significant role in determining who was, and who was not, a sovereign people—a judgment that shaped who could legitimately be enslaved. Through an examination of early modern African-European encounters, *African Kings and Black Slaves* offers a reappraisal of the dominant depiction of these exchanges as being solely mediated through the slave trade and racial difference. By asking in what manner did Europeans and Africans configure sovereignty, politics, and subject status, Bennett offers a new depiction of the diasporic identities that had implications for slaves' experiences in the Americas. *The Reforms of the Council of Constance (1414-1418)* Berghahn Books

The first comprehensive study of the Constance reforms since 1867, this volume offers a new edition of the Constance reform committee records and

analyzes the rich conceptual basis for the reforms, arguing they were far more successful than historians have acknowledged.

A very powerful examination of the disastrous Christian Doctrine of Discovery. Not many people seem to be aware of its existence. Yet, its influence is felt in our very existence. This is the first volume of three that deal with a brief introduction to what it is and how it influences us today.
