Historian Jacques Pauwels applies a critical, revisionist lens to the First World War, offering readers a fresh interpretation that challenges mainstream thinking. As Pauwels sees it, war offered benefits to everyone, across class and national borders. For European statesmen, a large-scale war could give their countries new colonial territories, important to growing capitalist economies. For the wealthy and ruling classes, war served as an antidote to social revolution, encouraging workers to exchange socialism's focus on international solidarity for nationalism's intense militarism. And for the working classes themselves, war provided an outlet for years of systemic militarization -- quite simply, they were hardwired to pick up arms, and to do so eagerly. To Pauwels, the assassination of Archduke Franz Ferdinand in June 1914 -- traditionally upheld by historians as the spark that lit the powder keg -- was not a sufficient cause for war but rather a pretext seized upon by European powers to unleash the kind of war they had desired. But what Europe's elite did not expect or predict was some of the war's outcomes: social revolution and Communist Party rule in Russia, plus a wave of political and social democratic reforms in Western Europe that would have far-reaching consequences. Reflecting his broad research in the voluminous recent literature about the First World War by historians in the leading countries involved in the conflict, Jacques Pauwels has produced an account that challenges readers to rethink their understanding of this key event of twentieth century world history.

World War I was the first large-scale industrialized military conflict, and it led to the concept of total war. The essays in this volume analyze the experience of the war in light of this

concept's implications, in particular the erosion of distinctions between the military and civilian spheres.

*The Netherlands Indies and the Great War, 1914-1918* Bantam Grays (Thurrock) in the Great War tells the story of Grays and the wider Thurrock area from the outbreak of the Great War until the peace of 1918. The Docks at nearby Tilbury were the source of much employment in the area for both fathers and sons alike. They also played their part in the war, but not as a hub of military deployments. In May 1915 the German spy Augusto Alfredo Roggen, a Uruguayan born in Montevideo, arrived at Tilbury on board the SS Batavia, which had sailed from Rotterdam in Holland. On his arrival in England he made his way to Scotland to carry out his spying activities at the Loch Long torpedo range. He was captured, found guilty and executed by firing squad at the Tower of London on 17 November 1915. In July 1915 the German Naval officer and pilot, Gunther Plüschow, made good his escape from Donington Hall POW camp in Leicestershire and made his way safely back to Germany by hiding himself on board one of the many ships that sailed from Tilbury. He became the only German POW to escape from Britain and make it back to Germany during the First World War. The Kynochs munitions factory was situated near Fobbing on the site of what had previously been Borleys Farm. The site, which made shell cases, detonators, cordite and acetone for the British war effort, was so vast that it included its own housing estate for its workers, a hospital and a railway line. It became so big that it actually became known as Kynochtown and was a major source of employment in the area, particularly for women. There were Prisoner of War camps at Horndon House Farm, Puddledock Farm and Woodhams Quarry in West Thurrock which housed over 150 German prisoners. The Thurrock area also played an important part of protecting London from seaborne invasion up the River Thames with the help of Tilbury Fort and

Coalhouse Fort at East Tilbury.

This true contemporary account of an American nurse's horrific and sometimes bizarre experiences while serving at a French battlefield hospital near Soissons during World War I has poignant layers which even the often naive author did not see. "As our camion drove through the chateau gate we could see that the grounds were covered with what looked like sleeping men." That is just her own introduction to the unit, housed in what was once a country estate, and soon she was standing hours on end treating friend and enemy alike, facing harrowing hyperreality with aplomb. Shirley Millard is throughout a willing reporter of her fascinating perspective on war, youth, loss, and love -- and always slapdash surgery and gallows camaraderie, inside a MASH unit before there was M\*A\*S\*H. And before antibiotics, it is painfully clear. But she is also an unwitting reporter of so much more. The modern reader sees truths and wrongs that Shirley fails to experience herself, some at the time and too many upon rested reflection. Even some of the pronouns she uses reveal herself and the understory more than she ever realized. The book compels attention not only on the level on which she wrote it, which would be enough to bring crashing home this forgotten war, but also on levels hidden to her. Either way the insights pierce through, as when the young French doctor sums up war: "La gloire, la gloire! Bah! C'est de la merde!" He is a hero too, but has his own incongruous scenes later, just in his smoking habits alone. This collection of diary entries and later flashbacks may be the second greatest personal account of World War I, behind that by the much more self-aware Erich Remarque (though readers here may find themselves drawn into the lack of awareness as much as the account itself). Yet this book seems to have been lost in time and the crush of later events. As Time reviewed it in 1936, "Spare, simply written diary of a young, red-haired U.S. volunteer nurse in French hospitals near the front lines of 1918, in which romantic interludes heighten rather than ease a grisly atmosphere." It is that, but there is a lot more to it. And much of the writing is deeper than that, and certainly crisp and evocative in prose, even if some of the depth is more for the reader than the author. Includes penetrating new Foreword by law professor Elizabeth Townsend Gard, who studied the genre as part of her Ph.D.

research in History at UCLA. The original book, and its incongruities and twists revealed by Townsend Gard, will stick with you. Previously only available as a rare book, now returned to its place in poignant history. This book, though listed as "trade" or could be read by college adults, will have as its principal audience the general reader and young adults. It would be an excellent, fairly brief book to assign to classes in High School and possibly Middle School. Although some of its scenes are stark and upsetting, and one would be cautioned to have YAs read it much as would be true of the candor of *All Quiet on the Western Front*, it has no other aspects which would make it inappropriate for minors and allows excellent discussions of war, class, race, nationalism, medicine, unsung women in war, foreshadowing and subtext, and many other themes that the author herself did not mean to raise. In other words, since the writer speaks on one level, and does not realize the other levels she touches, it would help to develop readers' critical skills to share their opinions about what she is missing in her own text. And in the process there will be no concern that the book would be inappropriate for YAs except that some of the medical and casualty moments are, of course, brutal. By the time the First World War ended in 1918, eight million people had died in what had been perhaps the most apocalyptic episode the world had known. This Very Short Introduction provides a concise and insightful history of the 'Great War', focusing on why it happened, how it was fought, and why it had

the consequences it did. It examines the state of Europe in 1914 and the outbreak of war; the onset of attrition and crisis; the role of the US; the collapse of Russia; and the weakening and eventual surrender of the Central Powers. Looking at the historical controversies surrounding the causes and conduct of war, Michael Howard also describes how peace was ultimately made, and the potent legacy of resentment left to Germany. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Jay Winter's powerful study of the 'collective remembrance' of the Great War offers a major reassessment of one of the critical episodes in the cultural history of the twentieth century. Dr Winter looks anew at the culture of commemoration and the ways in which communities endeavoured to find collective solace after 1918. Taking issue with the prevailing 'modernist' interpretation

of the European reaction to the appalling events of 1914-18, Dr Winter instead argues that what characterised that reaction was, rather, the attempt to interpret the Great War within traditional frames of reference. Tensions arose inevitably. *Sites of Memory, Sites of Mourning* is a profound and moving book of seminal importance for the attempt to understand the course of European history during the first half of the twentieth century.

Founded in August 1914 with the principle that recruiting would be restricted to public school old boys, the volunteers gathered at Hurst Park racecourse in a spirit of youthful enthusiasm. A more somber mood soon set in. Despite many of the original volunteers leaving to take commissions in other regiments the battalion, now officially the 7th Middlesex, remained an elite until its disbandment in 1917. The climax of the Battalions war came on 1 July 1916. Close to the Hawthorn Redoubt Crater are two cemeteries sited on either side of the Auchonvilliers Beaumont Hamel road. They contain row upon row of stones marking the graves of members of the Public Schools Battalion. The author, shocked by this discovery, has spent ten years researching the history of the Battalion and the events of that fateful day as they affected it. The result is a fascinating and moving record of a very uniquely British battalion.

In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. On his seventeenth birthday, New South Wales farm boy, Callan McAlister joins the Australian Imperial Force (AIF) and is swept away to war. His first taste of blood comes from an unexpected

enemy in the Sinai Desert, before being shipped to Gallipoli. Callan receives a shock while convalescing in peaceful, idyllic Ireland during the Easter of 1916. But the Western Front awaits — all before his nineteenth birthday. Callan falls in love with a lovely English beauty, Ivy Brown, but their path to happiness is neither easy nor pre-ordained. A lowly Australian private soldier is viewed with doubt and disapproval by Ivy’s aristocratic family — not to mention Callan’s chances of surviving the brutality of the Great War. An offer to join the fledgling Royal Flying Corps (RFC) may be Callan’s chance to escape the endless mud-filled trenches, infested with rats, lice, trench fever and foot-rot, and tormented by German machine-gunners and artillery bombardments. But, with minimal training, an RFC pilot’s life expectancy is tenuous at

best. Ivy also experiences her baptism of fire as an ambulance driver for the First Aid Nursing Yeomanry (FANY). Callan and Ivy’s struggle reaches its startling climax in an air race to the far reaches of the British Empire where law and justice are the domain of the most powerful and those ruthless enough to go to any lengths to achieve their desires. If you read only one book set against WWI during its centenary anniversary, make it McAlister and the Great War. This novel, ranging across a truly global canvas, explores many fascinating and thrilling historical incidents that occurred during the tragic conflict.
