The Unofficial Guide to Cruises CABI
The cruise ship market is a 30 billion-dollar industry, and in 2013 it is estimated that it will carry more than 20 million passengers; nor is there any sign of a slow down in the seven percent annual growth. What keeps the passengers coming in such huge numbers isn't the food, the ports or the entertainment. They come for the magnificent floating palaces themselves, the giants of the sea.?In this

new book, the author showcases the most influential cruise ships of the last three decades beginning with Royal Caribbean's ground-breaking Sovereign of the Seas. When she was launched in 1988 she was the largest passenger ship constructed since Cunard's Queen Mary entered service some 48 years earlier, and her entry into service sparked a fiercely competitive building boom that continues to this day. ??The reader is taken aboard thirty of the most spectacular ships to reveal how their innovative designs changed the landscape of modern

cruising. By employing original and archival photographs, deck plans, cruise programmes, as well as the author's intimate knowledge of many of these vessels, a unique picture is built up of these great ships and it becomes clear that the true Golden Age of Cruising is not in some distant past but exists right now, and that its origins can be traced back to one ship, launched in 1988.??A truly sumptuous and fascinating book for all those drawn to the world of the modern cruise ship.??As seen in Ships Monthly Magazine

The Business and Management of Ocean Cruises John Wiley & Sons

After decades of solid growth, the worldwide ocean cruise sector has become a noticeable economic factor and a significant employer. In the way it combines social, technological and natural systems to form its products, cruise tourism is an increasingly attractive area of study; particularly with regards to the managerial challenges posed by the interaction of these systems. This book brings together industry know-how, managerial experience and academic rigour to cover some of the most

important and interesting managerial challenges associated with ocean cruises.

Maritime Economics The Blackwell Companion to Maritime Economics presents a comprehensive and in-depth coverage of shipping and port economics. Featuring contributions from the most respected international specialists in the field, this reference offers up-to-date insights into maritime carriers and their markets (e.g., freight, intermodal and -passenger), shipping economics (e.g., dry bulk, liquid bulk, container, regulation, taxation, seafaring, safety and piracy), ship economics (e.g., equity, bond and hedging ship finance) and port economics

(e.g., governance, labor, competition, efficiency, choice, investment, clusters, inspection and security). In addition to providing a comprehensive survey of the literature on past and current practices on a wide range of maritime topics, new empirical research on safety and piracy in shipping, ship finance, and container terminal efficiency is presented as well as original theories for maritime carriers and ports that provide greater insights into their operations. With its unprecedented breadth of coverage and range of scholarship, The Blackwell Companion to Maritime Economics represents the new standard resource for any and all topics related to maritime economics.

The book contains 12 contributions that explain the current state of China's cruise industry and future development. Dating from the 1960s and with the rapid development of over 50 years, the modern cruise industry has developed into one of the fastest growing industries with the most remarkable economic benefits in the

global tourism and hospitality industry, known as a "golden industry on the golden waterway". In recent years, with the gradual saturation of international cruise market and the eastward-moving trend of the center of cruise market, China has become a strategic emerging market with which international cruise lines have been competing. A number of international cruise lines, including Costa Crociere, Royal Caribbean Cruises, Princess Cruises, MSC Cruises, Star Cruises, Norwegian Cruise Line and Dream Cruises, have entered the cruise market in Mainland China.

Cruise Operations Management provides a comprehensive and contextualised overview of hospitality services for the cruise industry. As well as providing a background to the cruise industry, it also looks deeper into the management issues providing a practical guide for both students and professionals alike. A user-friendly and practical guide it discusses issues such as:

- The history and image of cruising
- How to design a cruise and itinerary planning
- Roles and responsibilities on a cruise ship
- Customer service systems and passenger profiles
- Managing food and drink operations onboard
- Health, safety and security

 Cruise Operations Management presents a range of contextualised facts illustrated by a number of case studies that encourage the reader to examine the often complex circumstances that surround problems or events associated to cruise operations. The case studies are contemporary and are constructed from first hand research with a number of international cruise companies providing a real world insight into this industry. Each case study is followed by questions that

are intended to illuminate issues and stimulate discussion. The structure of the book is designed so the reader can either build knowledge cumulatively for an in-depth knowledge of managerial practices and procedures onboard a cruise ship, or they can 'dip in' and make use of specific material and case studies for use within a more generic hospitality or tourism learning context.

- * Comprehensive overview of hospitality services and operations written specifically for the cruise industry
- * Uses contemporary examples to illustrate the unique aspects of this industry providing a clear understanding of managing operations onboard
- * Flexible format enables readers to build knowledge cumulatively or jump in and make use of specific material within a hospitality or tourism learning context

Hearing Before a Subcommittee, Eighty-fourth Congress, Second Session, on S.J. Res. 177 to Authorize the Secretary of Commerce to Sell Certain War-built Tankers. July 3, 1956 Goodfellow Publishers Ltd

The stunning elegance and luxurious interiors of today's vast fleet of cruise liners remains unrecorded in all but holiday brochures. This book gives a complete overview of the cream of these ships, today's queens of the sea. Each liner is illustrated and described with color illustrations of external and interior views. Details of the design, building and service history of each vessel are provided with vital statistics of the ship and its facilities. Among the ships included are Cunards Queen Victoria and Queen Mary 2, the big new Princess Line liners—Ruby, Grand Sea and Celebrity Eclipse, the two Ocean Village ships and the largest of the P&O liners Ventura, Oceana, Arcadia, Aurora and Artemis. This is a book of reference for maritime enthusiasts, would-be holiday cruisers and those who have been passengers.
