Holding UNPOL to Account BRILL 'Local Responses to Global Challenges in Southeast Asia — A Transregional Studies Reader' is a collection of multidisciplinary essays, predominantly derived from papers presented at EuroSEAS 2019, the leading academic conference on Southeast Asian Studies, hosted by Humboldt-Universität zu Berlin. It brings together a variety of scholars from Southeast Asia, Europe and North America, allowing for multiple flows and directionalities of knowledge productions and exchanges, be it between the Global South and North as well as within the Global South. The reader presents empirically-oriented, theoretically grounded analyses of local responses to global challenges such as knowledge-productions; notions and practices of building diverse communities; neo-populisms and contentious politics; resources and sustainability; urbanization; labor, livelihoods and mobilities. Each section starts with an introduction reviewing the

state of the art. Authors will take cue from a transregional perspective understood as a distinct and alternative perspective on multi-lingual and transcultural spaces of contact, exchange and transfer. This includes a contextualization of phenomena in terms of diverse (cross) linkages and entanglements, including motilities on different scales, i.e. ranging from the local, regional to national and/or global levels. Container-based notions of place and space are addressed in a critical manner, where space and area are understood as notions beyond established systems of ordering and meta-geographies. A key goal is to allow for a consistent conceptual advancement of New Area Studies, which are critical, decentred, decolonial, diversified, and multi-disciplinary in nature.

The U.S. Department of Labor's 2003 Findings on the Worst Forms of Child Labor International Labour Organization The Philippine Islands became independent on June 12, 1898, but faced a new colonizer upon the acquisition of the Islands by the United States of America from Spain through the Treaty

of Paris. The revolutionaries fought a new, protracted war despite the superiority of the American forces. Against all odds, Filipinos continued the struggle for independence. Many died in battle while the unwavering hold-outs faced the dubious distinction of being convicted for the crime of brigandage. Of those convicted, many were hanged at the gallows, while others endured long prison sentences. They all went down in history as brigands, rebels, and criminals. What happened to these men were written in the decisions of the Supreme Court, with the Philippine Islands still under American rule. These decisions, compiled in the Philippine Reports, contained "e;names and facts"e; which historians and researchers could use to evaluate and complete the story of the Philippine nation during an era systematically forgotten. In the turmoil of nation-building, the Filipinos' convictions became their badge of honor, their exploits perpetually etched in the pages of the Philippine Reports. This is their story.

The ASEAN Economic Community Rex Bookstore, Inc.

Ironically, women are still victimised in our society. They have been at the receiving end, from the very beginning of our civilization and culture. Cutting across the regional and political barriers, their lot has been the same. The wrong perception, prevalent in our society is that they are born to be subservient to men and they must be confined to child-bearing and rearing only. There has been a growing trend of violence against women, more so with hunger and greed for material things. Progressive changes in personal lifestyle, living standards and varied growth, caused by urbanisation and changes in social ethos, all contribute to violent attitudes and

tendencies, towards women, which have resulted in an increase in crimes against women. This book would prove to be of worth for all scholars, researchers and social workers, who may prefer to know about the subject. They would find it, easy to read and comprehend. It would certainly be an asset for them.

International Fraud Handbook

Cambridge Scholars Publishing

The Research Handbook on International Abortion Law provides an in-depth, multidisciplinary study of abortion law around the world, presenting a snapshot of global policies during a time of radical change. With leading scholars from every continent, Mary Ziegler illuminates key forces that shaped the past and will influence an unpredictable future.

Fundamentals of Criminal Law

Review Oxford University Press

This book contributes conceptually, theoretically and morally to a deeper understanding of the distinctive Asian perceptions of punishment, justice and human rights. Researched and prepared by scholars who have not only been conducting studies on the death penalty in the region but have also been advocating for legal reforms, this edited book touches upon the different justifications for the use of capital punishment in the ASEAN region, exposing the secrecy, sensitivities and dilemmas that mask violations of international human rights laws. The chapters bring in numerous new perspectives which have been overlooked in the traditional discourse surrounding the use of the death penalty, such as that around crimes that do not meet the threshold of "most serious"; the dignity of death row inmates and their families; contradictions within religion and capital punishment; and the way in which

growing authoritarianism and the media are adversely influencing the public's perception and support for capital punishment in the region. In examining how public opinion shapes state policies towards the death penalty and how it varies according to different offences and different states, the authors critically analyse how the international human rights mechanisms have specifically called for ASEAN member states to refrain from extending the application of the death penalty and to limit it to the "most serious crimes." Relevant to socio-legal scholars focused on crime and punishment in Southeast Asia, and in the Global South more broadly, this is a landmark collection in criminology and human rights scholarship. Chapter "ASEAN and the Death Penalty: Theoretical and Legal Views and a Pathway to Abolition" is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Aviation Law and Policy in Asia BRILL
This is an important and timely volume: important because ASEAN is an increasingly significant and influential regional and global actor; and timely because, as the 2015 ASEAN Economic Community target approaches, what is needed is a sympathetic yet arms-length survey of the issues and challenges. ASEAN will miss some of the targets laid out in its AEC Blueprint, but the reader is left in no doubt that the ASEAN spirit is alive and well. The editors include a distinguished former Secretary General of ASEAN and the leading academic analyst of ASEAN economic cooperation. They and their co-editors are to be congratulated for soliciting contributions from an outstanding and diverse group of authors, and then adding their highly authoritative commentary and analysis.

A must read for anybody seriously interested in ASEAN.

Traffic in Opium and Other Dangerous Drugs with Respect to the Philippine Islands ... Bloomsbury Publishing

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in Philippines deals with the regulation of sports activity by both public authorities and private sports organizations. The growing internationalization of sports inevitably increases the weight of global regulation, yet each country maintains its own distinct regime of sports law and its own national and local sports organizations. Sports law at a national or organizational level thus gains a growing relevance in comparative law. The book describes and discusses both state-created rules and autonomous self-regulation regarding the variety of economic, social, commercial, cultural, and political aspects of sports activities. Self-regulation manifests itself in the form of by-laws, and encompasses organizational provisions, disciplinary rules, and rules of play. However, the trend towards more professionalism in sports and the growing economic, social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas, including criminal law, labour law, commercial law, tax law, competition law, and tort law, and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much-publicized aspects as doping, sponsoring and media, and responsibility for injuries are legally measured. This monograph fills a gap in the legal literature by giving academics, practitioners, sports organizations, and policy makers access

to sports law at this specific level. Lawyers representing parties with interests in Philippines will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative sports law. Sports Law in the Philippines Routledge This book examines the numerous new courts created throughout Asia during the last 20 years, covering important jurisdictions including human rights, intellectual property disputes, bankruptcy petitions, commercial contracts, public law adjudication, personal law, labour and industrial disputes. It evaluates their performances, and considers the broader economic, social and political implications.

Pointers in Criminal Law Kluwer Law International B.V.

The growing economic and political significance of Asia has exposed a tension in the modern international order. Despite expanding power and influence, Asian states have played a minimal role in creating the norms and institutions of international law; today they are the least likely to be parties to international agreements or to be represented in international organizations. That is changing. There is widespread scholarly and practitioner interest in international law at present in the Asia-Pacific region, as well as developments in the practice of states. The change has been driven by threats as well as opportunities. Transnational issues such as climate change and occasional flashpoints like the territorial disputes of the South China and the East China Seas pose challenges while economic integration and the proliferation of specialized branches of law and dispute settlement mechanisms have also encouraged greater domestic

implementation of international norms across Asia. These evolutions join the long-standing interest in parts of Asia (notably South Asia) in post-colonial theory and the history of international law. The Oxford Handbook of International Law in Asia and the Pacific brings together pre-eminent and emerging specialists to analyse the approach to and influence of key states of the region, as well as whether truly 'Asian' trends can be identified and what this might mean for international order. Migrant Smuggling: Illegal Migration and Organised Crime in Australia and the Asia Pacific Region Edward Elgar Publishing

Analyzes courts in fourteen selected Asian jurisdictions to provide the most up-to-date and comprehensive interdisciplinary book available.

Piracy and International Maritime Crimes in ASEAN Edward Elgar Publishing

"This book spans a number of interdependent and emerging topics in the area of legal protection of privacy and technology and explores the new threats that cyberspace poses to the privacy of individuals, as well as the threats that surveillance technologies generate in public spaces and in digital communication"--Provided by publisher.

Kenya Gazette K.K. Publications

The essential resource for fraud examiners around the globe The International Fraud Handbook provides comprehensive guidance toward effective anti-fraud measures around the world. Written by the founder and chairman of the Association of Certified Fraud Examiners (ACFE), this book gives examiners a one-stop resource packed with authoritative information on cross-border fraud investigations, examination methodology, risk management, detection, prevention, response, and

more, including new statistics from the ACFE 2018 Report to the Nations on Occupational Fraud and Abuse that reveal the prevalence and real-world impact of different types of fraud. Examples and detailed descriptions of the major types of fraud demonstrate the various manifestations examiners may encounter in organizations and show readers how to spot the “red flags” and develop a robust anti-fraud program. In addition, this book includes jurisdiction-specific information on the anti-fraud environment for more than 35 countries around the globe. These country-focused discussions contributed by local anti-fraud experts provide readers with the information they need when conducting cross-border engagements, including applicable legal and regulatory requirements, the types and sources of information available when investigating fraud, foundational anti-fraud frameworks, cultural considerations, and more. The rising global economy brings both tremendous opportunity and risks that are becoming increasingly difficult to manage. As a result, many jurisdictions are attempting to strengthen their anti-fraud environments — whether through stricter anti-bribery laws or more stringent risk management guidelines — but a lack of uniformity in legal rules and guidance can be challenging for organizations doing business abroad. This book helps examiners mitigate fraud in their own organizations, while taking the necessary steps to prevent potential legal exposure. Understand the different types of fraud, their common elements, and their impacts across an organization Conduct a thorough risk assessment and implement effective response and control activities Learn the ACFE’s standard investigation

methodology for domestic and cross-border fraud investigations Explore fraud trends and region-specific information for countries on every continent As levels of risk increase and the risks themselves become more complex, the International Fraud Handbook gives examiners a robust resource for more effective prevention and detection. *Annual Report of the Governor General, Philippine Islands* Cambridge University Press

This multidisciplinary volume offers an essential, comprehensive study of perspectives on the scope and application of the best interests of the child and focuses mainly on its application in relation to child custody. With expert contributions from psychological, sociological and legal perspectives, it offers scientific analysis and debate on whether it should be the primary consideration in deciding child custody cases in cases of divorce or separation or whether it should be one of several primary considerations. It explores complex dilemmas inherent in shared parenting and whether the advantages it offers children are sufficient when compared to attributing custody to one parent and limiting visitation rights of the other. Offering a comprehensive analysis of this complex topic, chapters provide detailed insight into the current state of research in this area, as well as expert guidelines aimed at resolving the controversies when parents agree or disagree over their children’s living arrangements. Cutting-edge topics explored include: transnational shared parenting; alternative dispute resolution; breastfeeding parents; religious disputes between parents and the psychological, social and economic factors that affect shared parenting. The Routledge

International Handbook of Shared Parenting and Best Interest of the Child will be essential reading for scholars and graduate students in law, psychology, sociology and economics interested in shared parenting and family law.

Official Gazette Routledge

An analysis of debates and mechanisms of international criminal law in Cambodia, Indonesia, the Philippines, and Myanmar.

Local Responses To Global Challenges In Southeast Asia: A Transregional Studies Reader Flipside Digital Content Company Inc.

Across the Asia Pacific, there are a vast range of experiences of homelessness and an equally diverse range of responses from state systems. Since understandings of homelessness are also heavily dependent on geographical, cultural, and historical contexts, attitudes towards it as a 'social problem' are essentially underpinned by ideological considerations. With a particular focus on critical and international policy and practice, this book builds upon the current scholarship of homelessness across the Asia Pacific. Through examining and comparing a range of state responses, it explores the differing definitions and lived experiences of the issue in a number of countries, including Japan, China, India, Korea, and Australia. The book analyses a range of key themes from welfare provision and legislation to the services provided and the roles played by non-governmental organisations, whilst also recognising the effects of class, gender and ethnicity on homelessness in the region. Taking an interdisciplinary approach, *Faces of Homelessness in the Asia Pacific* will be useful to students and scholars of Social Policy, Urban Sociology, Psychology and Asian Studies.

Research Handbook on Asian Competition Law IGI Global

Advancing the Human Right to Health offers a prospective on the global response to one of the greatest moral, legal, and public health challenges of the 21st century - achieving the human right to health as enshrined in the Universal Declaration of Human Rights (UDHR) and other legal instruments. Featuring writings by global thought-leaders in the world of health human rights, the book brings clarity to many of the complex clinical, ethical, economic, legal, and socio-cultural questions raised by injury, disease, and deeper determinants of health, such as poverty. Much more than a primer on the right to health, this book features an examination of profound inequalities in health, which have resulted in millions of people condemned to unnecessary suffering and hastened deaths. In so doing, it provides a thoughtful account of the right to health's parameters, strategies on ways in which to achieve it, and discussion of why it is so essential in a 21st century context. Country-specific case studies provide context for analysing the right to health and assessing whether, and to what extent, this right has influenced critical decision-making that makes a difference in people's lives. Thematic chapters also look at the specific challenges involved in translating the right to health into action. *Advancing the Human Right to Health* highlights the urgency to build upon the progress made in securing the right to health for all, offering a timely reminder that all stakeholders must redouble their efforts to advance the human right to health.

The Department of Labor's ... Findings on the Worst Forms of Child Labor Springer Nature

This timely Research Handbook provides

a comprehensive overview and discussion of the substantive competition law provisions of the ASEAN Plus Three region, including Hong Kong and Taiwan. Taking a unique comparative perspective, chapters examine Asian competition laws in relation to the existing laws that served as models for them, analysing how and why they deviate.

Unpacking the Death Penalty in ASEAN John Wiley & Sons

The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.

Privacy and Data Protection Law in the Philippines World Scientific

At a time when Asia represents the fastest growing economic region, there is no better moment to consider what trusts law can contribute to societal stability and economic prosperity. This book does this by offering the first work that systematically explores trusts law across the region. Many Asian-Pacific jurisdictions have integrated and developed trusts law in their legal systems; either through colonial heritage or statutory activism. But the diversity of legal traditions and local contexts has resulted in trusts laws having a significantly varied impact across the region. In the modern globalised world there is growing need to adopt an outward looking approach in dealing with matters of common interest. This book answers this need by bringing together leading legal scholars and practitioners in the region to explore the theory and

practice of trusts law, contextualised to specific jurisdictions in the Asia-Pacific. Exploring 17 jurisdictions in Asia, it brings both an academic and practitioner perspective to trusts law in the region.

Why Slavery Endures BRILL

This book makes an important contribution to the legal literature not only for the ASEAN region but also for the world at large. Both editors, Robert Beckman and J. Ashley Roach, are highly knowledgeable and experienced in the international law pertaining to piracy and international crimes. The chapters they write combined with perspectives by authors from Greece, Sweden, Singapore, Philippines and elsewhere provide a broad but detailed review of the current law and policy as well as remaining challenges.

Myron H. Nordquist, University of Virginia School of Law, US This book is an outstanding analysis of piracy and maritime crimes in the ASEAN region edited by two world-class law of the sea experts. It is must reading for anyone seriously interested in ending the scourge of piracy. John Norton Moore, University of Virginia and former United States Law of the Sea Ambassador I can confidently say that this is the best book on the legal dimension of the problem of piracy in general, and of piracy in Southeast Asia and off the coast of Somalia in particular, and what we can do about it. Robert Beckman and Ashley Roach are two of the finest minds working in international law today. They have brought their knowledge and sharp analytical skills to edit a book of great relevance to the world's shipping industry, IMO, ASEAN and international lawyers and law enforcement agencies. Tommy Koh, United Nations Convention on the Law of the Sea Southeast Asian waters are critical for international trade and the

global economy. Combating maritime crimes has always been a priority as well as a challenge for ASEAN member states. While much emphasis has been placed on enhancing operational cooperation against maritime crimes, the need for an effective legal framework to combat such maritime crimes has not been sufficiently examined. This book demonstrates that ASEAN member states can establish a legal framework to combat maritime crimes by ratifying and effectively implementing relevant global and regional conventions. It also

explores the issues that ASEAN member states, and ASEAN as an organization, face in establishing such a framework and suggests suitable steps that can be taken to address such issues. This informative and detailed study will inform research and policy, and will appeal to government, treaty and policy officials, academics, researchers and students, as well as international and regional organizations concerned with piracy and other related maritime crimes, ocean affairs and the law of the sea.
