“The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational.” —Kevin Kwan, author of Crazy Rich Asians Amy Tan’s beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary Amy Tan: Unintended Memoir on Netflix Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

Talking Music is comprised of substantial original conversations with seventeen American experimental composers and musicians—including Milton Babbitt, Pauline Oliveros, Steve Reich, Meredith Monk, and John Zorn—many of whom rarely grant interviews.The author skillfully elicits candid dialogues that encompass technical explorations; questions of method, style, and influence; their personal lives and struggles to create; and their aesthetic goals and artistic declarations. Herein, John Cage recalls the turning point in his career; Ben Johnston criticizes the operas of his teacher Harry Partch; La Monte Young attributes his creative discipline to a Morman childhood; and much more. The results are revelatory conversations with some of America's most radical musical innovators.

This book offers the most detailed account so far of the early works of these four minimalist composers, putting extensive discussion of the music into a biographical perspective. The true musical minimalism of the 1960s and early 1970s is placed in the wider context of their music as a whole, and considered within the cultural conditions of the period, which saw not only the rise of minimalism in the fine arts but also crucial changes in the theory and practice of musical composition in the Western cultivated tradition.

The Best Thoughts to Think Five Minutes Before Boydell & Brewer
(Piano Solo Songbook). "I think there is a similarity between the infinite big and the infinite smallness of everything," says Yann Tiersen. "It's the same experiment looking through a microscope as it is a telescope." Named after a chapel in a small village on the island of Ushant, Kerber marks a new chapter in critically-acclaimed composer Yann Tiersen's career. A chapter still true to Tiersen's nuanced and subtle approach but one that sets out with his most overtly electronic material to date. Beautifully textured, highly immersive and thoughtfully constructed, Tiersen creates an electronic world, providing an environment in which the piano source exists. A sense of place has often been a central theme in Tiersen's work and here that is no different. Each track is tied to a place mapping out the immediate landscape that surrounds Tiersen's home, linking back to his thoughts on the possibilities of the infinite smallness. This official, exclusive folio is beautifully

printed on high-quality, uncoated paper with striking graphic artwork. All seven pieces are presented for solo piano and follow an exclusive introduction to the project.

The intriguing cultural history of the piano in Australia From the instruments that floated ashore at Sydney Cove in the late eighteenth century to the resurrection of derelict heirlooms in the streets of twenty-first-century Melbourne, A Coveted Possession tells the curious story of Australia’s intimate and intrepid relationship with the piano. It charts the piano’s fascinating adventures across Australia – on the goldfields, at the frontlines of war, in the manufacturing hubs of the Federation era, and in the hands of the makers, entrepreneurs, teachers and virtuosos of the twentieth history – to illuminate the many worlds in which the ivories were tinkled. Before electricity brought us the gramophone, the radio and eventually the TV, the piano was central to family and community life. With its iron frame, polished surfaces and ivory keys, an upright piano in the home was a modern industrial machine, a musical instrument and a treasured member of the household, conveying powerful messages about class, education, leisure, national identity and intergenerational history. ‘Michael Atherton cleverly weaves visual, sensual and sonic elements into the piano’s sociocultural history, adding a rich layer to our knowledge of the piano in Australia.’ —Professor Julia Horne, historian

Few music lovers realize that the arrangement of notes on today’s pianos was once regarded as a crime against God and nature, or that such legendary thinkers as Pythagoras, Plato, da Vinci, Galileo, Kepler, Descartes, Newton and Rousseau played a role in the controversy. Indeed, from the time of the Ancient Greeks through the eras of Renaissance scientists and Enlightenment philosophers, the relationship between the notes of the musical scale was seen as a key to the very nature of the universe. In this engaging and accessible account, Stuart Isacoff leads us through the battles over that scale, placing them in the context of quarrels in the worlds of art, philosophy, religion, politics and science. The contentious adoption of the modern tuning system known as equal temperament called into question beliefs that had lasted nearly two millenia–and also made possible the music of Beethoven, Schubert, Chopin, Debussy, and all who followed. Filled with original insights, fascinating anecdotes, and portraits of some of the greatest geniuses of all time, Temperament is that rare book that will delight the novice and expert alike.

Visionary composer, theorist, and creator of musical instruments, Harry Partch (1901-1974) was a

leading figure in the development of an indigenously American contemporary music. A pioneer in his explorations of new instruments and new tunings, Partch created multimedia theater works that combine sight and sound in a compelling synthesis. He is acknowledged as a major inspiration to postwar experimental composers as diverse as György Ligeti, Lou Harrison, Philip Glass, and Laurie Anderson, and his book *Genesis of a Music*, first published in 1949, is now considered a classic. This book is the first to tell the complete story of Partch's life and work. Drawing on interviews with many of Partch's associates and on the complete archives of the Harry Partch Estate, Bob Gilmore provides a full and sympathetic portrait of this extraordinary creative artist. He describes Partch's complicated relationships with friends, patrons, the musical establishment, and the world at large. He traces Partch's upbringing in the remote desert towns of the Southwest, his explosive encounter with formal music education in Los Angeles, and his revolutionary course as a composer that began with an interest in the musicality of speech patterns. After immersing himself in hobo subculture during the Depression, Partch came to occupy a lonely and uncompromising position as a cultural outsider. Richly fascinating in themselves, Partch's compositions, writings, and life also have much to reveal about American society and the creative impulses of the artistic avant-garde.

Where did musical minimalism come from—and what does it mean? In this significant revisionist account of minimalist music, Robert Fink connects repetitive music to the postwar evolution of an

American mass consumer society. Abandoning the ingrained formalism of minimalist aesthetics, *Repeating Ourselves* considers the cultural significance of American repetitive music exemplified by composers such as Terry Riley, Steve Reich, and Philip Glass. Fink juxtaposes repetitive minimal music with 1970s disco; assesses it in relation to the selling structure of mass-media advertising campaigns; traces it back to the innovations in hi-fi technology that turned baroque concertos into ambient "easy listening"; and appraises its meditative kinship to the spiritual path of musical mastery offered by Japan's Suzuki Method of Talent Education.

Performing Music History offers a unique perspective on music history and performance through a series of conversations with women and men intimately associated with music performance, history, and practice: the musicians themselves. Fifty-five celebrated artists—singers, pianists, violinists, cellists, flutists, horn players, oboists, composers, conductors, and jazz greats—provide interviews that encompass most of Western music history, from the Middle Ages to contemporary classical music, avant-garde innovations, and Broadway musicals. The book covers music history through lenses that include “authentic” performance, original instrumentation, and social context. Moreover, the musicians interviewed all bring to bear upon their respective subjects three outstanding qualities: 1) their high esteem in the music world as immediately recognizable names among musicians and public alike; 2) their energy and devotion to scholarship and the recovery of endangered musical heritages; and 3) their considerable skills, media savvy, and showmanship as communicators. Introductory essays to each chapter provide brief synopses of historical eras and topics. Combining careful scholarship and lively conversation, *Performing Music History* explores historical contexts for a host of fascinating issues.
