Understanding Da Vinci's Creative Genius The life and art of history's most influential mind Bestselling author Leonard Shlain explores the potential for humankind through the life, art, and mind of the first true Renaissance Man, Leonardo da Vinci. His innovations as an artist, scientist, and inventor are recast through a modern lens, with Shlain applying contemporary neuroscience to illuminate da Vinci's creative process. No other person in human history has excelled in so many areas of innovation:

Shlain reveals the how and the why. Shlain theorizes that Leonardo's extraordinary mind came from a uniquely developed and integrated right and left brain, which offers a model for how we too can evolve. Using past and current research, Leonardo's Brain presents da Vinci as the focal point for a fresh exploration of human creativity. With his lucid style and remarkable ability to discern connections among a wide range of fields, Shlain brings the reader into the world of history's greatest mind. Leonard Shlain is a bestselling author, inventor, and surgeon. Admired among artists, scientists, philosophers, anthropologists, and educators, he authored three bestselling books. He delivered stunning visual presentations based upon his

books in venues around the world, including Harvard, the New York Museum of Modern Art, CERN, Los Alamos, the Florence Academy of Art, and the European Council of Ministers. Shlain died in May 2009 at the age of 71 from brain cancer shortly after the completion of this book. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a "barefoot doctor," a steelworker, and an electrician. As the story of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history.

The Garden District of New Orleans has enthralled residents and visitors alike since it arose in the 1830's with its stately white-columned Greek Revival mansions and double-galleried Italianate

houses decorated with lacy cast iron. Photographer West Freeman evokes the romance of this elegant neighborhood with lovely images of private homes, dazzling gardens, and public structures. Author Jim Fraiser vividly details the historical significance and architectural styles of more than a hundred structures and chronicles both the political and cultural evolution of the neighborhood. The Garden District, unlike the French Quarter, evolved under the auspices of predominantly Anglo-American architects hired by newly arriving, and newly wealthy, Americans. Beyond these wealthy homeowners, the Garden District also offers a startlingly diverse and freewheeling history teeming with African American slaves, free men and women of color, French, Italians,

Germans, Jews, and Irish, all of whom helped fashion it into one of America's first suburbs and most extraordinary neighborhoods. Fraiser animates the Garden District's story with such notables as Mark Twain; Jefferson Davis; occupying Union general Benjamin Butler; flamboyant steamboat captain Thomas Leathers; crusading Reverend Theodore Clapp; Confederate generals Jubal Early and Leonidas Polk; jazzmen Joe "King" Oliver and Nate "Kid" Ory; champion pugilist John L. Sullivan; local authors Grace King, George Washington Cable, and Anne Rice; Mayor Joseph Shakespeare; architects Henry Howard, Lewis Reynolds, and Thomas Sully; cotton magnate Henry S. Buckner; and Louisiana Lottery co-founder John A. Morris. In words and photographs,

Fraiser and Freeman explore the unexpected evolution of this district and reveal how war, plagues, politics, religion, cultural conflict, and architectural innovation shaped the incomparable Garden District.
