Degrees of the Zodiac: Revised Edition  
Lynn Buess has done it again! As an innovator in the consciousness and self-awareness field for over fifty years, he has now contributed a decidedly unique perspective of the time-honored system of astrology, helping humanity further understand its relationship to the universe. With this latest contribution to self-growth, Lynn offers an original perspective of numerology — this time with the combination of numerological characteristics and astrological influences. He not only writes from an intellectual viewpoint but as someone who has experienced glimpses of cosmic consciousness. Like most of his works, it is his hope that this volume will help seekers better connect to their cosmic memories of being both human and eternal in nature. Experience all the signs of the zodiac in minute detail: Aries • Taurus • Gemini • Cancer • Leo • Virgo • Libra • Scorpio • Sagittarius • Capricorn • Aquarius • Pisces It is my feeling that the sun degree serves a role of pinpointing just where the soul has the opportunity to make significant strides in

personal growth or potentially stumble into a setback. A combination of the numerical value of the degree and the sun sign are blended together to offer insight about the nature of that commitment.— Lynn Buess, MA, EdS

Degrees of the Zodiac was written by noted astrologer Esther V. Leinbach and originally published by Macoy Publishing Company in 1973. This Revised Edition from the author's son, Kevin Leinbach, has been updated for the new Millennium, using the Author's original source material and research. Popular Astrology takes into consideration only one factor: the location of the Sun in the Zodiac, the Sun Sign. Even some astrologers only consider the twelve signs of the Zodiac and disregard the individual 30 degrees that make up the total span of the sign. But the degrees are a very significant influence in the chart and more and more astrologers are discovering how important degrees are to horoscope interpretation. The 360 Degrees in the circle of the Zodiac are activated by the Sun, the Moon and the Planets, even the house cusps of every horoscope. These degrees help to account for the many different expressions of each individual sign. Degree influences have often been seen as ethereal and mysterious, relying on symbolism to suggest potential expressions. Perhaps the advantage of symbols is that they can be interpreted in the current context directly. But symbols can also be quite difficult to decipher. This book was originally written to bring the symbolism into a descriptive, practically applicable format that can more easily be used in chart interpretation. The approach is psychological rather than symbolic. It was intended to be accessible to the novice as well as the professional astrologer. But when particular references are made to current insights

or methods, there is some danger that degree descriptions can become outdated. This Revised Edition has been released to update the descriptions with a current perspective and incorporate a context and evolutionary perspective that was simply not in place when Degrees of the Zodiac was originally published.

[A Zodiac Oracle](#) Health Research Books

For centuries, spiritual seekers have turned to astrology to discover humans' deepest connections with the Earth and the cosmos. But too often, astrology devolves into meaningless clichés or impersonal newspaper horoscopes. In the early part of this century Marc Edmund Jones and Dane Rudhyar liberated astrology from the fatalistic approach of the medieval world. They took power from the high-and-mighty archaic planet gods, and offered it back to human beings. Here, at the end of the century, *Inside Planets* goes further, invoking each planet as a mighty full-bodied organism with a character and a soul of its own, a living breathing force with passion and humor and purpose that changes as it moves through the houses and signs. Each planet grabs you by the imagination and drags you to the campfire of *The Greatest Story Ever Told*. Far more than an astrology guide, this book resuscitates from the ancient mystery temples of Atlantis an elegant and inspiring pantheon of wonder, terror, and creative solution to the problems that plague the soul.

*Three Hundred and Sixty Degrees of the Zodiac* John Wiley & Sons

- Explains how each of the 12 signs of the zodiac has 30 degrees, and each degree, like every star, is the center of a whole system of meanings
- Provides detailed write-ups for each of the 360 degrees of the zodiac
- Details how to use the degrees for personal chart interpretation and as an oracle for guidance and inspiration

In this extraordinary synthesis of 50 years in star work, astrologer Elias Lonsdale explains how each of the 12 signs of the zodiac has 30 degrees, and each degree, like every star, is the center of a whole system of meanings. Inspired by the Chandra Symbols, evocative images for

each degree channeled by John Sandbach nearly 40 years ago, as well as his studies with master astrologers Dane Rudhyar and Marc Edmund Jones, Lonsdale explores the deeper story, or *Star Spark*, of each of the 360 degrees of the zodiac, providing detailed write-ups for each degree. The author explains how to determine the degree of your Sun sign and other planets from your birth chart and how to use this information for personal chart interpretation. Offering a way to tune in to your future star cycles as well as analyze a past event, he discusses how you can learn about personal cycles from studying the degree of a transiting or progressed planet at a specific time, such as Mercury Retrograde, or by following the degree meanings for successive New Moons or Solar Returns, revealing collective as well as personal timings. He also details how to use the 360 Star Sparks as an astrological oracle to consult when you need guidance or support for your awakening process as well as how they can be used as a source for daily contemplation by following the Sun through each degree day by day throughout the year.

Providing an astrological tool to help you see deeply inside your life, your shadow, what you are questioning, and where you are being guided, this key to the symbolic power of the 360 degrees of the zodiac shows that by embracing our star cycles, we can discover our unique life path and light up the stars within.

[360 New Symbols](#) American Federation of Astr

In much the same way in which he characterized planets and asteroids as powerful, gendered beings in *Inside Planets*, Elias Lonsdale gives new depth and nuance to degree analysis, an area often seen as technical or reduced to

cliche. The degree symbols are most useful in elaborating a personal birth chart. One can learn about personal cycles from studying the place of a transiting or progressed planet by degree at a given time, revealing collective as well as personal timings. The Zodiac degrees also act as an oracle. One can open the collection anywhere for a given day, or in response to a question. The degrees will reveal what is happening now and, if we are attentive and responsive to the cues, what is required of us. By comparing charts of friends and famous people who are known for certain qualities, one can gradually discriminate among the degrees. These beautifully written and fully imagined readings of the Chandra degree symbols speak to a deep level of personal change and authenticity.

Aries Through Virgo Weiser Books

The Circular Temple Volume II: Libra through Pisces The two-volume text of "The Circular Temple" consists of 1,440 pictorial symbols channeled by John Sandbach over a period of more than twenty years. These symbols are expressed in words rather than visual images, and divided into 4 groups, each one containing 360 symbols. In all 4 groups each of the 360 symbols

corresponds to one of the 360 degrees of the zodiac. Therefore each degree of the zodiac corresponds to four different symbols, one from each group. These four groups are known as the Omega, Pleiadian, Chandra, and Azoth Symbols. "The Circular Temple" has three main purposes: (1) it can be used by astrologers to interpret charts, by looking up the specific degree of each planet in a chart. (2) It can be used by anyone as an oracle, by asking a question and then randomly drawing one of the degrees of the zodiac to answer the question. (3) The degrees can be read in order or at random as meditations on spiritual principles and the interplay of subtle energies. This inspired mystical text has been called by art historian Elisabeth Kirsch a modern "I Ching." You may also think of "The Circular Temple" as a new kind of tarot deck, for it is meant to be used for the same purpose as the tarot is used - the answering of questions. The difference is that whereas the Tarot contains 78 cards, "The Circular Temple" contains 1,440 different pictures. Also in this book are 720 prose poems, two for each degree of the zodiac. These poems are mythic, visionary and present a tapestry of Kabbalitic stories meant to open the imagination up to the possibilities of the degrees of the zodiac, which alchemists and mystics know as living beings possessing all the wisdom of the universe. "If you want to know how salamanders consume lightning to create the fire in opals, if you would like to enter through the portal into other worlds these Oracles are the ticket. When there is nowhere else to turn there are these symbols and The Oracle waiting there with answers. You will recognize them immediately. Ah, Irnad the Wise is summoning me to Azoth...

Homecoming!" - Sandra Sandy The
