There is but one Paris. Vincent Van Gogh Maud Heighton came to Lafond's famous Academie to paint, and to flee the constraints of her small English town. It took all her courage to escape, but Paris, she quickly realizes, is no place for a light purse. While her fellow students enjoy the dazzling decadence of the Belle Epoque, Maud slips into poverty. Quietly starving, and dreading another cold Paris winter, she stumbles upon an opportunity when Christian Morel engages her as a live-in companion to his beautiful young sister,

Sylvie. Maud is overjoyed by her good fortune. With a clean room, hot meals, and an umbrella to keep her dry, she is able to hold her head high as she strolls the streets of Montmartre. No longer hostage to poverty and hunger, Maud can at last devote herself to her art. But all is not as it seems. Christian and Sylvie, Maud soon discovers, are not quite the darlings they pretend to be. Sylvie has a secret addiction to opium and Christian has an ominous air of intrigue. As this dark and powerful tale progresses, Maud is drawn further into the Morels' world of elegant deception. Their secrets become hers, and soon she is caught in a scheme of betrayal and revenge that will plunge her into the darkness that waits beneath this glittering city of light.

Management: A Global, Innovative and Entrepreneurial Perspective (15th Edition)
 Avon

"What do Angela Merkel, Hillary Rodham Clinton, Christine Lagarde, Oprah Winfrey, Sheryl Sandberg, JK Rowling and Beyoncé have in common?" was the headline in the English newspaper The Observer in 2014. "Other than riding high in Forbes list of the world's most powerful women," journalist Tracy McVeigh wrote in answer to her own question, "they are also all firstborn children in their families. Firstborn children really do excel." So what does it mean to be an eldest daughter? Firstborns Lisette Schuitemaker and Wies Enthoven set out to discover the big five qualities that characterize all eldest daughters to some degree. Eldest daughters are responsible, dutiful, thoughtful, expeditious and caring. Firstborns are more intelligent than their siblings, more proficient verbally and more motivated to perform. Yet at the same time they seriously doubt that they are good enough. Being an eldest daughter can have certain advantages, but the overbearing sense of responsibility often gets in the way. Parents may worry about

their 'difficult' eldest girl who wants to be perfect in everything she does whilst her siblings may not always understand her. "The Eldest Daughter Effect" shows how firstborn girls become who they are and offers insights that can give them more freedom to move. And parents will gain a better understanding of their firstborn children and can support them more fully on their way.

Dear Reader: Night Fire, the first of the Night Trilogy, was first published in early 1989. I haven't rewritten it, just cleaned it up a bit and Avon books has given it a wonderful new cover. Arielle Leslie is a sixteen-year-old girl forced to wed Paisley Cochrane, a sadistic old man who abuses her. When he dies, she believes herself free. But she's not. Burke Drummond, Earl of Ravensworth -- a young man she'd worshipped three years before -- is home from the wars, and he wants her. When he catches her, he's in for an appalling surprise. I hope Burke and Arielle are two people who will touch you as deeply as they touched me. They face problems and obstacles never spoken of in Regency

times. If you haven't yet read *Night Fire*, do give it a try. -- Catherine Coulter

Christian Gillette can't stand to be controlled, but he also can't afford to lose a chance at finally learning something substantive about his father's death. And as he becomes more entangled with the strange deal, and the frantic pace of business continues without his full attention, he feels his grip on Everest weakening -- and soon realizes his life is once more in desperate jeopardy. Fundamentals of Management

Three complete Drucker management books in one volume — Managing for Results, Innovation and Entrepreneurship, and The Effective Executive with a new preface by the author. In his preface, Peter F. Drucker says: "These three books should enable executives — whether high

up in the organization or just beginning their career — to know the right things to do; — to know how to do them; and — to do them effectively. Together, these three books provide The Toolkit for Executive Action." Drucker identifies and explains the practices, decisions and priorities for achieving business performance and executive effectiveness. These books cover "the three dimensions of the successful practice of management." Managing for Results was the first book to explain business strategy. Drucker shows how the existing business has to focus on opportunities rather than problems to be effective, for it is the opportunities that will bring growth and performance. Innovation and Entrepreneurship analyzes the challenges and opportunities of America's new entrepreneurial economy. It is a superbly practical book that explains what established businesses, public service institutions and new ventures have to know, learn and do to prepare and create the successful businesses of tomorrow. In The Effective Executive, Drucker discusses the five practices and habits that must be learned for executive effectiveness. Ranging widely through

business and government, he demonstrates the distinctive skill of the executive and offers fresh insights into old and seemingly obvious situations. Together, these three books have sold more than a million copies; they have been published throughout the world and continue to sell actively. These are essential works for the executive and manager by "the dean of this country's business and management philosophers."

For human resources professionals, business managers/team leaders, and anyone interested in Organizational Behavior and Business Management. *Self-Assessment Library* Ballantine Books
Scholars and performers have long noted J.S. Bach's abundant use of parody procedures: that is, the recycling and reworking of pre-existing material from his own compositions or from other sources. Laura Buch edits essays exploring how the composer parodied the work of others and how other composers did the same with him. The contributors delve into the works of Baroque-era composers from Bach himself to C. P. E. Bach, Johann Caspar Ferdinand Fischer, and Ferruccio Busoni. But they also cast a wider net, investigating the ways Bach's music cross-pollinates with contemporary composer-performers John Lewis and the Modern Jazz Quartet, and keyboardist Bernie Worrell and Parliament-Funkadelic. The

diverse contexts illuminate a broad range of parody techniques, from structural scaffolding and contrapuntal elaboration to integration with stylistic languages far removed from the Baroque. An insightful look at how composers build on each other's work, *Bach Reworked* reveals how nuanced understandings of parody procedures can fuel both musical innovation and historically informed performance. Insults are part of the fabric of daily life. But why do we insult each other? Why do insults cause us such pain? Can we do anything to prevent or lessen this pain? Most importantly, how can we overcome our inclination to insult others? In *A Slap in the Face*, William Irvine undertakes a wide-ranging investigation of insults, their history, the role they play in social relationships, and the science behind them. He examines not just memorable zingers, such as Elizabeth Bowen's description of Aldous Huxley as "The stupid person's idea of a clever person," but subtle insults as well, such as when someone insults us by reporting the insulting things others have said about us: "I never read bad reviews about myself,"

wrote entertainer Oscar Levant, "because my best friends invariably tell me about them." Irvine also considers the role insults play in our society: they can be used to cement relations, as when a woman playfully teases her husband, or to enforce a social hierarchy, as when a boss publicly berates an employee. He goes on to investigate the many ways society has tried to deal with insults-by adopting codes of politeness, for example, and outlawing hate speech-but concludes that the best way to deal with insults is to immunize ourselves against them: We need to transform ourselves in the manner

recommended by Stoic philosophers. We should, more precisely, become insult pacifists, trying hard not to insult others and laughing off their attempts to insult us. A rousing follow-up to *A Guide to the Good Life*, *A Slap in the Face* will interest anyone who's ever delivered an insult or felt the sting of one--in other words, everyone.
