Abkhasians: the Long-living People of the Caucasus Springer Nature

This volume offers a new understanding of caste in contemporary India. It argues that the traditional view of caste - as a single hierarchy, with Brahmans at the top and the untouchable castes at the bottom - is

no longer valid. Based on fieldwork, the articles in this volume prove that ritual dominance does not determine the nature of caste interactions in any way. From politics to gender to economic interaction, the single, pure hierarchy is constantly being questioned and weakened. Castes that once had the status of shudras are now claiming, on occasions, a position superior to Brahmans and Kshatriyas; agrarian castes - such as Jats, Ahirs and Gujars - are at the political forefront, taking caste identities outside the village; the once passive untouchable castes are now aggressive and militant, and aware of

their rights in a democratic society. This exciting collection of original articles demonstrates how caste identity today challenges the outdated notion of a single, all-encompassing hierarchy, within which each caste co-exists peacefully.

An extraordinary new writer makes her literary debut with this suspenseful novel of desire, obsession, power and vulnerability, in which a crisis of inheritance leads to the downfall of a wealthy family of Persian Jews in early twentieth-century Iran. For all his wealth and success, Asher Malacouti—the head of a prosperous Jewish family living in the Iranian town of Kermanshah—cannot have the one thing he desires above all: a male son. His young wife Rakhel, trapped in an oppressive marriage at a time when a woman's worth is measured by her

fertility, is made desperate by her failure to conceive, and grows jealous and vindictive. Her despair is compounded by her sister-in-law Khorshed's pregnancy and her husband's growing desire for Kokab, his cousin's wife. Frustrated by his wife's inability to bear him an heir, Asher makes a fateful choice that will shatter the household and drive Rakhel to dark extremes to save herself and preserve her status within the family. Witnessed through the memories of the family's only surviving daughter, Mahboubeh, now an elderly woman living in Los Angeles, *The Girl from the Garden* unfolds the complex, tragic history of her family in a long-lost Iran of generations past. Haunting, suspenseful and inspired by events in the author's own family, it is an evocative and poignant exploration of sacrifice, betrayal, and the indelible legacy of the families that forge us.

Srinivasa Ramanujan is, arguably, the

greatest mathematician that India has produced. His story is quite unusual: although he had no formal education in mathematics, he taught himself, and managed to produce many important new results. With the support of the English number theorist G. H. Hardy, Ramanujan received a scholarship to go to England and study mathematics. He died very young, at the age of 32, leaving behind three notebooks containing almost 3000 theorems, virtually all without proof. G. H. Hardy and others strongly urged that notebooks be edited and published, and the result is this series of books. This volume deals with Chapters 1-9 of Book II; each theorem is either proved, or a reference to a proof is given.

Motilal Nehru and Jawaharlal Nehru are both prominent Indian men in their own right. Motilal is known as a widely successful civil lawyer and a popular political figure, while Jawaharlal made his mark as a firm nationalist leader and possible heir of the Mahatma. This book serves as a discussion of Motilal's life and achievements, and looks into the first four

decades of Jawaharlal's life. It shows that while the father-son tandem played different roles in the nationalist struggle of India, their close emotional bonds helped them influence each other. Their story can be combined with that of the Indian freedom movement. The book covers a number of important events in the lives of the Nehrus—from Motilal's childhood in Agra, Jawaharlal's acceptance into Trinity College, and Jawaharlal's entry into the political arena, to the father-son conflict over the changing political atmosphere in India. This book also takes a look at several notable individuals who play important roles in Motilal and Jawaharlal's lives. These include Annie Besant, the leader of the Home Rule movement, and Mahatma Gandhi, the fierce fighter for India's independence.

The essential account of R. Kelly's actions and their consequences, a reckoning two decades in the making In November 2000, Chicago journalist and music critic Jim DeRogatis received an anonymous fax that alleged R. Kelly had a problem with "young girls." Weeks later, DeRogatis broke the shocking story, publishing allegations that the R&B superstar and local hero had groomed girls, sexually abused them, and paid them off. DeRogatis thought his work would have an impact. Instead, Kelly's career flourished.

No one seemed to care: not the music industry, not the culture at large, not the parents of numerous other young girls. But for more than eighteen years, DeRogatis stayed on the story. He was the one who was given the disturbing videotape that led to Kelly's 2008 child pornography trial, the one whose window was shot out, and the one whom women trusted to tell their stories—of a meeting with the superstar at a classroom, a mall, a concert, or a McDonald's that forever warped the course of their lives. Soulless: The Case Against R. Kelly is DeRogatis's masterpiece, a work of tenacious journalism and powerful cultural criticism. It tells the story of Kelly's career, DeRogatis's investigations, and the world in which the two crossed paths, and brings the story up to the moment when things finally seem to have changed. Decades in the making, this is an outrageous, darkly riveting account of the life and actions of R. Kelly, and their horrible impact on dozens of girls, by the only person to tell it.
