A top forex trader reveals how to ease into this market and excel Trading the forex market has become one of the most popular forms of trading, mainly because of its twenty-four-hour access and the fact that there is always a bull market available in this arena. But not everyone is interested in quitting their jobs and spending all day trying to make a living trading. That's where *Forex in Five Hours a Week* comes in. This book shows readers how they can master a few techniques, focus their efforts on their choice of time frame, and profit in the forex market. Readers with a day job and little time to dedicate to the market will learn all they need to know to capture consistent profits

[The Forex Trading Course](#) Tradeguiders Systems International

A straightforward guide to trading today's dynamic Forex market Written by Wayne McDonell, the Chief Currency Coach at FX Bootcamp, this book shows readers how to successfully trade the

Forex market on their own. FX Bootcamp's Guide to Strategic and Tactical Forex Trading skillfully explains how to combine popular technical indicators to formulate a comprehensive market strategy. Readers will then learn how to focus on using this information to create a tactical trading plan--one that will help them pull the trigger to get in and out of a trade. Along the way, McDonell takes the time to discuss the various challenges a Forex trader faces, such as greed, fear, loss, and isolation. As a Forex trader and educator of traders, Wayne McDonell knows what it takes to make it in the competitive world of Forex. And with FX Bootcamp's Guide to Strategic and Tactical Forex Trading he shows readers how.

**A Complete Guide to Trading** McGraw Hill Professional  
A streamlined and highly effective approach to trading without indicators Most forex traders rely on technical analysis books written for stock, futures, and option traders. However, long before computers and calculators, traders were trading naked. Naked trading is the simplest (and oldest) trading method. It's simply trading without technical indicators, and that is exactly what this book is about. Traders who use standard technical

indicators focus on the indicators. Traders using naked trading techniques focus on the price chart. Naked trading is a simple and superior way to trade and is suited to those traders looking to quickly achieve expertise with a trading method. Offers a simpler way for traders to make effective decisions using the price chart Based on coauthor Walter Peters method of trading and managing money almost exclusively without indicators Coauthor Alexander Nekritin is the CEO and President of TradersChoiceFX, one of the largest Forex introducing brokers in the world Naked Forex teaches traders how to profit the simple naked way!

How to make money using market-proven Elliott Wave trading strategies Elliott Wave Theory is one of the most enduring — and intriguing — forms of technical analysis. Its adherents hold that the theory is unsurpassed in its ability to predict the direction of financial markets. This book presents tried and market-tested trading strategies based on Elliott Wave Theory. Followed with discipline and correct understanding, these strategies can help you trade the stock market profit. The book starts with a concise introduction to Elliott Wave Theory, and an explanation of its various key building blocks. It then focusses on three proven market-tested trading strategies. Each trading strategy is explained in detail with entry, stop loss and exit rules — and illustrated with real-life examples from the Indian market. Find out: ● The key concepts of Elliott Wave Theory ● Wave Principle: Dominant and corrective trends ● What fractals are and how they simplify the recognition of the nature and count of waves ● Rules and guidelines for trading Elliott Waves ● How Fibonacci

sequence and relationships help determine the likely length of waves and their retracements ● 3 market-proven trading strategies explained in detail ● Plus: 100 real-life examples, with charts, from the Indian markets. "Elliott Wave Principle represents the most dramatic advancement in price forecasting since investors began attempting to anticipate the price movement of tulip bulbs on the Amsterdam Exchange during the seventeenth century" – Robert C Beckman.

#### Interviews with Top Traders Independently Published

The foreign-exchange market is often referred to as the Slaughterhouse where novice traders go to get 'chopped up'. It is one of egos and money, where millions of dollars are won and lost every day and phones are routinely thrown across hectic trading desks. This palpable excitement has led to the explosion of the retail FX market, which has unfortunately spawned a new breed of authors and gurus more than happy to provide misleading and often downright fraudulent information by promising traders riches while making forex trading 'easy'. Well I'll let you in on a little secret: there is nothing easy about trading currencies. If you don't believe me then stop by Warren Buffet's office and ask him how he could lose \$850m betting on the dollar or ask George Soros why his short yen bets cost him \$600m not once but twice in 1994. What's wrong with these guys, don't they read FX books? In reality, the average client's trading approach combined with the unscrupulous practices of some brokers make spot FX trading more akin to the games found on the Vegas strip than to anything seen on Wall St. The FX market is littered with the remains of day traders and genius 'systems,' and to survive in the long-run traders have to realize that they are playing a game

where the cards are clearly stacked against them. Have you ever had your stop hit at a price that turned out to be the low/high for the day? Bad luck perhaps? Maybe. What if it happens more than once? Do you ever feel like the market is out to get you? Well guess what, in this Zero Sum game it absolutely is. Covering the day-to-day mechanics of the FX market and the unsavoury dealings going on, *Beat the Forex Dealer* offers traders the market-proven trading techniques needed to side-step dealer traps and develop winning trading methods. Learn from an industry insider the truth behind dirty dealer practices including: stop-hunting, price shading, trading against clients and 'no dealing desk' realities. Detailing the dealer-inspired trading techniques developed by MIGFX Inc, consistently ranked among the world's leading currency trading firms, the book helps turn average traders into winning traders; and in a market with a 90% loss rate winning traders are in fact quite rare! More than just a simple manual, *Beat the Forex Dealer* brings to life the excitement of the FX market by delivering insights into some of the greatest trading triumphs and highlighting legendary disasters; all written in an easy to read style. Make no mistake about it there is a lot of money to be made in currency trading, you just have to know where to look. Sidestepping simple dealer traps is one way of improving your daily p&l, but it is surely not the only one. Successful trading comes down to taking care of the details, which means skipping the theoretical stuff and providing only up-to-date, real-life examples while sharing the FX trading tips that have proved so profitable over the years. By stripping away the theory and getting down to the core of trading, you too will find yourself on the way to beating the forex dealer!

### **Currency Wars** John Wiley & Sons

The Candlestick trading bible is one of the most powerful trading systems in history. It was invented by Homma Munehisa. The father of candlestick chart patterns. This trader is considered to be the most successful trader in history, he was known as the God of markets in his days, his discovery made him more than \$10 billion in today's dollar. I have spent 10 years compiling, testing, organizing, and consistently updating this method to create my own new version, which is considered to be the easiest and most profitable trading system. The Candlestick trading bible is the trading method that is going to finally take your trading to where it should be, consistent, profitable, easy and requiring very little time and effort. This trading system is based on Japanese candlestick patterns in combination with technical analysis. All what you have to do is to spend as much time as you can to master the method that I am going to share with you and use it to trade any financial market. Learning Japanese candlestick is like learning a new language. Imagine you got a book which is written in a foreign language, you look at the pages but you get nothing from what is written. The same thing when it comes to financial markets. If you don't know how to read Japanese candlesticks, you will never be able to trade the market. Japanese candlesticks are the language of financial markets, if you get the skill of reading charts, you will understand what the market is telling you, and you will be able to make the right decision in the right time.

The guide technicians turn to for answers--tuned up to provide an advantage in today's global economy The face of investing has significantly changed in the 30 years since this book's first publication, but one essential component of the markets has not-- human behavior. Whether you're trading cornerstone commodities or innovative investment products, observing how investors responded to past events through technical analysis is your key to forecasting when to buy and sell in the future. This fully updated fifth edition shows you how to maximize your profits in today's complex markets by tailoring your application of this powerful tool. Tens of thousands of individual and professional investors have used the guidance in this book to grow their wealth by understanding, interpreting, and forecasting significant moves in both individual stocks and entire markets. This new edition streamlines its time-honored, profit-driven approach, while updating every chapter with new examples, tables, charts, and comments that reflect the real-world situations you encounter in everyday trading. Required reading among many professionals, this authoritative resource now features: Brand-new chapters that analyze and explain secular trends with unique technical indicators that measure investor confidence, as well as an introduction to Pring's new Special K indicator Expanded coverage on the profit-making opportunities ETFs create in international markets, sectors, and commodities Practical advice for avoiding false, contratrend signals that may arise in short-term time spans Additional material on price patterns, candlestick charts, relative strength, momentum, sentiment

indicators, and global stock markets Properly reading and balancing the variety of indicators used in technical analysis is an art, and no other book better illustrates the repeatable steps you need to take to master it. When used with patience and discipline, Technical Analysis Explained, Fifth Edition, will make you a better decision maker and increase your chances of greater profits.

Profiting With Forex Harper Collins

A young Rajput, orphaned by the revolt of 1857, travels many years later from Cawnpore to Delhi on a mission to meet the great poet Mirza Asadullah Khan Ghalib himself. Young Mir Taqi Mir, a rising star in the world of poetry, meets the first great love of his life, Nurus Saadat, an exquisite beauty from Isfahan. An aspiring poet learns of the life and work of Shaikh Mushafi through the stories told by his widow. Poets and poetry occupy centre stage in these magnificent tales by Shamsur Rahman Faruqi, the celebrated master of Urdu prose. Set in the great cities of north India and spanning the glittering age of the Mughals, The Sun That Rose from the Earth brilliantly recreates the lives of several poets who exemplify the land and culture of Hindustan—from Ghalib and Mir to Kishan Chand Ikhlas and Mushafi. With elegance and skill, Faruqi transforms these figures into vital, breathing beings alive in all their flawed magnificence.

**The Handbook of Trading: Strategies for Navigating and Profiting from Currency, Bond, and Stock Markets** Gulf Professional Publishing

Traders are constantly learning their craft. Those who do not share information, discuss tactics and review prior trades are doomed for failure. Global-View.com knows this. It is the leading destination for Forex traders looking to learn and discuss trading.

With over 33,000 registered users from 125 countries, Global-View.com exposes its users to an incredible base of knowledge. In this book, the authors dissect each of 15 chosen trades, using the material to expose some of the best (and worst) practices of a Forex trader. The book weaves a plethora of Global-View.com information into the detailed dissection. Each description will include how the trade was selected and why it was made, as well as money management and psychological aspects of the trade. Entertaining anecdotal stories are interspersed throughout each trade story.

**How to Make Money Trading on Your Own Time** Competition Bureau Canada

How do you transform yourself from mild-mannered investor to Super Trader? Think clearly. Plan accordingly. Commit completely. In other words, become a trader. And no one is better suited to help you make the transformation than legendary trading educator and author Van K. Tharp. Combining the sharp insight and technical brilliance that has drawn legions of investors to his books and seminars, Tharp provides a holistic approach for becoming a successful full-time trader. His system—a meld of investing psychology and sound trading practice—is the secret to achieving optimum conditions that produce results in both bull and bear markets. Using the lessons of Super Trader, you will approach trading as you would a small business—realistically, systematically, and enthusiastically. Drawing on his decades of experience, Tharp has created a simple plan designed to help anyone master the market. You can put this plan to use immediately in order to: Master the psychology of trading. Craft a “business plan”—a working

document to guide your trading Develop a trading system tailored for your personal needs and skills Create position-sizing strategies to meet your objectives Monitor yourself constantly to minimize mistakes Throughout the book, Tharp asks the pertinent questions you must ask yourself about becoming a trader, being a trader, and succeeding as a trader. The rewards that come with being a Super Trader—both financial and personal—make you feel as if you can leap small buildings in a single bound. Whatever your skill level, Tharp provides the formula for succeeding in a field where most people fail.

*The Sharia from Muhammad's Time to the Present* FT Press  
A Tea Reader contains a selection of stories that cover the spectrum of life. This anthology shares the ways that tea has changed lives through personal, intimate stories. Read of deep family moments, conquered heartbreak, and peace found in the face of loss. A Tea Reader includes stories from all types of tea people: people brought up in the tea tradition, those newly discovering it, classic writings from long-ago tea lovers and those making tea a career. Together these tales create a new image of a tea drinker. They show that tea is not simply something you drink, but it also provides quiet moments for making important decisions, a catalyst for conversation, and the energy we sometimes need to operate in our lives. The stories found in A Tea Reader cover the spectrum of life, such as the development of new friendships, beginning new careers, taking dream journeys, and essentially sharing the deep moments of life with friends and families. Whether you are a tea lover or not, here you will discover stories that speak to you and inspire you. Sit down, grab a cup, and read on.

*Forex Analysis and Trading* McGraw Hill Professional

In his captivating, high-energy style, Velez shows you how to: Spot opportunities using proven swing trading criteria; Define periods of market uncertainty and make the right moves; Discover key set-ups and effectively use moving averages; Read charts successfully, especially Japanese Candlesticks; Win by going against conventional trading wisdom; Understand and profit from understanding market psychology. Only in this book/DVD course combination will you be able to fully absorb the wealth of material that Oliver Velez is set up to offer. The easy-to-understand definitions and eye-opening self-tests bring the information to you and the power to your trades. Don't end up on the wrong side of the market. Swing Trading is the perfect tool for the investor who wants to understand the forces that shape the trading arena. This presentation has been viewed live and on DVD by hundreds of thousands of traders. Now you can use this course to rise above the impulse of novice traders. It's the best way to master the cycles and win consistent profits.

Momentum, Direction, and Divergence Tuttle Publishing

Profiting with Forex introduces investors to all the advantages of the global foreign exchange market and shows them how to capitalize on it. Readers will learn why forex is the perfect

supplement to stock and bond investing; why it is unrivaled in terms of protection, profit potential, and ease of use; and how it can generate profits, whether the other markets are up or down. Written by two leading forex experts, this complete investing resource uses basic economic principles, solid technical analysis, and lots of common sense to develop an arsenal of tools and techniques that will lead to winning results in the lucrative foreign exchange marketplace. Profiting with Forex includes everything that investors need to know about: The many advantages of the forex market: huge market size, ease of entry, profit potential, tax incentives, 24-hour trading, no commissions, increased leverage, and guaranteed stops The basic terms of forex trading: definitions of important concepts, including "pip," "currency pair," "contract" or "lot," and more Genesis and growth of the forex market: how the forex market emerged out of a changing global financial landscape and continues to change and adapt with that same volatile landscape Fundamental factors that shape the Forex market: the U.S. government, inflation, the U.S. stock market, China and other emerging markets, oil, and breaking news Fundamental tools for tracking Forex market changes: interest rates, Treasury International Capital Data, Consumer Price Index, S&P 500, U.S. dollar vs. Chinese yuan, balance of trade, crude oil futures, and news media Technical analysis tools and indicators for gauging market sentiment: moving averages, oscillating indicators such as, stochastics, Commodity Channel Index, Relative Strength Index, Fibonacci analysis, and others Filled with over 150 illustrations and figures, Profiting with Forex also shows investors how to combine their newly acquired knowledge of Forex fundamentals with proven

trading techniques that can generate great rewards in the market.

### **Trading in the Zone** John Wiley & Sons

Praise for Trading Price Action Trading Ranges "Al Brooks has written a book every day trader should read. On all levels, he has kept trading simple, straightforward, and approachable. By teaching traders that there are no rules, just guidelines, he has allowed basic common sense to once again rule how real traders should approach the market. This is a must-read for any trader that wants to learn his own path to success." —Noble Drakoln, founder, SpeculatorAcademy.com, and author of Trade Like a Pro and Winning the Trading Game "A great trader once told me that success was a function of focused energy. This mantra is proven by Al Brooks, who left a thriving ophthalmology practice to become a day trader. Al's intense focus on daily price action has made him a successful trader. A born educator, Al also is generous with his time, providing detailed explanations on how he views daily price action and how other traders can implement his ideas with similar focus and dedication. Al's book is no quick read, but an in-depth roadmap on how he trades today's volatile markets, complete with detailed strategies, real-life examples, and hard-knock advice." —Ginger Szala, Publisher and Editorial Director, Futures magazine Over the course of his career, author Al Brooks, a technical analysis contributor to Futures magazine and an independent trader for twenty-five years, has found a way to capture consistent profits regardless of market direction or economic climate. And now, with his new three-book series—which focuses on how to use price action to trade the markets—Brooks takes you step by step through the entire

process. In order to put his methodology in perspective, Brooks examined an essential array of price action basics and trends in the first book of this series, Trading Price Action TRENDS. Now, in this second book, Trading Price Action TRADING RANGES, he provides important insights on trading ranges, breakouts, order management, and the mathematics of trading. Page by page, Brooks skillfully addresses how to spot and profit from trading ranges—which most markets are in, most of the time—using the technical analysis of price action. Along the way, he touches on some of the most important aspects of this approach, including trading breakouts, understanding support and resistance, and making the most informed entry and exit decisions possible. Throughout the book, Brooks focuses primarily on 5 minute candle charts—all of which are created with TradeStation—to illustrate basic principles, but also discusses daily and weekly charts. And since he trades more than just E-mini S&P 500 futures, Brooks also details how price action can be used as the basis for trading stocks, forex, Treasury Note futures, and options.

### *The 10 Essentials of Forex Trading* John Wiley & Sons

Douglas uncovers the underlying reasons for lack of consistency and helps traders overcome the ingrained mental habits that cost them money. He takes on the myths of the market and exposes them one by one teaching traders to look beyond random outcomes, to understand the true realities of risk, and to be comfortable with the "probabilities" of market movement that governs all market speculation.

### *Forex on Five Hours a Week* John Wiley & Sons

"The one, only, and by far the best book synthesizing psychology

and investing. In addition to providing modern, scientific knowledge about psychology, this book provides a mirror into the mind and wide breadth of knowledge of one of the leading practitioners of brief and effectual cures. Will help to cure your trading and your life." -Victor Niederhoffer, Chief Speculator, Manchester Investments Author, *The Education of a Speculator and Practical Speculation* "How refreshing! A book that rises above the old NLP model of the 80's and provides insights on how our relationship with the market is indeed a very personal one. Not only has Steenbarger provided some fantastic tools for the trader to transform his mindset, but he has contributed unique trading ideas as well. Brilliant!" -Linda Raschke, President, LBRGroup, Inc. "'Investigate, before you invest' was for many years the slogan of the New York Stock Exchange. I always thought a better one would be, 'Investigate YOURSELF, before you invest.' The Psychology of Trading should help you increase your annual investment rate of return. Mandatory reading for anyone intending to earn a livelihood through trading. " -Yale Hirsch, The Hirsch Organization Inc., Editor, *The Stock Trader's Almanac* "This highly readable, highly educational, and highly entertaining book will teach you as much about yourself as about trading. It's Oliver Sacks meets Mr. Market-extraordinary tales of ordinary professionals and individuals with investment disorders, and how they successfully overcame them. It is a must-read both

for private investors who have been shell-shocked in the bear market and want to learn how to start again, as well as for pros who seek an extra edge from extra inner knowledge.

Steenbarger's personal voyage into the mind of the market is destined to become a classic." -Jon Markman, Managing Editor, CNBC on MSN Money Author, *Online Investing and Swing Trading* "Dr. Steenbarger's fascinating, highly readable blend of practical insights from his dual careers as a brilliant psychologist and trader will benefit every investor; knowing oneself is as important as knowing the market." -Laurel Kenner, CNBC.com Columnist, Author, *Practical Speculation*

Fibonacci Trading: How to Master the Time and Price Advantage  
High Probability Trading Strategies  
Entry to Exit Tactics for the
