Despite the dominance of scientific explanation in the modern world, at the beginning of the twenty-first century faith in miracles remains strong, particularly in resurgent forms of traditional religion. In *Miracles*, David L. Weddle examines how five religious traditions—Hinduism, Judaism, Buddhism, Christianity, and Islam—understand

miracles, considering how they express popular enthusiasm for wondrous tales, how they provoke official regulation because of their potential to disrupt authority, and how they are denied by critics within each tradition who regard belief in miracles as an illusory distraction from moral responsibility. In dynamic and accessible prose, Weddle shows us what miracles are, what they mean, and why, despite overwhelming scientific evidence, they are still significant today: belief in miracles sustains the hope that, if there is a reality that surpasses our ordinary lives, it is capable of exercising—from time to time—creative, liberating,

enlightening, and healing power in our world.

 The Book of Firsts is an entertaining, enlightening, and highly browsable tour of the major innovations of the past twenty centuries and how they shaped our world. Peter D’Epiro makes this handy overview of human history both fun and thought-provoking with his survey of the major “firsts”—inventions, discoveries, political and military upheavals, artistic and scientific breakthroughs, religious controversies, and catastrophic events—of the last two thousand years. Who was the first to use gunpowder? Invent paper? Sack the city of Rome? Write a sonnet? What was the first university? The first

astronomical telescope? The first great novel? The first Impressionist painting? The Book of Firsts explores these questions and many more, from the earliest surviving cookbook (featuring parboiled flamingo) and the origin of chess (sixth-century India) to the first civil service exam (China in 606 AD) and the first tell-all memoir about scandalous royals (Byzantine Emperor Justinian and Empress Theodora). In the form of 150 brief, witty, erudite, and information-packed essays, The Book of Firsts is ideal for anyone interested in an enjoyable way to acquire a deeper understanding of history and the fascinating personalities who

forged it.

This personal, creative, critical work from a leading scholar of psychology is rooted in three novel concepts and aims to share critical pedagogy in the spirit of nascent potential found in the context of a colonial Puerto Rico. First comes the idea of 'pedagogy in (e)motion', or the emotional matrix of the teaching and learning process. Secondly, the author explores the notion of 'street pedagogy' as a genuine and powerful professional tool. And thirdly, the book underscores what Zambrana-Ortiz calls 'the interconnection of the artsience within the political and

biographical act of teaching'. The purpose is to inform education teaching practice with the radical framework that, like the neurosciences, believes emotions to be a vital precursor to the planning of action, the process of decision-making and the broadening of our cognitive parameters. The chapters focus on different and yet complementary dimensions of a college teaching initiative boasting a unique interplay between a transgressive narrative, reinvented methodology and authentic samples of students' contributions to the project. Traditionally, emotional and visceral experiences have been downplayed and rejected as

fundamental components of knowledge. This book makes the case for their reinstatement, and proposes that the pleasure and commitment of teaching itself can be seen as resistance given the challenging social and political context, the bureaucracy of the Puerto Rican higher education system, and the cynicism of the self-confessed cognoscenti who think that little political progress can come from within the university system. Such resistance has proved for the author a source of inspiration and has contributed to her creation and reconceptualization of approaches to critical and useful pedagogy. D education To my

students who inspire many stories and provoke many emotions and challenge my capacities... To Aura, Ignacio and Jaime for their unconditional love and their everyday lessons... A cknowledgments Many friends, mentors and colleagues from the University of Puerto Rico and United States were very important pieces to my creative work. Thanks to Donalddo Macedo who encouraged the initial proposal and to Joe Kincheloe for accepting it and bringing guidance in the right moment. Colleagues like Roamé Torres and Angeles Molina, from their directive positions, were extremely supportive while Sandra Macksoud, José Solís,

Pedro Subirats, and Ada Prabhavat gave me guidance and constant insights in editing and translation, as well as crucial material for my narrative. Juan Vadi enhanced my graphic elements with his talent; while college mentors, current colleagues, teachers, and former graduate and undergraduate students allowed me to write their stories and reflections binging fresh accents and life to the book. Thanks for ever!

Any reader who has ever fallen in love with a house will understand the attraction of Moorgate, a light-and-fresh-air-filled old farmhouse on the edge of the moor in Cornwall. The

enchancing house now belongs to seventy-something Maudie Todhunter, the late Lord Todhunter's free-spirited second wife. (The first wife, Hilda, was supposedly a paragon of virtue, and Maudie has always felt second-best.) The light of Maudie's life is her vivacious stepgranddaughter, Posy, who begs Maudie to board a giant English mastiff whom Posy's mean-spirited mother has banned from the house. (The large and ungainly Polonius is an impossibly lovable canine who outshines Lassie by a mile and is destined to become a favorite of readers worldwide.) When Maudie decides to sell Moorgate, all kinds of old family secrets come to light, and so

the saga begins. Along the way, Rob, the contractor of Moorhouse, falls in love with a woman who has a sad secret. Posy's father falls in love with someone kinder than his shrewish wife. Maudie must reevaluate someone she'd fallen in love with years ago. And as the connections intertwine between the past and the present, many unexpected alliances form. Vivid, lushly written, and entirely unforgettable, this all-absorbing novel provides the kind of abundant reading experience that will leave readers eagerly looking forward to more from this newly discovered and superbly talented author. A Week in Winter achieves a combined richness of

character and circumstance that raises it above most modern contemporary fiction, and Marcia Willett is a writer to discover and to celebrate.

As sightings of the Virgin Mary have increased around the world over the last couple of decades, the Vatican has placed increased importance on a group of theologians, scientists and physicians whose job is to investigate them. These are the miracle detectives. Randall Sullivan's book follows these investigators on the trail of the Virgin Mary from the Vatican City in Rome to Oregon, Arizona, Venezuela, Switzerland, Ireland, Japan and Kenya. What he discovers is that every road and each mystery leads back to a tiny village in Bosnia. There, against the background of the ongoing war, eight young visionaries have been receiving what

they say are the final apparitions of the Madonna. These appearances, which began in 1858 in a small village in the former Yugoslavia, have been more thoroughly examined than any purported miraculous phenomenon in history. To date, the results defy explanation. This is an amazing story of religious mysticism, as well as a testing of the author's own faith and beliefs.

I Love Jesus, But I Want to Die Springer

Lourdes was at the very centre of nineteenth century debates on religion, science and medicine. Both the Church and secularists championed the 'miracle' town as crucial in shaping how society should think

about the mind, body and spirit. Since the 'visions' of Bernadette Soubirous in 1858 transformed the quiet Pyrenean town into an international tourist and pilgrimage destination, it has been a site for controversy. In her well-crafted and carefully researched book, Harris deftly places Lourdes and its attendant spiritual movement firmly at the centre of French history and shows its significance in the country's development.

What I have against religion is that the Judaeo-Christian mythology is not true. The simplest yet most exalted attribute of our species is the acute, persistent, unquenchable craving TO KNOW. Do you realize that to many men (and women) it makes a vast and a profound difference whether or not the things about them are as they appear? H.P. Lovecraft Does truth

matter? For those who follow a religious path, truth may be secondary to comfort. But for many of us, there can be no comfort in untruths. In the authors experience and opinion, religion is responsible for a great many sins. In the name of religion the pursuit of knowledge has been hampered. In the name of religion women have been vilified. In the name of religion countless acts of barbarism have been committed. Make no mistake, such things are still alive and well in the twenty-first century. Through the exploration of some of Christianitys most enduring mysteries and questions, Does It Matter? encourages you to re-examine your beliefs. Did Moses

write the Old Testament? Was Jesus Christ the founder of Christianity? Do angels ever appear as female or children? Does the Bible say that the soul ascends to heaven or hell immediately after death? Was Mother Teresa really a godly woman? Has an actual miracle ever happened outside the Bible? Whats more important, faith or truth? The answers may surprise you.

St. Bernadette's impoverished childhood, her work as a shepherdess, visions of Our Lady, harsh treatment as a nun, and tragic death at the age of 35 are recalled in this groundbreaking book. Numerous Irish miracles and cures at Lourdes are recollected. Recoveries from cancer, epilepsy, lung problems, skin disease, pain, paralysis and physical disability are included. John F. Kennedy, Grace Kelly, Brendan Behan and Seamus Heaney are among the millions who have visited the shrine. You can read their stories, along with those of other Irish

pilgrims. Using first-hand testimony, this moving and inspirational book brings you up-close to the wonders of Lourdes in a way you have never experienced before. Reviews 'Riveting story of St. Bernadette and why the Pyrenean town is a place of pilgrimage and peace' -RTÉ Radio 1 'A deeply felt, warmly sympathetic and humane book' - The Irish Catholic 'Terrific read'' - Belfast Telegraph 'A book that will make you believe in miracles' - C103 'Brings readers close up to the many wonders of Lourdes' - Shannonside FM *Readers' Guide to Periodical Literature* Sphere To a lively cast of international players that shaped Manchuria

during the early twentieth century, *At the Frontier of God's Empire* adds the remarkable story of Alfred Marie Caubrière (1876-1948). A French Catholic missionary, Caubrière arrived in Manchuria on the eve of the Boxer Uprising in 1899 and was murdered on the eve of the birth of the People's Republic of China in 1948. Living with ordinary Chinese people for half a century, Caubrière witnessed the collapse of the Qing empire, the warlord's chaos that followed, the rise and fall of Japanese Manchukuo, and the emergence of communist China. Caubrière's incredible personal archive, on which Ji Li draws extensively, opens a unique window into

everyday interaction between Manchuria's grassroots society and international players. His gripping accounts personalize the Catholic Church's expansion in East Asia and the interplay of missions and empire in local society. Through Caubrière's experience, *At the Frontier of God's Empire* examines Chinese people at social and cultural margins during this period. A wealth of primary sources, family letters, and visual depictions of village scenes illuminate vital issues in modern Chinese history, such as the transformation of local society, mass migration and religion, tensions between church and state, and the importance of cross-cultural

exchanges in everyday life in Chinese Catholic communities. This intense transformation of Manchurian society

embodies the clash of both domestic and international tensions in the making of modern China.
