s.com/ Answer: As this is a

personality test, there is

no correct answer.

Situational judgement

tests. Situational judgement tests assess a candidate's suitability for a role based on their decision-making skills. A work-based scenario is presented with several options for a suitable course of action; the candidate must choose what they would do in that particular situation.

**Cubiks Tests: Free Practice Questions & Tips (2020)** Cubiks has an extensive portfolio of assessments with psychometric tests and aptitude tests, which can be tailored to the needs of a client organization and a specific job role. Cubiks has divided their aptitude tests into two difficulty categories, advanced and intermediate. All these tests can be practiced at [Assessment-Training.com](#).

**Cubiks Practice Tests with Explanations | Assessment ...** The intermediate test has 16 questions and you have 4 minutes to answer them. The advanced test will expect you to answer 8 questions in 8 minutes.

**Verbal section - Candidates will be provided with text-based questions that are business-oriented. These are designed to test your verbal reasoning skills. This section in the**

intermediate test has a total of 24 questions and you have 4 minutes to answer every question.

**Cubiks Tests: Format & Free Practice Questions** The Cubiks tests are designed to aid the employer in identifying the key strengths of a candidate. Furthermore, in evaluation of the outcome to assess suitability to a specific job role. If you are invited to an online Cubiks test by a recruiter, then you are likely to be in a fix wondering how to go about with it.

**Free Cubiks Tests Preparation and Example Questions** Here's a sample Cubiks' Logiks-style numerical reasoning test question with the correct answer: **Solution:** First, calculate the total number of actual units sold for branch C, then divide the result by 70% (100% - 30%).

**Cubiks Logiks Numerical | Practice Test 2020 ...** Cubiks Abstract Test **Tips: Abstract reasoning questions generally feature a series of shapes arranged in a pattern. 1) Break a complex pattern down - Start each question simply by noticing all the elements of the pattern. 2) Disassemble the pattern to its separate elements - compare only one**

element at a time.

**22 Tips & Techniques to Solve Cubiks Logiks Like a Pro** In this section of the Cubiks Logiks advanced test, you have to answer 10 questions within four minutes. The questions are figural series questions. This means that you are presented with a series of five figures, and you must find the correct answer that completes the series. The frames advance from left to right in a certain way.

**Practice for Cubiks Logiks Advanced Tests - JobTestPrep** The Logiks General tests are usually timed and you are assigned 12 minutes to answer the test completely. The time may be equally divided among all the sections with each of them being assigned 4 minutes. The questions in the test are usually easy to answer but it is the timing of the test that makes taking it challenging.
