It was one of the first mass-produced books in America and was widely read and discussed to an extent not much experienced in the young country up until that time. The Scarlet Letter - Original February 1850 Uncensored Version is the first incarnation of the book, before Hawthorne added a preface to a second edition of The Scarlet Letter which was published a month later. The story tells of Hester Prynne, condemned to wear the red letter A on her breast, as punishment for adultery - and because she resists all attempts of the Boston clergy to make her reveal the name of her child's father. “London’s style is typically lush but his viewpoint is skeptical and dystopian...the story reminds us of the dangers we still court with our careless ways.”-The Times “Jack London saw this coming. Why didn’t we?...To revisit The Scarlet Plague during the COVID-19 crisis is to marvel at how much London understood- a century ago-about the challenges we face now.”-The Baltimore Sun The Scarlet Plague (1915) is an early dystopian novel written by Jack London in 1910, serialized in London Magazine in 1912, and finally published as a book in 1915. Set in 2073, sixty years after a pandemic has wiped out most of earth’s population, an old man recounts the events of 2013 to his grandsons. He had been a professor of English Literature at the University of California Berkeley, and managed to survive the pandemic by isolating himself in the chemistry facility at the school. Later, he spent years living alone in an empty hotel in Yosemite, until he finally joined a group of rag-tag survivors in San Francisco who called themselves “The Chauffeurs”. The Scarlet Plague opens at the end of civilization when Professor James Howard Smith is an old man on a beach outside of San Francisco, when he tells his story. The world that he describes has no relation to the post-apocalyptic desolation of 2073, and the culture and civilization that he evokes are met with abject skepticism. Smith is convinced that he is the remaining survivor who can describe how the world existed before it descended into complete barbarism. The Scarlet Plague is a harrowing classic of early science fiction that eerily resonates with the tumultuous events of our own times. With an eye-catching new cover, and professionally typeset manuscript, this edition of The Scarlet Plague is both modern and readable.

Contemporary Mexico faces a complex crisis of violence and insecurity with high levels of impunity and the lack of an effective rule of law. These weaknesses in the rule of law are multidimensional and involve elements of institutional design, the specific content of the laws, particularities of political competition and a culture of legality in a country with severe social inequalities. This book discusses necessary institutional and legal reforms to develop the rule of law in a context of democratic, social and economic transformations. The chapters are organized to address: 1) The concept of the ‘rule of law’ and its measurement; 2) The fragility of the ‘rule of law’ in Mexico; 3) Structural reforms and implementation challenges; 4) Social exclusion and the culture of legality. The book addresses decision-makers, civil servants, consultants, scholars, lecturers, and students focusing on

public policy, rule of law, sociology of law, legislative studies and practice, impunity, and areas of political philosophy. • The book presents an interdisciplinary and integrated approach for understanding the rule of law in Mexico, taking into account national particularities, the regional context and global comparisons. • Chapters discuss recent institutional reforms in Mexico from a critical point of view and explore possible next steps to achieve effective implementation. • This book addresses the links between a weak rule of law and social phenomena like insecurity, violence, corruption and democratic deficits.

« La pandémie aura démontré que ce sont bien les écrivains de toutes formations et extractions qui sont capables d’éclairer les médecins. D’où la nécessité de bénéficier d’une grande ouverture d’esprit. Raison de plus d’avoir une double formation, littéraire et scientifique, faisant de l’équilibre une quête continue et une constante voulue. Parce que la fracture entre sciences et lettres entrave notre unique cause, la seule qui vaille, la cause humaine. De plus, ce profond divorce de deux formations n’y est pas pour rien. N’engendre-t-il pas l’incompréhension, le mépris, l’inefficacité et le conflit ? Aussi ce journal est-il in fine une invite à les éviter, en donnant la parole à deux sensibilités complémentaires, à la fois différents, unis et solidaires, afin de retrouver le sens du long terme, la prévention et l’investissement dans les ressources scientifiques et humaines. » À PROPOS DE L'AUTEUR En dépit de l’exercice quotidien de la cardiologie, Nabil Naaman a cofondé et géré une revue médicale, « Médicophonie », en faveur de la francophonie, et ce, dès l’âge de trente-neuf ans...

On n'a pas idée de tout ce qui est prouvé scientifiquement aujourd'hui : que l'intelligence est héréditaire, que le vin de Bordeaux fait diminuer le taux de cholestérol, qu'il faut reculer l'âge de la retraite et baisser les charges des entreprises... Toutes ces découvertes, nous les devons à la science en effet - mais pas n'importe quelle science : la science revisitée par l'idéologie libérale, émanation des milieux bourgeois "progressistes" dans la deuxième moitié du XIX° siècle. Une science mise sur un piédestal, mais qui doit sans cesse lutter pour imposer sa vérité contre les "préjugés populaires". Cette science-là a tout d'un dogme, elle est infaillible et ne se discute pas. Elle se nourrit de mythes comme le "miracle grec" ou la suprématie de la mathématique pure par rapport aux sciences appliquées. Elle est austère, abstraite, élitiste. Et elle règne depuis plus d'un siècle sur l'enseignement secondaire et universitaire. Mais il existe une autre science, celle qui s'est construite prosaïquement tout au long de l'histoire humaine, en liaison avec la vie économique et l'histoire des techniques.Une science à visage humain, avec ses hauts et ses bas. Une science qui accepte qu'on la conteste... pourvu qu'on se soit donné la peine de l'étudier d'abord.

Muslim Spain was first published in 1974. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. This comprehensive history of Muslim Spain in the centuries from 711 to 1492 provides a panoramic view of the whole field of Hispano-Arabic culture, including science, philosophy, and the arts. As the account makes clear, Muslim Spain was always an integral part of the main literary and intellectual stream of the East and as such was as Islamic as Syria or Egypt. Thus the history is important for an understanding of Islamic culture as a whole and of the interaction of people and ideas. The author shows that the

interdependence and continuity of Muslim culture through its long history was nurtured by the unhampered travel of students and scholars and the circulation of publications throughout the width and breadth of the Islamic Empire, notwithstanding the political division that separated Muslim Spain from the center of Islam. The first five chapters of the book describe, dynasty by dynasty, the Muslims' conquest and rule. The remaining chapters discuss in detail all aspects of Hispano-Arabic culture. Among the subjects are the social structure, the sciences and education, Arabic and linguistic studies, prose and belles lettres, poetry, history, geography, and travel, courtly love, religion, philosophy and mysticism, the natural sciences, and architecture, the minor arts, and music. The book is illustrated with photographs, drawings, and maps, and there is an extensive bibliography.

“One of the most vital and original novelists of her generation.” —Larissa MacFarquhar, *The New Yorker* From the bestselling author of *Americanah* and *We Should All Be Feminists* Fifteen-year-old Kambili and her older brother Jaja lead a privileged life in Enugu, Nigeria. They live in a beautiful house, with a caring family, and attend an exclusive missionary school. They're completely shielded from the troubles of the world. Yet, as Kambili reveals in her tender-voiced account, things are less perfect than they appear. Although her Papa is generous and well respected, he is fanatically religious and tyrannical at home—a home that is silent and suffocating. As the country begins to fall apart under a military coup, Kambili and Jaja are sent to their aunt, a university professor outside the city, where they discover a life beyond the confines of their father's authority. Books cram the shelves, curry and nutmeg permeate the air, and their cousins' laughter rings throughout the house. When they return home, tensions within the family escalate, and Kambili must find the strength to keep her loved ones together. *Purple Hibiscus* is an exquisite novel about the emotional turmoil of adolescence, the powerful bonds of family, and the bright promise of freedom.

Le vieux baron des Ravots avait été pendant quarante ans le roi des chasseurs de sa province. Mais, depuis cinq à six années, une paralysie des jambes le clouait à son fauteuil, et il ne pouvait plus que tirer des pigeons de la fenêtre de son salon ou du haut de son grand perron. Le reste du temps il lisait. C'était un homme de commerce aimable chez qui était resté beaucoup de l'esprit lettré du dernier siècle. Il adorait les contes, les petits contes polissons, et aussi les histoires vraies arrivées dans son entourage. Dès qu'un ami entrait chez lui, il demandait : -- Eh bien, quoi de nouveau ? Et il savait interroger à la façon d'un juge d'instruction. Par les jours de soleil il faisait rouler devant la porte son large fauteuil pareil à un lit. Un domestique, derrière son dos, tenait les fusils, les chargeait et les passait à son maître ; un autre valet, caché dans un massif, lâchait un pigeon de temps en temps, à des intervalles irréguliers, pour que le baron ne fût pas prévenu et demeurât en éveil. Et, du matin au soir, il tirait les oiseaux rapides, se désolant quand il s'était laissé surprendre, et riant aux larmes quand la bête tombait d'aplomb ou faisait quelque culbute inattendue et drôle. Il se tournait alors vers le garçon qui chargeait les armes, et il demandait, en suffoquant de gaieté :

L'enfant n'est pas seulement un cerveau avec un cartable, l'enfant ne se réduit pas à une boîte à savoirs. Fort de cette conviction, tout parent désire l'épanouissement de son enfant dans toutes ses dimensions. C'est le pari de l'éducation intégrale. À une époque où les repères s'effacent et les structures éducatives sont à la peine, seule une vision moderne de l'éducation fondée sur l'humanisme chrétien est en mesure de répondre aux défis contemporains. Dans cette perspective, l'enfant est considéré non seulement pour lui-même, mais aussi en vue d'une participation effective au bien de la société. Nourri d'une irremplaçable expérience de terrain dans le monde scolaire, l'auteur développe une approche innovante et accessible à

tout parent comme à tout enseignant. Principes théoriques et applications pratiques sont ainsi parfaitement mariés pour donner naissance à un ouvrage qui, pour la première fois, synthétise avec grand talent l'éducation intégrale dans toutes ses composantes. François-Xavier Clément est père de famille, philosophe de formation. Enseignant, puis chef d'établissements scolaires du second degré, il a été directeur de l'enseignement catholique de la Loire. Il est également auditeur de l'Institut des hautes études de la Défense nationale (IHEDN). Sa dernière expérience a été celle de chef d'établissement coordonnateur du groupe scolaire Saint-Jean-de-Passy à Paris durant cinq ans.

This “dazzling” novel follows a family of English aristocrats as their country teeters on the brink of World War II (Penelope Fitzgerald). As war clouds gather on the distant horizon, Hugh, Edward, and Rupert Cazalet, along with their wives, children, and loyal servants, prepare to leave London for their annual pilgrimage to the family's Sussex estate. There, they will join their parents, William and Kitty, and sister, Rachel, at Home Place, the sprawling retreat where the three brothers hope to spend an idyllic summer of years gone by. But the First World War has left indelible scars. Hugh, the eldest of his siblings, was wounded in France and is haunted both by recurring nightmares of battle and the prospect of another war. Edward adores his wife, Villy, a former dancer searching for meaning in life, yet he's incapable of remaining faithful to her. Rupert desires only to fulfill his potential as a painter, but finds that love and art cannot coexist. And devoted daughter Rachel discovers the joys—and limitations—of intimacy with another woman. A candid portrait of British life in the late 1930s and a sweeping depiction of a world on the brink of war, *The Light Years* is a must-read for fans of *Downton Abbey*. Three generations of the Cazalet family come to unforgettable dramatic life in this saga about England during the last century—and the long-held values and cherished traditions that would soon disappear forever.

It reveals the real story of all the laureates of that period - some of them among the most controversial in the history of the prize (Gorbachev, Arafat, Peres and Rabin, Mandela and De Klerk, Obama, and Liu Xiaobo) - and exactly why they came to receive the prize.
