The Killer Questions Your Company Should Be Asking Generating and executing great

ideas is the key to staying ahead in a rapidly changing world. It seems so basic. Why is it so hard to actually get right? According to innovation expert Phil McKinney, the real problem is that we're teaching people to ask the wrong questions about their businesses--or none at all. There has to be a better way. In *Beyond the Obvious*, McKinney will help you use his proven FIRE (Focus, Ideation, Rank, Execution) Method to dig deeper and get back to asking the right questions--the ones all companies must ask to survive. Full of real-world examples, this book will change the way you operate, innovate, and create, and it all begins with battle-tested questions Phil has gathered on note cards throughout his career. Shared for the first time here, these "Killer Questions" include: What are the rules and assumptions my industry operates under? What if the opposite were true? What will be the buying criteria used by my customer in 5 years? What are my unshakable beliefs about what my customers want? Who uses my product in ways I never anticipated? These questions will reframe the way you see your products, your customers, and the way the

two interact. Whether you're a company of thousands or a lean startup, *Beyond the Obvious* will give you the skills and easy-to-follow plan you need to make both the revolutionary changes and nuanced tweaks required for success. Praise for *Beyond the Obvious* "Human beings are creatures of habit, so getting ourselves and our teams to think beyond the obvious is a challenge we face all the time. Phil McKinney is an innovation expert, and his killer questions and hit-the-spot anecdotes provide a great way to get out in front of opportunities we otherwise won't see." -- Geoffrey Moore, author of *Crossing the Chasm* and *Escape Velocity* "I've always believed that asking the right questions is the essence of design. Phil McKinney proves that point with this wonderful set of killer questions that will jumpstart-or greatly enhance- your innovation efforts." --B. Joseph Pine II, co-author, *The Experience Economy & Infinite Possibility*. "Product Innovation is a prerequisite to building great brands. Phil's questions are a prerequisite to building innovative products." --Satjiv S. Chahil, former global marketing chief, Apple

"This is that rarity, a useful book."--Warren

Buffett Howard Marks, the chairman and cofounder of Oaktree Capital Management, is renowned for his insightful assessments of market opportunity and risk. After four decades spent ascending to the top of the investment management profession, he is today sought out by the world's leading value investors, and his client memos brim with insightful commentary and a time-tested, fundamental philosophy. Now for the first time, all readers can benefit from Marks's wisdom, concentrated into a single volume that speaks to both the amateur and seasoned investor. Informed by a lifetime of experience and study, *The Most Important Thing* explains the keys to successful investment and the pitfalls that can destroy capital or ruin a career. Utilizing passages from his memos to illustrate his ideas, Marks teaches by example, detailing the development of an investment philosophy that fully acknowledges the complexities of investing and the perils of the financial world. Brilliantly applying insight to today's volatile markets, Marks offers a volume that is part memoir, part creed, with a number of broad takeaways. Marks

expounds on such concepts as "second-level thinking," the price/value relationship, patient opportunism, and defensive investing. Frankly and honestly assessing his own decisions--and occasional missteps--he provides valuable lessons for critical thinking, risk assessment, and investment strategy. Encouraging investors to be "contrarian," Marks wisely judges market cycles and achieves returns through aggressive yet measured action. Which element is the most essential? Successful investing requires thoughtful attention to many separate aspects, and each of Marks's subjects proves to be the most important thing.
