Sage Foundation An interdisciplinary study of how conspiracy theories and stories persist and resonate among

different Americans **Connecting Social Problems and Popular Culture** Rethinking Schools In the Fourth

Edition of Cultures and Societies in a Changing World, author Wendy Griswold illuminates how culture shapes our social world and how society shapes culture. She helps students gain an understanding of the sociology of culture and explore stories, beliefs, media, ideas, art, religious practices, fashions, and rituals from a sociological perspective. Cultural examples

from multiple countries and time periods will broaden students' global understanding . They will develop a deeper appreciation of culture and society, glean insights that will help them overcome cultural misunderstandings, conflicts, and ignorance; equip them to be more effective in their professional and personal lives, and become wise citizens of the world.

It Happens at Comic-Con
Westview Press
The first book in Iain M. Banks's seminal science fiction series, *The Culture*. Consider Phlebas introduces readers to the utopian conglomeration of human and alien races that explores the nature of war, morality, and the limitless bounds of mankind's imagination. The war raged across the galaxy. Billions had died, billions

more were doomed. Moons, planets, the very stars themselves, faced destruction, cold-blooded, brutal, and worse, random. The Idirans fought for their Faith; the Culture for its moral right to exist. Principles were at stake. There could be no surrender. Within the cosmic conflict, an individual crusade. Deep within a fabled labyrinth on a barren world, a Planet of the Dead

proscribed to mortals, lay a fugitive Mind. Both the Culture and the Idirans sought it. It was the fate of Horza, the Changer, and his motley crew of unpredictable mercenaries, human and machine, actually to find it, and with it their own destruction. The Culture Series Consider Phlebas The Player of Games Use of Weapons The State of the Art Excession Inversions Look to

Windward Matter Surface Detail The Hydrogen Sonata *Why Karen Carpenter Matters* SAGE Publications Super Black places the appearance of black superheroes alongside broad and sweeping cultural trends in American politics and pop culture, which reveals how black superheroes are not disposable pop products, but rather a fascinating racial phenomenon through which

futuristic expressions and fantastic visions of black racial identity and symbolic political meaning are presented. Adilifu Nama sees the value—and finds new avenues for exploring racial identity—in black superheroes who are often dismissed as sidekicks, imitators of established white heroes, or are accused of having no role outside of blaxploitation film contexts. Nama

examines seminal black comic book superheroes such as Black Panther, Black Lightning, Storm, Luke Cage, Blade, the Falcon, Nubia, and others, some of whom also appear on the small and large screens, as well as how the imaginary black superhero has come to life in the image of President Barack Obama. *Super Black* explores how black superheroes are a powerful source of racial meaning,

narrative, and imagination in American society that express a myriad of racial assumptions, political perspectives, and fantastic (re)imaginings of black identity. The book also demonstrates how these figures overtly represent or implicitly signify social discourse and accepted wisdom concerning notions of racial reciprocity, equality, forgiveness, and ultimately,

racial justice. Bob Dylan and Philosophy Open Court This collection of 13 new essays employs ethnographic methods to investigate San Diego's Comic-Con International, the largest annual celebration of the popular arts in North America. Working from a common grounding in fan studies, these individual explorations examine a range of cultural practices at an event drawing crowds of nearly 125,000 each summer. Investigations range from the practices of fans costuming themselves to the talk of corporate marketers. The collection seeks to expand fan studies, exploring Comic-Con International more deeply than any publication before it. Gender and Popular Culture Vintage Gender & Pop Culture provides a foundation for the study of gender, pop culture and media. This comprehensive, interdisciplinary text provides textbook style introductory and concluding chapters written by the editors, seven original contributor chapters on key topics and written in a variety of writing styles, discussion questions, additional resources and more. Coverage includes: - Foundations

for studying gender & pop culture (history, theory, methods, key concepts) - Contributor chapters on media and children, advertising, music, television, film, sports, and technology - Ideas for activism and putting this book to use beyond the classroom - Pedagogical Features - Suggestions for further readings on topics covered and international studies of

gender and pop culture Gender & Pop Culture was designed with students in mind, to promote reflection and lively discussion. With features found in both textbooks and anthologies, this sleek book can serve as primary or supplemental reading in undergraduate courses across the disciplines that deal with gender, pop culture or media studies. "An important addition to the fields of

gender and media studies, this excellent compilation will be useful to students and teachers in a wide range of disciplines. The research is solid, the examples from popular culture are current and interesting, and the conclusions are original and illuminating. It is certain to stimulate self-reflection and lively discussion." Jean Kilbourne, Ed.D., author, feminist activist and

creator of the Killing Us Softly: Advertising's Image of Women film series "An ideal teaching tool: the introduction is intellectually robust and orients the reader towards a productive engagement with the chapters; the contributions themselves are diverse and broad in terms of the subject matter covered; and the conclusion helps students take what they have learnt beyond the classroom. I can't wait to

make use of it." Sut Jhally, Professor of Communication, University of Massachusetts at Amherst, Founder & Executive Director, Media Education Foundation Adrienne Trier-Bieniek, Ph.D. is currently an assistant professor of sociology at Valencia College in Orlando, Florida. Her first book, Sing Us a Woman: Female Fans and the Music

of Tori Amos (Scarecrow, 2013) addresses the ways women use music to heal after experiencing trauma. www.adrienne-trier-bieniek.com Patricia Leavy, Ph.D. is an internationally known scholar and best-selling author, formerly associate professor of sociology and the founding director of gender studies at Stonehill College. She is the author of the acclaimed novels American

Circumstance and Low-Fat Love and has published a dozen nonfiction books including Method Meets Art: Arts-Based Research Practice. www.patricialeavy.com
The Resonance of Unseen Things
 Vintage
 NATIONAL BESTSELLER • ONE OF USA TODAY'S MUST-READ BOOKS • This groundbreaking memoir offers a glimpse into an activist's journey to finding and

cultivating community and the continued fight for disability justice, from the founder and director of the Disability Visibility Project "Alice Wong provides deep truths in this fun and deceptively easy read about her survival in this hectic and ableist society."
 —Selma Blair, bestselling author of Mean Baby In Chinese culture, the tiger is deeply revered for its confidence,

passion, ambition, and ferocity. That same fighting spirit resides in Alice Wong. Drawing on a collection of original essays, previously published work, conversations, graphics, photos, commissioned art by disabled and Asian American artists, and more, Alice uses her unique talent to share an impressionistic scrapbook of her life as an Asian American disabled

activist, community organizer, media maker, and dreamer. From her love of food and pop culture to her unwavering commitment to dismantling systemic ableism, Alice shares her thoughts on creativity, access, power, care, the pandemic, mortality, and the future. As a self-described disabled oracle, Alice traces her origins, tells her story, and creates a space for disabled

people to be in conversation with one another and the world. Filled with incisive wit, joy, and rage, *Wong's Year of the Tiger* will galvanize readers with big cat energy. *Mix it Up* Yale University Press The essential companion for the geek era: a fusion of inspirational quotes, philosophy, and pop culture drawn from the entire cult-classic canon of film, TV, books, comics,

and science. Celebrate nerd culture by taking a page out of your all-time favorites, like Star Wars and Star Trek, The Lord of the Rings and Dune—and much more! Computer nerds are our titans of industry; comic-book superheroes are our Hollywood idols; the Internet is our night on the town. Clearly, geeks know something about life in the 21st century that other folks don't—someth

ing we all can learn from. Geek Wisdom takes as gospel some 200 of the most powerful and oft-cited quotes from movies (“Where we’re going, we don’t need roads”), television (“Now we know—and knowing is half the battle”), literature (“All that is gold does not glitter”), games, science, the Internet, and more. Now these beloved pearls of modern-day culture have

been painstakingly interpreted by a diverse team of hardcore nerds with their imaginations turned up to 11. Yes, this collection of mini-essays is by, for, and about geeks—but it’s just so surprisingly profound, the rest of us would have to be dorks not to read it. So say we all. **Super Black** John Wiley & Sons Social media has been transforming American and global cultural

life for over a decade. It has flattened the divide between producer and audience found in other forms of culture while also enriching some massive corporations. At the core of Social Media Freaks is the question: Does social media reproduce inequalities or is it a tool for subverting them? Social Media Freaks presents a virtual ethnography of social media, focusing on issues of

identity and inequality along five dimensions-race, class, gender, sexuality, and disability. It presents original and secondary findings, while also utilizing social theory to explain the dynamics of social media. It teaches readers how to engage social media as a tool for social activism while also examining the limits of social media's value in the quest for social change.

This book looks at the post-Holocaust experience with emphasis on aspects of its impact on popular culture.
The Sociology of Harry Potter
John Wiley & Sons
Internet trolls live to upset as many people as possible, using all the technical and psychological tools at their disposal. They gleefully whip the media into a frenzy over a fake teen drug crisis; they post offensive

messages on Facebook memorial pages, traumatizing grief-stricken friends and family; they use unabashedly racist language and images. They take pleasure in ruining a complete stranger's day and find amusement in their victim's anguish. In short, trolling is the obstacle to a kinder, gentler Internet. To quote a famous Internet meme, trolling is why we can't have

nice things online. Or at least that's what we have been led to believe. In this provocative book, Whitney Phillips argues that trolling, widely condemned as obscene and deviant, actually fits comfortably within the contemporary media landscape. Trolling may be obscene, but, Phillips argues, it isn't all that deviant. Trolls' actions are born of and fueled by culturally sanctioned impulses --

which are just as damaging as the trolls' most disruptive behaviors. Phillips describes, for example, the relationship between trolling and sensationalist corporate media -- pointing out that for trolls, exploitation is a leisure activity; for media, it's a business strategy. She shows how trolls, "the grimacing poster children for a socially networked world," align with social

media. And she documents how trolls, in addition to parroting media tropes, also offer a grotesque pantomime of dominant cultural tropes, including gendered notions of dominance and success and an ideology of entitlement. We don't just have a trolling problem, Phillips argues; we have a culture problem. This Is Why We Can't Have Nice Things isn't only

about trolls; it's about a culture in which trolls thrive. *It's Complicated* McFarland A twenty-first century introduction to sociological thinking on pop culture, the media, and society. *SOCIAL MEDIA FREAKS* Duke University Press This introductory *Field guide* to the sociology of popular culture provides the tools to think critically about the cultural soup served

daily by film, television, music, print media, and the internet. *This Is Why We Can't Have Nice Things* SAGE Publications In The Genuine Article Paul Gilmore examines the interdependence of literary and mass culture at a crucial moment in U. S. history. Demonstrating from a new perspective the centrality of race to the construction of white manhood across class lines, Gilmore

argues that in the years before the Civil War, as literature increasingly became another commodity in the capitalist cultural marketplace, American authors appropriated middle-brow and racially loaded cultural forms to bolster their masculinity. From characters in Indian melodramas and minstrel shows to exhibits in popular museums and daguerrotype galleries,

primitive racialized figures circulated as “the genuine article” of manliness in the antebellum United States. Gilmore argues that these figures were manipulated, translated, and adopted not only by canonical authors such as Hawthorne, Thoreau, Cooper, and Melville but also by African American and Native American writers like William Wells Brown and Okah Tubbee.

By examining how these cultural notions of race played out in literary texts and helped to construct authorship as a masculine profession, Gilmore makes a unique contribution to theories of class formation in nineteenth-century America. The Genuine Article will enrich students and scholars of American studies, gender studies, literature,

history, sociology, anthropology, popular culture, and race.

Media Audiences and Identity

Vintage National Book Award Finalist
 • Here is the unforgettable story of the Binewskis, a circus-geek family whose matriarch and patriarch have bred their own exhibit of human oddities—with the help of amphetamines, arsenic, and radioisotopes. One of The Atlantic’s Great American

Novels of the Past 100 Years Their offspring include Arturo the Aquaboy, who has flippers for limbs and a megalomaniac ambition worthy of Genghis Khan . . . lphy and Elly, the lissome Siamese twins . . . albino hunchback Oly, and the outwardly normal Chick, whose mysterious gifts make him the family's most precious—and dangerous—as set. As the Binewskis take their act across the

backwaters of the U.S., inspiring fanatical devotion and murderous revulsion; as its members conduct their own Machiavellian version of sibling rivalry, Geek Love throws its sulfurous light on our notions of the freakish and the normal, the beautiful and the ugly, the holy and the obscene. Family values will never be the same. Handbook of Research on Consumption, Media, and Popular

Culture in the Global Age Macmillan + ORM A groundbreaking anthology that probes the disposition towards the visually different Giants. Midgets. Tribal non-Westerners. The very fat. The very thin. Hermaphrodites. Conjoined twins. The disabled. The very hirsute. In American history, all have shared the platform equally, as freaks, human oddities, their only commonality

their assigned role of anomalous other to the gathered throngs. For the price of a ticket, freak shows offered spectators an icon of bodily otherness whose difference from them secured their own membership in a common American identity--by comparison ordinary, tractable, normal. Rosemarie Thomson's groundbreaking anthology probes America's disposition

toward the visually different. The book's essays fall into four main categories: historical explorations of American freak shows in the era of P.T. Barnum; the articulation of the freak in literary and textual discourses; contemporary relocations of freak shows; and theoretical analyses of freak culture. Essays address such diverse topics as American colonialism and public presentations

of natives; laughing gas demonstrations in the 1840's; Shirley Temple and Tom Thumb; Todd Browning's landmark movie *Freaks*; bodybuilders as postmodern freaks; freaks in *Star Trek*; Michael Jackson's identification with the Elephant Man; and the modern talk show as a reconfiguration of the freak show. In her introduction, Thomson traces the freak show from antiquity

to the modern period and explores the constitutive, political, and textual properties of such exhibits. Freakery is a fresh, insightful exploration of a heretofore neglected aspect of American mass culture.

Freakery

University of Texas Press
This edited volume is the first book to engage in the specific connections between pop culture and the field of curriculum studies, interrogating

the production of particular subjectivities and knowledges, posing questions about the educability of those on the outside of humanity, and how our imaginings of structures, institutions, and configurations beyond what seems possible may inform the work and thinking we are currently engaged in. This edited volume has contributions from scholars who mobilize a multiplicity

of theoretical frameworks and aesthetic horizons, including but not limited to post-humanism, africanfuturisms, speculative fiction, cyborg studies, and decolonial studies. The volume concludes with a conversation with Prof. Jack Halberstam (Columbia University), one the foremost scholars in cultural studies, queer theories, and popular culture, providing a

fascinating dialogue with the field of education. Jewish Identity in Western Pop Culture University of Chicago Press In the '60s and '70s, America's music scene was marked by raucous excess, reflected in the tragic overdoses of young superstars such as Jimi Hendrix and Janis Joplin. At the same time, the uplifting harmonies and sunny lyrics that propelled Karen

Carpenter and her brother, Richard, to international fame belied a different sort of tragedy—the underconsumption that led to Karen's death at age thirty-two from the effects of an eating disorder. In Why Karen Carpenter Matters, Karen Tongson (whose Filipino musician parents named her after the pop icon) interweaves the story of the singer's rise to fame

with her own trans-Pacific journey between the Philippines—where here imitations of American pop styles flourished—and Karen Carpenter's home ground of Southern California. Tongson reveals why the Carpenters' chart-topping, seemingly whitewashed musical fantasies of "normal love" can now have profound significance for her—as well as for other people of color,

LGBT+ communities, and anyone outside the mainstream culture usually associated with Karen Carpenter's legacy. This hybrid of memoir and biography excavates the destructive perfectionism at the root of the Carpenters' sound, while finding the beauty in the singer's all too brief life.

Companion to Women's and Gender Studies IGI

Global Using extensive interviews,

hundreds of transcripts, focus-group discussions with viewers, and his own experiences as an audience member, Joshua Gamson argues that talk shows give much-needed, high-impact public visibility to sexual nonconformists while also exacerbating all sorts of political tensions among those becoming visible. With wit and passion, Freaks Talk Back

illuminates the joys, dilemmas, and practicalities of media visibility. "This entertaining, accessible, sobering discussion should make every viewer sit up and ponder the effects and possibilities of America's daily talk-fest with newly sharpened eyes."—Publishers Weekly "Bold, witty. . . . There's a lot of empirical work behind this deceptively easy read, then, and it allows for the most

sophisticated and complex analysis of talk shows yet."—Elayne Rapping, *Women's Review of Books* "Funny, well-researched, fully theorized. . . . Engaged and humane scholarship. . . . A pretty inspiring example of what talking back to the mass media can be."—Jesse Berrett, *Village Voice* "An extraordinarily well-researched volume, one of the most

comprehensive studies of popular media to appear in this decade."—James Ledbetter, *Newsday* *Gender & Pop Culture* Quirk Books One of The Telegraph's Best Music Books 2011 We live in a pop age gone loco for retro and crazy for commemoration. Band reformations and reunion tours, expanded reissues of classic albums and outtake-crammed box sets, remakes and sequels, tribute albums

and mash-ups . . . But what happens when we run out of past? Are we heading toward a sort of culturalecological catastrophe where the archival stream of pop history has been exhausted? Simon Reynolds, one of the finest music writers of his generation, argues that we have indeed reached a tipping point, and that although earlier eras had their own

obsessions
with
antiquity—the
Renaissance
with its
admiration for
Roman and
Greek
classicism, the
Gothic
movement's
invocations of

medievalism—
never has
there been a
society so
obsessed with
the cultural
artifacts of its
own
immediate
past. Retromania is
the first book

to examine
the retro
industry and
ask the
question: Is
this
retromania a
death knell for
any originality
and
distinctiveness
of our own?
