George Romney built an unconventional

political career that inspired and moved many, including his son Willard Mitt Romney. Romney's Way: A Man and An Idea is George Romney's story, from his Mormon upbringing, through his journey as a maverick industrialist to his place in Republican leadership in Democratic Michigan. In 1966, T. George Harris took a five-month leave as senior editor at Look magazine to study Romney, his successes and failures and his innovations. Moving freely through Romney's past and present, Romney's Way explores the dominant theme of his life: With workers, executives, consumers, parents, taxpayers, party members and the poor, he sought to give people control of the forces that impinged upon their lives. He believed he lived in an age that assumed that all citizens must be part of an inert if

affluent mass. Romney instead had a practical vision of how participatory democracy can work for everyone. Harris frankly discusses the strengths and limitation and, above all, the rebellious originality of George Romney's "urban populism." Everything about George Romney is examined, including 12 years of his tax returns. Deeply penetrating and provocative, Romney's Way provides vital insight into the world that nurtured and influenced Mitt Romney. A legendary magazine entrepreneur, T. George Harris turned Psychology Today from a wobbly startup into a publication widely recognized as the lifestyle magazine of the '70s. Later he launched American Health, which became the Bible of the health movement in '80s. He served as Washington correspondent for Time and as

Time-Life-Fortune bureau chief in Atlanta, Chicago and San Francisco.

Winner of the Frederick Jackson Turner Award Winner of the Isaac and Tamara Deutscher Memorial Prize Winner of the C. L. R. James Award A ProMarket Best Political Economy Book of the Year Men in hardhats were once the heart of America's working class; now it is women in scrubs. What does this shift portend for our future? Pittsburgh was once synonymous with steel. But today most of its mills are gone. Like so many places across the United States, a city that was a center of blue-collar manufacturing is now dominated by the service economy—particularly health care, which employs more Americans than any other industry. Gabriel Winant takes us inside the Rust Belt to show how America's cities have weathered new economic realities. In Pittsburgh's neighborhoods, he finds that a new working class has emerged in the wake of deindustrialization. As steelworkers and their families grew older, they required more health care. Even as the industrial economy contracted sharply,

the care economy thrived. Hospitals and nursing homes went on hiring sprees. But many care jobs bear little resemblance to the manufacturing work the city lost.

Unlike their blue-collar predecessors, home health aides and hospital staff work unpredictable hours for low pay. And the new working class disproportionately comprises women and people of color. Today health care workers are on the front lines of our most pressing crises, yet we have been slow to appreciate that they are the face of our twenty-first-century workforce. *The Next Shift* offers unique insights into how we got here and what could happen next. If health care employees, along with other essential workers, can translate the increasing recognition of their economic value into political power, they may become a major force in the twenty-first century.

This book takes you through the life and struggles of a woman in search of the perfect job. From being a doormat for inconsiderate employers and temp agencies to working for less than peanuts; is it time wasted or just the cruel reality of the world in which we live? Promises of full time employment that never panned out or getting stuck in a dead-end job you wish you'd never taken to begin with. The concerns of life can be terrifying as you wonder if and when your next paycheck will come. How will you live and will that telephone ever ring? *Temp Tales* is a story of one woman's struggles and triumphs in the world of Temporary Employment. She shares with the reader the often ludicrous duties required of temp employees. Never one to shirk a job responsibility or say no, she always had a smile. Judy has never given up her pursuit of the dream job. *Motor Age* Nelson Thornes

Since the 1930s, industrial sociologists have tried to answer the question, Why do workers not work harder? Michael Burawoy spent ten months as a machine operator in a Chicago factory trying to answer different but equally important questions: Why do workers work as hard as they do? Why do workers routinely consent to their own exploitation? Manufacturing Consent, the result of Burawoy's research, combines rich ethnographical description with an original Marxist theory of the capitalist labor process. Manufacturing Consent is unique among studies of this kind because Burawoy has been able to analyze his own experiences in relation to those of Donald Roy, who studied the same factory thirty years earlier. Burawoy traces the technical, political, and ideological changes in factory life to the transformations of the market relations of the plant (it is now part of a multinational corporation) and to broader movements, since World War II, in industrial relations.

Industrial Work and Life: An Anthropological Reader is a comprehensive anthropological overview of industrialisation in both Western and non-Western societies. Based on contemporary and historical ethnographic material, the book unpacks the 'world of industry' in the context of the shop floor, the family, and the city, revealing the rich social and political texture underpinning economic development. It also provides a critical discussion of the assumptions that inform much of the social science literature on industrialisation and industrial 'modernity'. The reader is divided into four thematic sections, each with a clear and informative introduction: historical development of industrial capitalism; shopfloor organisation; the relationships between the workplace and the home; the teleology of industrial 'modernity' and working-class consciousness. With readings by key writers from a range of backgrounds and disciplines, Industrial Work and Life is the essential introduction to the study of industrialisation in different societies. It

will appeal to students across a wide range of subjects including: anthropology, comparative sociology, social history, development studies, industrial relations and management studies. Includes essays by: E.P. Thompson, Aihwa Ong, Jonathan Parry, Thomas C. Smith, Harry Braverman, Michael Burawoy, Huw Beynon, Françoise Zonabend, James Carrier, Leslie Salzinger, Ching Kwan Lee, Ronald Dore, Tom Gill, Carla Freeman, Max Gluckman, James Ferguson, Chitra Joshi, Lisa Rofel, Geert De Neve, Karl Marx, Rajnarayan Chandavarkar, Robert Roberts, June Nash, Christena Turner.

Jimmy Stewart’s all-American good looks, boyish charm, and deceptively easygoing

style of acting made him one of Hollywood’s greatest and most enduring stars. Despite the indelible image he projected of innocence and quiet self-assurance, Stewart’s life was more complex and sophisticated than most of the characters he played. With fresh insight and unprecedented access, bestselling biographer Marc Eliot finally tells the previously untold story of one of our greatest screen and real-life heroes. Born into a family of high military honor and economic success dominated by a powerful father, Stewart developed an interest in theater while attending Princeton University. Upon graduation, he roomed with the then-unknown Henry Fonda, and the two began a friendship that lasted a lifetime. While he harbored a secret unrequited love for Margaret Sullavan, Stewart was paired with many of Hollywood’s most famous, most beautiful, and most alluring leading ladies during his extended bachelorhood, among them Ginger Rogers, Olivia de Havilland, Loretta Young, and the notorious Marlene Dietrich. After becoming a star playing a hero in Frank Capra’s *Mr. Smith Goes to Washington* in 1939 and winning an

Academy Award the following year for his performance in George Cukor's *The Philadelphia Story*, Stewart was drafted into the Armed Forces and became a hero in real life. When he returned to Hollywood, he discovered that not only the town had changed, but so had he. Stewart's combat experiences left him emotionally scarred, and his deepening darkness perfectly positioned him for the '50s, in which he made his greatest films, for Anthony Mann (*Winchester '73* and *Bend of the River*) and, most spectacularly, Alfred Hitchcock, in his triple meditation on marriage, *Rear Window*, *The Man Who Knew Too Much*, and *Vertigo*, which many film critics regard as the best American movie ever made. While Stewart's career thrived, so did his personal life. A marriage in his forties, the adoption of his wife's two sons from a previous marriage, and the birth of his twin daughters laid the foundation for a happy life, until an unexpected tragedy had a shocking effect on his final years. Intimate and richly detailed, Jimmy Stewart is a fascinating portrait of a multifaceted and much-admired actor as well as an extraordinary slice of Hollywood

history. "Probably the best actor who's ever hit the screen." —Frank Capra "He taught me that it was possible to remain who you are and not be tainted by your environment. He was not an actor . . . he was the real thing." —Kim Novak "He was uniquely talented and a good friend." —Frank Sinatra "He was a shy, modest man who belonged to cinema nobility." —Jack Valenti "There is nobody like him today." —June Allyson "He was one of the nicest, most unassuming persons I have known in my life. His career speaks for itself." —Johnny Carson
