Wright Mills Award, given by the Society for the Study of Social Problems Latinx children navigating identity, citizenship, and belonging in a divided America An estimated sixty million people in the United States are of Latinx descent, with youth under the age of eighteen making up two-thirds of this swiftly growing demographic. In *Growing Up Latinx*, Jessica Siham Fernández explores the lives of Latinx youth as they grapple with their social and political identities from an early age, and pursue a sense of belonging in their schools and communities as they face an increasingly hostile political climate. Drawing on interviews with nine-to-twelve-year-olds, Fernández gives us rare insight into how Latinx youth understand their own citizenship and bravely forge opportunities to be seen, to be heard, and to belong. With a compassionate eye, she shows us how they strive to identify, and ultimately redefine, what it means to come of age—and fight for their rights—in a country that does not always recognize them. Fernández follows Latinx youth as they navigate family, school, community, and country ties, richly detailing their hopes and dreams as they begin to advocate for their right to be treated as citizens in full. *Growing Up Latinx* invites us to witness the inspiring power of young people as they develop and make heard their political voices, broadening our understanding of citizenship.

I am a fan of Coming of Age movies. Over the years, I've found there is a dearth of good reference books on the genre. So I've decided to write one, both to provide a readily available resource for fellow fans of this genre (who may be looking for guide to films they'd like to view) and, secondly, to preserve the many reviews I've written over the years on my blog: theskykid.com.This is primarily a book of reviews of films in the Coming of Age genre. But the book also contains several interviews with some of the most notable of Coming of Age filmmakers of our age. Their insights into the making of films is something I wanted to share with fans of the genre.

seventeen-year-old Lucy Adler is often the only girl on the public basketball courts. Lucy's inner life is a contradiction. She's by turns quixotic and cynical, insecure and self-possessed, and, despite herself, is in unrequited love with her best friend and pickup teammate, Percy, the rebellious son of a prominent New York family. As Lucy begins to question accepted notions of success, bristling against her own hunger for male approval, she is drawn into the world of a pair of provocative feminist artists living in what remains of New York's bohemia. Told with wit and pathos, *The Falconer* is at once a novel of ideas, a portrait of a time and place, and an ode to the obsessions of youth. In her critically acclaimed debut, Dana Czapnik captures the voice of an unforgettable modern literary heroine, a young woman in the first flush of freedom.

Growing up on the Aegean Coast, Ozge loved the sea and imagined a life of adventure while her parents and society demanded predictability. Her dad expected Ozge, like her sister, to become an engineer. She tried to hear her own voice over his and the religious and militaristic tensions of Turkey and the conflicts between secularism and fundamentalism. Could she be a scuba diver like Jacques Cousteau? A stage actress? Would it be possible to please everyone including herself? In her unpredictable and funny graphic memoir, Ozge recounts her story using inventive collages, weaving together images of the sea, politics, science, and friendship.

Is Gen Z resistant to growing up? A leading developmental psychologist and an expert in the college student experience debunk this stereotype and explain how we can better support young adults as they make the transition from adolescence to the rest of their lives. Experts and the general public are convinced that young people today are trapped in an extended adolescence—coddled, unaccountable, and more reluctant to take on adult responsibilities than previous generations. Nancy Hill and Alexis Redding argue that what is perceived as stalled development is in fact typical. Those reprimanding today's youth have forgotten that they once balked at the transition to adulthood themselves. From an abandoned archive of recordings of college students from half a century ago, Hill and Redding discovered that there is nothing new about feeling insecure, questioning identities, and struggling to find purpose. Like many of today's young adults, those of two generations ago also felt isolated and anxious that the path to success felt fearfully narrow. This earlier cohort, too, worried about whether they could make it on their own. Yet, among today's young adults, these developmentally appropriate struggles are seen as evidence of immaturity. If society adopts this jaundiced perspective, it will fail in its mission to prepare young adults for citizenship, family life, and work. Instead, Hill and Redding offer an alternative view of delaying adulthood and identify the benefits of taking additional time to construct a meaningful future. When adults set aside judgment, there is a lot they can do to ensure that young adults get the same developmental chances they had.

This book explores the ways in which a range of recent American novelists have handled the genre of the 'coming-of-age' novel, or the Bildungsroman. Novels of this genre characteristically dramatise the vicissitudes of growing up and the trials and tribulations of young adulthood, often presented through depictions of immediate family relationships and other social structures. This book considers a variety of different American cultures (in terms of race, class and gender) and a range of contemporary coming-of-age novels, so that aesthetic judgements about the fiction might be made in the context of the social history that fiction represents. A series of questions are asked:\* Does the coming-of-age moment in these novels coincide with an interpretation of the 'fall

of America?\* What kind of national commentary does it therefore facilitate?\* Is the Bildungsroman a quintessentially American genre?\* What can it usefully tell us about contemporary American culture? Although the focus is on the conte *Growing Up: It's a Girl Thing* Doubleday Canada

Following in the footsteps of the highly successful *Coming of Age in America* and *Coming of Age Around the World*, this new anthology of fiction and memoir explores coming of age in the new millennium. Chen, Junot Diaz, Louise Erdrich, Seth Kantner, and ZZ Packer explore the trials and tribulations of growing up in our increasingly fragmented world. "The greatest battle we will face is figuring out if God is real and if He is necessary in our lives." - Desiray Henderson There are many changes that take place from one's childhood to the point where they become an adult. These changes are challenging and unpredictable. Many young adults experience stressful years as they figure out the path for their life. Some wonder what they should do, and others who have made a decision still wonder how they will do it. As we get older, we encounter issues that force us to learn lessons that we wish we had known earlier. *The Coming of Age* provides advice, encouragement, and guidance to help readers as they embark on a journey through adulthood. It focuses on three key aspects that we must effectively know how to handle as we grow in our lives. These include our encounters with God, people, and the responsibility in our lives. This book also includes fourteen letters of encouragement to strengthen every heart as we grow in grace.

A wry and witty meditation on modernity's obsession with youth and its denigration of maturity In *Why Grow Up?* the philosopher Susan Neiman asks not just why one should grow up but how. In making her case she draws chiefly from the thought of Kant and Rousseau, who articulated very different theories on the proper way to "come of age." But these thinkers complement each other in seeking a "path between mindlessly accepting everything you're told and mindlessly rejecting it," and in learning to live without despair in a world marked by painful realities and uncertainties. Neiman challenges both those who dogmatically privilege innocence and those who see youth as weakness. Her chief opponents are those who equate maturity with cynicism. "In our day it is more common to meet people who are stuck in the mire of adolescence. The world turns out not to reflect the idea and ideals they had for it? So much the worse for ideals." To move beyond these

immature positions, Neiman writes, is not simply to lapse into quiet resignation but to learn to take joy and satisfaction in what can be done and known, and to face rather than feel defeated by our inevitable limits.

Gary Ashbaugh - I just finished reading your book. Boy, did that ever turn the clock back. I think that described life in those small towns to a tee. Congratulations on getting it published. TOWN and TIME ... My cycle of life began January 12, 1945, seven months before the end of WWII, in Emlenton, Pennsylvania, a borough of some 800 souls, where generations of my father's family had lived and died. Emlenton, which lies partially isolated in the hills of northwestern Pennsylvania, offered few outside distractions, so we relied heavily on our imaginations and the natural resources that surrounded us. The swimming holes along Richey Run Creek, the Indian cave below the town cemetery, and long hikes along the railroad tracks that followed alongside the majestic Allegheny River offered plenty of adventure and diversion. Our lives revolved around paper routes, baseball,

pin ball machines, hotdogs, French fries, 5&10 stores, dances, and dating. The freezing cold winters involved basketball, deer hunting and fur trapping. A youthful fertile mind, interested in science, led to rocketry, homemade motors, crystal radios, moonshine, and motor scooters that provided a lifetime of memories. The stories shared are sometimes funny, poignant, and often laced with mischief. Emlenton seemed to be magical, and those times now seem idyllic. This is where I grew up, and this book is about the time, the place, the people, and the events that formed my coming of age in the 1950s.
