Hand block-printed on textile, this limited-edition artists' book consists of a sequence of folding panels, designed to invoke pre-modern - particularly Asian - traditions of bookmaking. At the same time, the panels recall and recreate a Mata-Ni-Pachedi - the ritual 'Cloth of the Mother Goddess' - and tell the story of its origins. The textile book is accompanied by a film on the artist and his art tradition. The tactility of the book, invoking the labour and craft that have gone into its creation, is offset by the digital documentary which brings in context and history; together, the juxtaposition of the two approaches

expands the frontiers of the book form, while deepening the viewer's enjoyment and understanding of the art tradition. The images featured in the book have been painted by Jagdish Chitara, who belongs to the Waghari community of artisans from Gujarat in western India. Poor and marginalised, they paint and block-print votive textiles for other so-called outcaste communities, equally disenfranchised in the Hindu caste hierarchy. Worshippers who are barred from entering temples offer a painted image of their particular guardian goddess to herself, in the form of a textile shrine. This poignant tradition, deemed low, in fact, expresses a sublime conception of the power of art: gifting a piece of creation to the creator is considered the highest form of worship.

This is a notion of transcendence that appears to stretch across cultures and times.

THIS BOOK is a story of a girl who

happens to be one of those chosen hybrid gods and goddesses who were given help by the warriors, followers, and successors of Mother God, the Earth's protector. And she mentored by the escort and keeper of the lost souls and even the black shadow. She doesn't have the idea that she will help save our Planet, for she's just a mere kid. Kids at her age should enjoy their childhood and discover their youth's essence. Yet, Anna becomes aware of what's happening, and she finds the reality of today's modern world. She accepted that her life would never be as every day as other kids' lives. Anna embraced that this is her destiny. She destines to fight for the Planet's safety and gives importance to the only human life resource, conquering her fears by accepting her gift. Anna's

fate and is undergoing series of training given to her without her knowledge. She's not expecting that she can transcend beyond the living and the dead. As a human being, her wisdom is not that rich, which is why she's being taught and informed; thus, she should spread the news that humanity slowly destroys the Earth. Humanmade catastrophes have been occurring. People from different nations are fighting against one another. They're doing their hideous dominance to have the power and money they have always wanted. They create dangerous chemicals that are toxic and polluting the air, the water, and the land. They tended to do whatever they sought to for their benefit. They become greedy, selfish, and monstrous. She's giving the

Prophecy from gods and goddesses on Earth about our Planet's future if the people's ways won't change; problems have been occurring. The surroundings start deteriorating. And if they fail, we will all vanish. Earthians conclude, and we'll be going to nothing from where we started. This book contains facts, and some of the events in this book happened, and any resemblance to other stories and people living or dead is purely coincidental. This book is non-fiction based on the author's facts search and experiences.

How I Discovered My Mother Was a Goddess Vakils Feffer & Simons Limited  
 Jailbreaking the Goddess is a revolutionary revisioning of the feminine divine. Where the maiden, mother, crone archetypal system is tied to female

biology and physical stages of life, the fivefold model liberates the female experience from the shackles of the reproductive model. In a woman's lifetime, she will go through several different cycles of beginnings, potential, creation, mastery, and wisdom. This fivefold model is not an adaption of the threefold. It is a new system that embraces the powerful, fluid nature of the lived experience of women today. Join Lasara Firefox Allen as she explores the nature of the five archetypes; gives examples of what areas of life each might preside over; lists goddesses that fit within each archetype; suggests ways to begin building relationship with the different archetypes; and provides simple rituals for recognition, transition, and invocation. Praise: "Jailbreaking the

Goddess is an important contribution to the writings on Goddess tradition and feminist spirituality...I love her political savvy, her sensitivity around issues of diversity and cultural awareness and appropriation, and her unabashed celebration of pleasure, sensuality, and life!"—Starhawk "This fiercely inspired body of work is art, theory, and passion. Genius."—Rosa De Anda, from her foreword "Lasara Firefox Allen delves deep into the ways in which colonialist language has shaped our experience of the divine feminine...This is an innovative work that has the potential to change the face of modern feminist spirituality."—Suzanne Sterling, founder of Voice of Change

Bringing a feminist perspective to contemporary findings of geneticists and archeologists, Lucia Chiavola Birnbaum, cultural historian, points out that the oldest veneration we know is of a dark mother of central and south Africa, whose signs-ochre red and the pubic V-

were taken by african migrants after 50,000 BCE to caves and cliffs of all continents. The oldest sanctuary in the world was created in 40,000 BCE by african migrants in Har Karkom, later called Mt. Sinai, foundation place of judaism, christianity, and islam. Lucia documents the continuing memory of the dark mother and her values in prehistoric images of the dark mother, in historic black madonnas and in other dark women divinities whose sanctuaries are on african paths. She tracks the memory in rituals and stories of her sicilian grandmothers, in persecution of dark others in patriarchal Europe and the United States, in the rise of nonviolent dark others since the 1960s, in the banners of the 1995 world conference of women at Beijing, and in art. She finds

the dark mother's values-justice with compassion, equality, and transformation-in everyday and celebratory rituals of the world's subaltern cultures-and suggests that the image and values are in the submerged memories of everyone.

The Cult of the Mother Goddess

AuthorHouse

The first exhaustive collection of goddess mythologies from India.

- Explores the evolution of goddess worship in India over 4,000 years.

- Stunning color photographs illustrate many stories of goddess lore never before available in one collection.

In India it is said that there is a goddess in every village, a nymph in every lake.

Demonesses stand guard on village frontiers, ogresses howl on crossroads,

and untamed forests resound with the laughter of celestial virgins. It is a land of mysterious Apsaras and seductive Yakshinis, of terrifying Dakinis and wise Yoginis--each with a story to tell. In this wide-reaching exploration of ancient Hindu lore and legends, author Devdutt Pattanaik discovers how earth, women and goddesses have been perceived over 4,000 years. Some of the tales recounted are revered classics, others are common and folklorish, often held in disdain by priests. Until now, most have remained hidden, isolated in distant hamlets or languishing in forgotten libraries, overwhelmed by the din of masculine sagas. As the tales come to light through word and stunning color imagery, the author identifies the five faces given to the eternal feminine as

man sought to unlock the mysteries of life: the female half of existence is at first identified with Nature, gradually deified and eventually objectified. She comes to be seen as the primal mother, fountainhead of life and nurturance. The all-giving mother then transforms into the dancing nymph, a seductress offering worldly pleasures that bind man in the cycle of life. As this nymph is domesticated, the dominant image of woman becomes the chaste wife with miraculous powers. Finally the submissive consort redefines herself as the wild and terrifying goddess who does battle, drinks blood, and demands appeasement. Exploring mysteries of gender and biology, and shedding light on the roots of taboos and traditions practiced in India today, the author

shows how the image of the Mother Goddess can be both worshipped and feared when she carries the face of mortal woman.

For as long as we have sought god, we have found the goddess. Ruling over the imaginations of humankind's earliest agricultural civilizations, she played a critical spiritual role as a keeper of nature's fertile powers and an assurance of the next sustaining harvest. In *The Goddess*, David Leeming and Christopher Fee take us all the way back into prehistory, tracing the goddess across vast spans of time to tell the epic story of the transformation of belief and what it says about who we are. Leeming and Fee use the goddess to gaze into the

lives and souls of the people who worshipped her. They chart the development of traditional Western gender roles through an understanding of the transformation of concepts of the Goddess from her earliest roots in India and Iran to her more familiar faces in Ireland and Iceland. They examine the subordination of the goddess to the god as human civilizations became mobile and began to look upon masculine deities for assurances of survival in movement and battle. And they show how, despite this history, the goddess has remained alive in our spiritual imaginations, in figures such as the Christian Virgin Mother and, in contemporary times, the new-age resurrection of figures such as Gaia. *The Goddess* explores this central aspect of

ancient spiritual thought as a window into human history and the deepest roots of our beliefs.

Rudolf Steiner's intuitive artistic knowledge enabled him to use colours in a unique way, giving expression to their individual natures. Together with his many lectures on art, Steiner's paintings provide artists with fresh ways of understanding colour, allowing for an entirely new creativity and aesthetics. In 1924, Steiner painted a watercolour of the Madonna and Child, giving it the title 'New Life'. Through Steiner's depiction of Mary, mother of the Divine Child, this painting draws us to the feminine expression of spirituality. In this highly-illustrated, full-colour book Angela Lord

studies this feminine principle, beginning with the very earliest stages of human evolution – the 'Fall' from paradise and the pre-historic periods of Lemuria and Atlantis. From the Mysteries of Egypt and Greece to the development of Christian art, she offers insights to the myths and legends of female deities and goddesses. According to Rudolf Steiner, at the time of Jesus's birth humanity had entered a decadent phase of development. Small groups of initiated individuals, however, were preparing for a sacred birth: the descent of a heavenly being into earthly existence. The God of the Old Testament would be revealed 'in flesh', born to a virgin mother. In the second part of New Life – Mother and Child, Angela Lord takes us on a journey through two thousand years of Christian

art, covering Iconography, the Middle Ages and the Renaissance. We see how artistic images of Mary and her Child have changed, why these variations have occurred and how they reflect the changing consciousness of humanity. Finally, the 'New Life' painting is considered from the interactive processes of colour and composition, illustrated with a series of artistic colour sequences.

Sylvia Browne, in her own inimitable style, again defies convention in this uniquely informative compilation of diligently researched facts and personal accounts about the premise of a female divinity - namely, the Mother God (also

known as the feminine principle). Spanning time, from the earliest beginnings of humankind when "Goddess worship" was at its peak, to the current era with its myriad beliefs and religions, Sylvia takes us on a journey of discovery, where she discusses the suppression of the "Mother Goddess" by the male-dominated politics of modern-day religious dogma. Using a combination of historical data and poignant and heartwarming stories that reveal the power and miracles attributed to the Mother God, Sylvia leads us from the question of "Does She exist?" to the logical, fact-based conclusion that She does ... and then shows us how to call on Her to help us in our everyday lives.
