A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions.

Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his

own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

Yes, Chicagoland is an odd place. But the word is out that Megan, Raf, and Raf's talking dog Bradley are the team to go to when weirder things than usual start happening.

Their Chicagoland Detective Agency takes danger in hand (and paw) to find a mysteriously

missing puppy and an even more mysterious pack of dogs that only shows up once a month. Bradley's nose knows from the start that this is more than a simple case of stray pets . . . and a whole lot more than a stray case of full-moon transmogrification! Will high tech and haikus be enough to save them from the world's worst case of doggy breath?

Ex-policeman Colin

Butcher had just set up

his own pet detective

agency. It was running

smoothly but he realized he needed a partner. And that's when inspiration struck . . . Enter Molly, an unloved and unwanted cocker spaniel rescued from a classifieds website. Clever and charismatic, she melts Colin's heart, the two are soon inseparable. With Colin by her side, Molly cracks cases and solve crimes across the country, using her exceptional sense of smell to locate missing pets and reunite them with their grateful owners. From the search for Pablo the ginger tom who's kidnapped from a sleepy Devonian village, to unearthing a treasure trove of stolen jewels in a north London wood, Colin and Molly's work takes them around the country, with plenty of new friends and eccentric encounters along the way. By turns charming, moving, and thrilling, Molly and Me is the story of a rescue cocker spaniel with a troubled past who - thanks to the love and devotion of her owner - finds a new life, a new purpose and a forever friend.

Language is always changing. No one knows where it is going but the best way to future-cast is to look at the past. John Simpson animates for us a tradition of researching and editing, showing us both the technical lexicography needed to understand a word, and the careful poetry needed to construct its definition. He challenges both the idea that dictionaries are definitive, and the notion that language is falling apart. With a sense of humour, an ability to laugh at bureaucracy and an inclination to question the status quo, John Simpson gives life to the colourful characters at the OED and to the English language itself. He splices his stories with entertaining and erudite diversions into the history and origin of words such as 'kangaroo', 'hot-dog' , 'pommie', 'bicycle' , not ignoring those swearwords often classed as 'Anglo-Saxon' ! The book will speak to anyone who uses a dictionary, 'word people' , history

lovers, students and parents.

Spring is coming slowly to Sweden - though not quite as slowly as Detective Ulf Varg's promised promotion at the Department of Sensitive

Crimes. For Varg, referred by his psychoanalyst to group therapy at Malmö's Wholeness Centre, life now seems mostly a circle of self-examination, something which may or may not be useful when it comes to the nature of his profession and the particularly sensitive cases that have recently come to light. All in a day's work for Detective Varg, except that one of his new investigations involves fellow detective Anna; it will require every ounce of self-discipline he has in order to remain professional. The other, more curious case is centred around internationally successful novelist Nils Personn-Cederström. According to his girlfriend, Cederström is being blackmailed - but by whom and for what reason? Accompanied by his irritating but kindly colleague Blomquist, Varg begins his enquiries and soon the answers fall neatly into place. Nothing and no one is ever that simple, however, and not for the first time he learns as much about his own emotional and moral landscape as he does about the motives of others. Now Varg must make a possibly life-changing decision. Will he choose his own happiness

over that of his heart's desire?

Dog Den Mystery Hodder Children's Books

I could smell him - or rather the booze on his breath - before he even opened the door, but my sense of smell is pretty good, probably better than yours. So begins this fabulous, funny new detective novel featuring Bernie, a slightly down-at-heel PI; and his off sider, Chet, a dog - and the captivating narrator of the story. Chet may have flunked out of police school (I'd been the best leaper in K-9 class, which had led to all the trouble in a way I couldn't remember exactly, although blood was involved), but he's just as much a detective as Bernie - superior, sometimes, in his insight into human foibles. In *Dog On It*, their first adventure, Chet and Bernie investigate the disappearance of a teenage girl who may or may not have been kidnapped, but who's definitely gotten herself mixed up with some very unsavoury characters.
