Over the years auditing has developed into a specialised function with complex ethical, legal and economic implications. The role of auditors in providing credibility is even more important in a society like Hong Kong, which relies heavily on its reputation as an international financial and business centre. The financial crises and accounting scandals reported in recent years, which led to economic meltdowns and massive loss in capital resources across the globe, highlights the vital role of auditors as gatekeepers and the importance of high quality auditing in ensuring corporate transparency and honest financial reporting. The third edition is thoroughly revised to take into account the new Companies Ordinance (Chapter 622, effective 2014) and Hong Kong Standards on Quality Control, Auditing, Assurance and Related Services (updated June 2014), and numerous developments of a full range of auditing topics since the previous edition, including: Auditors legal duties and liabilities Auditor quality Auditors ethical behaviour Corporate governance Statistical sampling Pitfalls in computerisation of accounting services Use of computer-assisted-audit-techniques (CAATs) Audit reporting Auditing standards

Along with recent development of the profession and cutting-edge research findings, this book boldly draws on economic theories to explain aspects of auditing. Certain economic concepts that are applicable to all aspects of an audit are addressed for students and practitioners alike. By utilising graphics, tables and intriguing cases, this book will serve as a useful companion for accounting and legal practitioners. This is also a textbook for students preparing for university studies, practical training and professional accounting examinations. At the end of each chapter, there are dozens of exercises, cases and discussion questions for the benefits of teachers, students and life-long learners. This book is not about selling products -- it is about selling yourself, your ideas, and your services. This book explains an innovative dialogue sales process, and the relationship sales principles that underpin it. In every sales situation, there is both a seller and a buyer and, at different times, either the buyer or the

seller may take the lead. The dance they perform may or may not lead to a deal, but it will leave them knowing a little more about each other's strengths and weaknesses. These two dancers are "connected" and follow the same steps -- The five steps they follow are to plan, connect, dialogue, record, and follow up. The five steps are the basis of the dialogue process. In addition, this book provides easy-to-follow guidance for three groups of people: 1. Professionals wanting to sell their services and improve their business development; 2. Thought leaders, change agents, innovators, entrepreneurs, senior public servants, and advocates wanting to sell their ideas to others; 3. Mid-career job seekers and recent graduates aiming to sell themselves into a dream job role either full or part-time.

"The purpose of this chapter is to provide an overview of assurance, attestation, and audit services. While the focus of this text is the audit of financial statements, in this chapter we define assurance and attest engagements, and differentiate among the types of assurance engagements. We also discuss why there is a demand for audit and assurance services, and then identify the separate roles of the financial statement preparer and the auditors. In addition, we introduce regulatory bodies and other organizations that impact the audit profession. We also explain what is communicated in the auditor's report as well as discuss the audit expectation gap"--
