witty stories that will strike a chord with every woman. This six book series is among the best reviewed humor books published today and has been compared to the late greats, Erma Bombeck and Nora Ephron. Delia Ephron said of the fifth book in the series, *Have a Nice Guilt Trip*, "Lisa and Francesca, mother and daughter, bring you the laughter of their lives once again and better

than ever. You will identify with these tales of guilt and fall in love with them and fierce (grand) Mother Mary." This seventh volume will not disappoint as it hits the humorous and poignant note that fans have come to expect from the beloved mother-daughter duo. *Ender's Game* Tor Books When all seems lost, where can you find hope? Katherine and Jay Wolf married right after college and sought adventure far

from home in Los Angeles, CA. As they pursued their dreams--she as a model and he as a lawyer--they planted their lives in the city and their church community. Their son, James, came along unexpectedly in the fall of 2007, and just six months later, everything changed in a moment for this young family. On April 21, 2008, as James slept in the other room, Katherine collapsed,

suffering a massive brain stem stroke without warning. Miraculously, Jay came home in time and called for help. Katherine was immediately rushed into brain surgery, though her chance of survival was slim. As the sun rose the next morning, the surgeon proclaimed that Katherine had survived the removal of part of her brain, though her future recovery was uncertain. Yet in that moment,

there was a spark of hope. Through forty days on life support in the ICU and nearly two years in full-time brain rehab, that small spark of hope was fanned into flame. Hope Heals documents Katherine and Jay's journey as they struggled to regain Katherine's quality of life and as she relearned to talk, eat, and walk. As Katherine returned home with a severely disabled body but a

completely renewed purpose, she and Jay committed to celebrating this gift of a second chance by embracing life fully, even though that life looked very different than they could have ever imagined. As you uncover Katherine and Jay's remarkable story, you'll be encouraged to: Find lasting hope in the midst of struggle Embrace the unexpected Welcome God's miracles

From the bestselling author of the Ender Universe novels comes Orson Scott Card's Treason Lanik Mueller's birthright as heir to planet Treason's most powerful rulership will never be realized. He is a "rad"-- radical regenerative. A freak among people who can regenerate injured flesh... and trade extra body parts to the Offworld oppressors for iron. For, on a planet without

hard metals-- or the means of escape-- iron is power in the race to build a spacecraft. Iron is the promise of freedom, which may never be fulfilled as Lanik uncovers a treacherous conspiracy beyond his imagination. Now charged with a mission of conquest-- and exile-- Lanik devises a bold and dangerous plan... a quest that may finally break the vicious chain of rivalry and

bloodshed that enslaves the people of Treason as the Offworld never could. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The time dilation granted by the speed of their travel gives Earth's scientists generations to seek a cure, to no avail. In time, they are forgotten--a fading ansible signal speaking of events lost to Earth's history. But the Delphikis

Aboard it, they will find both death and wonders--the life support that is failing on their own ship, room to grow, and labs in which to explore their own genetic anomaly and the mysterious disease that

The Last Shadow

Macmillan
Orson Scott Card's *The Lost Gate* is the first book in the *Mithermages* series from the New York Times bestselling author of *Ender's Game*. Danny North knew from early childhood that his family was different, and that he was different from

them. While his cousins were learning how to create the things that commoners called fairies, ghosts, golems, trolls, werewolves, and other such miracles that were the heritage of the North family, Danny worried that he would never show a talent, never form an outself. He grew up in the rambling old house, filled with dozens of cousins, and aunts and uncles, all ruled by his father. Their home was isolated in the

mountains of western Virginia, far from town, far from schools, far from other people. There are many secrets in the House, and many rules that Danny must follow. There is a secret library with only a few dozen books, and none of them in English — but Danny and his cousins are expected to become fluent in the language of the books. While Danny's cousins are free to create magic whenever

they like, they must never do it where outsiders might see. Unfortunately, there are some secrets kept from Danny as well. And that will lead to disaster for the North family. The Mithermages series The Lost Gate The Gate Thief Gatefather **Shadow of the Hegemon** Penguin The war for survival of the planet Lusitania will be fought in the heart of a child named Gloriously

Bright. On Lusitania, Ender found a world where humans and pequininos and the Hive Queen could all live together; where three very different intelligent species could find common ground at last. Or so he thought. Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the pequininos require in order to become adults. The Starways Congress so	fears the effects of the descolada, should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all who live there. The Fleet is on its way, a second xenocide seems inevitable. Xenocide is the third novel in Orson Scott Card's The Ender Saga. Ender Wiggin was 12 years old when he destroyed an alien race. Burdened with guilt, he wrote Speaker for the Dead and created a pseudo-religion that spanned the known worlds. species with a seemingly gruesome nature. Can he uncover the truth before another species and more human lives are lost? The battle school is no more. But with the external threat gone, the Earth has become a battlefield once more. The children of the Battle School are more than heroes; they are potential weapons that can bring	power to the countries that control them. One by one, all of Ender's Dragon Army are kidnapped.
