This Book Attempts To Assess The Functional Domain And Financial Health Of	This handbook examines 25 years of decentralised governance and development in India. It provides a historical overview of developments since the introduction of decentralisation	

devolution of powers in India, administrative and fiscal decentralisation, decentralised planning, Panchayats in scheduled areas, the sociological aspects of decentralisation, caste, gender and local democracy, capacity building, ICT for local governance, urban local governance, workfare and decentralisation, and decentralised natural resource management.	It also looks at Panchayati Raj institutions from a Gandhian perspective. The first of its kind, this handbook will be an essential read for scholars and researchers of decentralisation and development, development studies, fiscal decentralisation, political studies, political sociology, Indian politics, Indian government, public policy and governance, political economy,	South Asian studies, and South Asian politics. <u>Karnataka State Gazetteer: Bangalore District</u> Disha Publications This book presents an innovative democratic framework that ensures public participation, based on applying principles of good governance to facilitate urban transport decision-making in an integrated and structured manner. While - given the

need for mobility in cities – transport is crucial for urban development, problems such as the fragmentation of institutions, decision-making, and unequal knowledge concentrations represent major hurdles to effective governance outcomes (especially those that go beyond technical and regulatory aspects). Substantial investments continue to be pumped into the urban

transportation sector, with cities lacking the necessary capacities or governance mechanisms to ensure optimal returns on these investments. The book introduces the transport governance framework, which is intended to provide an integrated and structured approach to facilitate decision-making processes in the urban transport sector, focusing on how decisions

are made rather than what decisions are made. It also discusses the initial testing of the framework in several cities across India. In addition, it examines the application of the TAPC (transparency, accountability, participation, and capacity building) principles of good governance to key aspects of urban transport – policy, planning, standards, budgets, execution, and regulation.

This is a comprehensive work on India's fiscal federalism. The book surveys and analyses the evolution of fiscal federalism

from the angle of political economy and brings to bear analytical skills of a very high order to assess and relate the political and administrative dimensions of India's federal system to fiscal federal issues. The authors present a synthesized framework, combining both economic and political elements in a political economy prism such as the Cente-State relations with not only the political

perspectives but also the economic ones with the belief that only such a framework can provide a useful guide to implementabl e reform of policies. <i>Sales Tax Cases S.
