If you want to grasp the full length and breadth of the rapidly developing computer telephony field, this book is the place to start. Author Richard Grigonis thoroughly explains even the most abstruse ideas in a concise manner that is aimed at all kinds of readers -- students, business executives, telecom managers, call center supervisors or entrepreneurial developers. Each encyclopedia entry is both an adroit explanation of computer telephony technology and a buyer's guide-like discussion of real-world products based upon technology currently available for business and residential communications solutions. ;

It's time to drop the rose-colored glasses and face the facts: most new businesses fail, with often devastating consequences for the would-be entrepreneur. The New York Times, Wall Street Journal, and USA TODAY bestseller *The Entrepreneur Equation* helps you do the math before you set down the entrepreneurial path so that you can answer more than just "Could I be an entrepreneur?" but rather "Should I be an entrepreneur?". By understanding what it takes to build a valuable business as well as how to assess the risks and rewards of business ownership based on your personal circumstances, you can learn how to stack the odds of success in your favor and ultimately decide if business ownership is the best possible path for you, now or ever. Through illustrative examples and personalized exercises, tell-it-like-it-is Carol Roth helps you create and evaluate your own personal *Entrepreneur Equation* as you:

- Learn what it takes to be a successful entrepreneur in today's competitive environment.
- Save money, time and effort by avoiding business ownership when the time isn't right for you.
- Identify and evaluate the risks and rewards of a new business based on your goals and circumstances.
- Evaluate whether your dreams are best served by a hobby, job or business.
- Gain the tools that you need to maximize your business success.

The Entrepreneur Equation is essential reading for the aspiring entrepreneur. Before you invest your life savings, invest in this book!

Does Bill Gates's retirement consign Microsoft to the corporate retirement home as well? Mary Jo Foley doesn't think so. Her 25 years of Microsoft-watching provides a unique vantage point from which to speculate on how Microsoft might write its next chapter. Identifying signposts and interpreting clues she knows well, Foley offers a thought-provoking view of the software giant's post-Gates future. Don't be surprised to be surprised.

Winning business strategies from CEOs of 50 successful small businesses (some of which are now large corporations) who share their experiences to help those starting or growing their own business Small business is the engine that drives America's new economy. In *The Engine of America*, former administrator of the Small Business Administration (SBA), Hector Barreto and veteran journalist Bob Wagman reveal the winning business strategies of CEOs from 50 companies. For all those starting or growing their own small business, the wisdom, experience, and counsel of these successful leaders provides inspirational and thoughtful advice on making it as an entrepreneur. In this book, Barreto shares details of business success, and the insights he gained while administering the nation's largest small business loan, training, and counseling organization. Some of those sharing their stories in *The Engine of America* have grown their businesses from the most humble of beginnings into corporate giants whose brands are household names and whose operations are integral parts of the national economy. Others may not be instantly recognizable, but what they have in common is success. Hector Barreto believes if you can teach a small business owner something he or she doesn't know, but which is critical to the growth of their small business or which allows them to avoid a critical mistake, you have helped put them on the road to success. That's what *The Engine of America* will do. Hector V. Barreto (Los Angeles, CA) is the former five-year administrator of the U.S. Small Business Administration where he directed a \$60 billion support system for American entrepreneurs. He has lived and worked in all regions of the country, and is currently the Chairman of the Latino Coalition and a frequent speaker on small business topics. Robert Wagman (Washington, DC) is the former Capitol bureau chief for Scripps Howard's Newspaper Enterprise Association. He is also a former field producer for 60 Minutes, editor of the *World Almanac* on Politics, and author of many business and political nonfiction books.

Plunkett's InfoTech Industry Almanac presents a complete analysis of the technology business, including the convergence of hardware, software, entertainment and telecommunications. This market research tool includes our analysis of the major trends affecting the industry, from the rebound of the global PC and server market, to consumer and enterprise software, to super

computers, open systems such as Linux, web services and network equipment. In addition, we provide major statistical tables covering the industry, from computer sector revenues to broadband subscribers to semiconductor industry production. No other source provides this book's easy-to-understand comparisons of growth, expenditures, technologies, imports/exports, corporations, research and other vital subjects. The corporate profile section provides in-depth, one-page profiles on each of the top 500 InfoTech companies. We have used our massive databases to provide you with unique, objective analysis of the largest and most exciting companies in: Computer Hardware, Computer Software, Internet Services, E-Commerce, Networking, Semiconductors, Memory, Storage, Information Management and Data Processing. We've been working harder than ever to gather data on all the latest trends in information technology. Our research effort includes an exhaustive study of new technologies and discussions with experts at dozens of innovative tech companies. Purchasers of the printed book or PDF version may receive a free CD-ROM database of the corporate profiles, enabling export of vital corporate data for mail merge and other uses.
