KALEB LOPEZ

CSIR-UGC NET/JRF Exam. Solved Papers Mathematical Sciences
Ramesh Publishing House

The idea of the book entitled "Objective Life Science: MCQs for Life Science Examination" was born because of the lack of any comprehensive book covering all the aspects of various entry level life science competitive examinations in particular conducted by CSIR, DBT, ICAR, ICMR, ASRB, IARI, State and National Eligibility Test, but not limited to. This book, covers all the subjects of life science under 13 section namely, 1. Molecules and their interaction relevant to biology; 2. Cellular organization; 3. Fundamental processes; 4. Cell communication and cell signaling; 5. Developmental biology; 6. System physiology - Plant; 7. System physiology - Animal; 8. Inheritance biology; 9. Diversity of life forms; 10. Ecological principles; 11. Evolution and behavior; 12. Applied biology and 13. Methods in biology. Each Section has been further divided into two parts with 200 short tricky questions and 100 applied conceptual questions. Besides this, it also consist of ten full-length model practice test paper, each of 145 questions based on recent syllabus and examination pattern of CISR-UGC National Eligibility Test for Junior research fellowship and lecturership. Additional previous years solved question papers of the CSIR-UGC NET are also included to get acquainted with India's most competitive entry level exam. The ultimate purpose of this book is to equip the reader with brainstorming challenges and solution for life science and applied aspect examinations. It contains predigested information on all the academic subject of life science for good understanding, assimilation, self-evaluation, and reproducibility.

Physical Sciences Practice Test Papers (Solved) YOUTH COMPETITION TIMES

This edition of "A+ on Aptitude" is made up from a collection of very interesting and challenging aptitude questions with their detailed solutions, which are very important for the aspirants aiming to crack the National Eligibility Test (CSIR-UGC, ICMR etc) for lecturership and research fellowships. The questions are based on what came in previously in the NET exams itself, and from other high-level aptitude exams where abstraction is important. Rote memorization and just practice is inadequate for success in research aptitude. In this book, uncover the secrets to having a grasp of higher-order abstraction and breaking down of a big problem into smaller chunks, and the final maceration so that the problem does not remain. It is a book which shows how successful aspirants think while solving their aptitude questions, while keeping in mind the advantages of questions with options and disadvantages of timed tests. Solving is easy, but what is keeping yourself from an 'A+'? All the best! The author has qualified the exam at the first year of his Graduate studies with both Lecturership and JRF, and is also a software developer in numerous computing platforms.
