DAUGHERTY LAYLAH

English in Mind Level 2 Student's Book with DVD-ROM Multilingual Matters

Offers a detailed study of the anatomical structure of the human body, and provides tips on motion, proportion, and shading the figures.

Cruise Open Road Media

"Starting with the origins of writing five thousand years ago, with cuneiform and Egyptian hieroglyphs, Andrew Robinson explains how these early forms of writing developed into hundreds of scripts including the Roman alphabet and the Chinese characters. He reveals how the modern writing system we take for granted - including airport signage and electronic text messaging - resemble ancient scripts much more closely than we think." --Book Jacket.

Art of Drawing the Human Body Ubiquity Press

Untangling the various approaches to language teaching and their history, Gerdi Quist maps recent thinking in language studies at university. Using an interdisciplinary theoretical framework, drawn from educational philosophy, cultural studies, intercultural studies and language pedagogy, the author discusses the many tensions and currents in contemporary language teaching. The author puts forward an alternative pedagogy, that of a cultuurtekstperspective, which engages learners at complex linguistic and cultural levels. In discussing the case study in which this approach is tested, the author develops her argument for embracing various critical perspectives through the personal engagement of students. From the start the author acknowledges her own engaged position as a language teacher in a liberal humanistic educational environment. She adopts a self-critical perspective through which her engagement with adverse student reaction leads to deepening insights both for the author and her students as part of the non-linear process of learning. 'This book should be obligatory reading for all new lecturers in foreign languages at university. It is extremely thought-provoking and will help them make sense of the world in which they find themselves.' Jane Fenoulhet (Professor in Dutch Studies and co-editor of *Mobility and Localisation in Language Learning*)

A Communicative Russian Beginners Course for Adults and Teenagers Walter de Gruyter

Despite the spread of multilingualism, the number of research studies in multilingual contexts is scarce. This book deals with this question by examining would-be teachers' language use and attitudes, as their influence on future generations can be enormous. The use of the same questionnaire and the same methodology allows the reader to compare the results obtained in different European bilingual contexts, where the presence of diverse foreign languages leads to a situation in which several languages are in contact.

Dutch Short Stories for Beginners Multilingual Matters

A Frequency Dictionary of Dutch is a valuable tool for all learners of Dutch, providing a list of the 5,000 most frequently used words in the language. Based on a 290 million word corpus which includes both written and spoken material from a wide range of sources, this dictionary presents Dutch core vocabulary in a detailed and clearly arranged manner: each of the 5,000 entries includes English equivalents and a sample sentence showing language in use. Users can access the top 5,000 words either through the main frequency listings or an alphabetical index. Throughout the frequency listings there are thematically organized lists featuring the top words from a variety of key topics such as animals, food and other areas of daily and cultural life. Words specific to Dutch in Belgium (Belgian Dutch) are also included. An engaging and efficient resource, A Frequency Dictionary of Dutch will enable students of all levels to get the most out of their study. This book was prepared in association with the Instituut voor Nederlandse Lexicologie (INL, Institute of Dutch Lexicology). A CD version is available to purchase separately. Designed for use by corpus and computational linguists, it provides the full text in a format that researchers can process and turn into suitable lists for their own research purposes.

Multilingualism in European Bilingual Contexts Van Dale

Dit e-book is een ePub3-bestand, dus geschikt voor tablets en de meeste e-readers met een kleurenscherm (niet geschikt voor zwart-wit e-readers). Controleer of uw apparaat dit bestandsformaat kan weergeven. De Nederlandse Grammatica, helder uitgelegd voor Engelstaligen De Van Dale Grammatica's zijn door taaldocenten ontzettend goed ontvangen vanwege het glasheldere overzicht, de vernieuwende didactische indeling op ERK-niveau en de compleetheid. Deze Van Dale Dutch Grammar is volgens hetzelfde principe gemaakt, maar nu is als steuntaal Engels gebruikt. Daarmee wordt de Nederlandse grammatica nog toegankelijker. "De opbouw van jullie grammatica is echt heel helder en overzichtelijk. Een Engelse versie zal heel handig zijn!" - docente Nederlands voor expats Grip op grammatica - Presentatie in duidelijke tabellen - Indeling in niveaus op basis van het Europees Referentiekader (ERK) - Duidelijke opbouw van het basisniveau A1 tot niveau B2 - Elk niveau een eigen kleur voor optimale herkenning - Heldere voorbeeldzinnen die passen bij het ERK-niveau

Van Haren

Highly focused preparation for the revised 2015 Cambridge English: First (FCE) course in 50-60 core hours. This Student's Book without answers provides B2-level students with thorough preparation and practice needed for exam success. Ten units cover all four exam papers in a step-by-step approach. 'Quick steps' and Writing, Speaking and Listening guides explain what to expect in the exam, and provide strategies on approaching each paper, model answers, useful expressions and further practice. The CD-ROM provides interactive grammar, vocabulary and writing practice. Two complete practice tests are available online for teachers to access. Recordings for the Listening exercises are found on the Class Audio CDs or in the Student's Book Pack, available separately.

Konfrontační popis kultivované výslovnosti nizozemštiny a češtiny z pohledu českého mluvčího Boyds Mills Press

Papers explore new developments in the Dutch government's policy responses to the linguistic minorities constituted by recent immigration, the theoretical implications of linguistic groups in contact and conflict with one another, and the political reality which frames life in Belgium.

BiSL® - A Framework for Business Information Management - 2nd edition Peter Lang

A yellow balloon sails around the world.

Researchers' Pathways and Perspectives John Wiley & Sons

This book describes a process framework for business information management: the Business Information Services Library (BiSL®) - a public domain standard that is consistent with the IT Infrastructure Library (ITIL) and Application Services Library (ASL). BiSL establishes a bridge between IT and business processes, and between business information administrators and information managers. The BiSL process model provides an insight into all of the primary processes within their field of operations and into the relationship between the various processes. It offers a starting point for the improvement of these processes using best practices, amongst other things, and it provides uniform terminology. This book explains BiSL, a process framework for business information management, encompassing the best way to manage and execute business information management in day-to-day practice, and explains how the framework BiSL can help to improve business processes and the alignment of business and IT. Additional Training material is available for free for APMG accredited trainers. If you want to have this sent to you, please send an e-mail to: info@vanharen.net By this book is a separate file (free, via internet) available: • All images in the book, in Powerpoint format. Click on the button Training Material by the book on our website.

Dutch For Dummies includes: Audio CD to assist learning Introductory grammar and vocabulary Meeting and getting to know people Dining out, shopping, leisure time and the workplace Dealing with emergencies Tips on how to pick up Dutch quickly Note: CD files are available to download when buying the eBook version

Making Doll House Miniatures with Polymer Clay Cassell

The languages of the world can be seen and heard in cities and towns, forests and isolated settlements, as well as on the internet and in international organizations like the UN or the EU. How did the world acquire so many languages? Why can't we all speak one language, like English or Esperanto? And what makes a person bilingual? Multilingualism, language diversity in society, is a perfect expression of human plurality. About 6,500-7,000 languages are spoken, written and signed, throughout the linguistic landscape of the world, by people who communicate in more than one language (at work, or in the family or community). Many origin myths, like Babel, called it a 'punishment' but multilingualism makes us who we are and plays a large part of our sense of belonging. Languages are instruments for interacting with the cultural environment and their ecology is complex. They can die (Tasmanian), or decline then revive (Manx and Hawaiian), reconstitute from older forms (modern Hebrew), gain new status (Catalan and Maori) or become autonomous national languages (Croatian). Languages can even play a supportive and symbolic role as some territories pursue autonomy or nationhood, such as in the cases of Catalonia and Scotland. In this Very Short Introduction John C. Maher shows how multilingualism offers cultural diversity, complex identities, and alternative ways of doing and knowing to hybrid identities. Increasing multilingualism is drastically changing our view of the value of language, and our notion of the part language plays in national and cultural identities. At the same time multilingualism can lead to social and political conflict, unequal power relations, issues of multiculturalism, and discussions over 'national' or 'official' languages, with struggles over language rights of local and indigenous communities. Considering multilingualism in the context of globalization, Maher also looks at the fate of many endangered languages as they disappear from the world. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

A Step-by-step Guide for World Language Teachers Oxford University Press

Do you know what the hardest thing for a Dutch learner is? Finding PROPER reading material that they can handle...which is precisely the reason we've written this book! Teachers love giving out tough, expert-level literature to their students. Books that present many new problems to the reader and force them to search for words in a dictionary every five minutes - it's not entertaining, useful or motivating for the student at all, and many soon give up on learning at all! In this book, we have compiled 20 easy-to-read, compelling and fun stories that will allow you to expand your vocabulary and give you the tools to improve your grasp of the beautiful Dutch tongue. How Dutch Short Stories for Beginners works: - Each story is exciting and entertaining with realistic dialogues and day-to-day situations. - The summaries follow a synopsis in Dutch and in English of what you just read, both to review the lesson and for you to see if you understood what the tale was about. - At the end of those summaries, you'll be provided with a list of the most relevant vocabulary involved in the lesson, as well as slang and sayings that you may not have understood at first glance! - Finally, you'll be provided with a set of tricky questions in Dutch, providing you with the chance to prove that you learned something in the story. Don't worry if you don't know the answer to any - we will provide them immediately after, but no cheating! We want you to feel comfortable while learning the tongue; after all, no language should be a barrier for you to travel around the world and expand your social circles! So look no further! Pick up your copy of Dutch Short Stories for Beginners and start learning Dutch right now!

The Grammar of the English Tense System forms the first volume of a four-volume set, The Grammar of the English Verb Phrase. The other volumes, to appear over the next few years, will deal

with mood and modality, aspect and voice. The book aims to provide a grammar of tense which can be used both as an advanced reference grammar (for example by MA-level or postgraduate students of English or linguistics) and as a scientific study which can act as a basis for and stimulus to further research. It provides not only a wealth of data but also a unique framework for the study of the English tense system, which achieves great predictive and explanatory power on the basis of a limited number of relatively simple rules. The framework provided allows for an analysis of the semantics of individual tenses which reflects the role of tenses not only in locating situations in time relative to speech time but also in relating situations in time relative to one another to form temporally coherent discourse. Attention is paid to the relations between tenses. On the one hand, we can identify sets of tenses linked to particular temporal areas such as the past or the future. These sets of tenses provide for the expression of a system of temporal relations in a stretch of discourse in which all the situations are located within the same temporal area. On the other hand, there are many contexts in which speakers might in theory choose between two or more tenses to locate a situation (e.g., when we choose between the past tense and the present perfect to locate a situation before speech time), and the book examines the difference that a choice of one or the other tense may make within a discourse context. The book moves from a detailed exploration of the meaning and use of individual tenses to a thorough analysis of the way in which tenses can be seen to function together as sets, and finally to a detailed examination of tenses in, and tenses interacting with, temporal adverbials. Original data is used frequently throughout the book to illustrate the theory discussed.

Translation is everywhere, and matters to everybody. Translation doesn't only give us foreign news, dubbed films and instructions for using the microwave: without it, there would be no world religions, and our literatures, our cultures, and our languages would be unrecognisable. In this Very Short Introduction, Matthew Reynolds gives an authoritative and thought-provoking account of the field, from ancient Akkadian to World English, from St Jerome to Google Translate. He shows how translation determines meaning, how it matters in commerce, empire, conflict and resistance, and why it is fundamental to literature and the arts. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. When he disappears on a cruise, a woman discovers her husband's secret life in this international-bestselling thriller from a sensational Dutch author. Frank and Helen's anniversary cruise is going perfectly, until the unthinkable happens and Frank disappears. Helen does everything she can to find her husband, but is ultimately forced to return home, alone and distraught. After spending the next few months searching, Helen hears from someone who has news of her husband. But not the news she hoped for: Helen learns that Frank was leading a double life. It becomes increasingly apparent that the man she married had a dark side Helen could never have imagined. Suzanne Vermeer, the bestselling mystery writer in the Netherlands, spins this story with unparalleled suspense.
