MARITZA CAMILLE

The Federalist Papers CQ Press

Just in time for election season, Dan Gutman's hugely popular THE KID WHO RAN FOR PRESIDENT is back. Humor, adventure, and excitement will draw kids into the world of elections and politics. "Hi! My name is Judson Moon. I'm 12 years old and I'm running for President of the YOU-nited States." So begins this fast-paced, funny, and surprising account of a boy's run for the Oval Office in the year 2000. Under the tutelage of Lane, his brainy friend and self-appointed campaign manager, the affable sixth-grader from Madison, Wisconsin, takes on the Democrats and Republicans as a Third Party candidate who can make waves. "Grown-ups have had the last one thousand years to mess up the world," Judd tells a reporter. "Now it's our turn."

Living Democracy, 2010 Update, Brief National Version Page Publishing Inc

In this sweepingly ambitious volume, the nation's foremost experts on the American presidency and the U.S. Constitution join together to tell the intertwined stories of how each American president has confronted and shaped the Constitution. Each occupant of the office—the first president to the forty-fourth—has contributed to the story of the Constitution through the decisions he made and the actions he took as the nation's chief executive. By examining presidential history through the lens of constitutional conflicts and challenges, *The Presidents and the Constitution* offers a fresh perspective on how the Constitution has evolved in the hands of individual presidents. It delves into key moments in American history, from Washington's early battles with Congress to the advent of the national security presidency under George W. Bush and Barack Obama, to reveal the dramatic historical forces that drove these presidents to action. Historians and legal experts, including Richard Ellis, Gary Hart, Stanley Kutler and Kenneth Starr, bring the Constitution to life, and show how the awesome powers of the American presidency have been shaped by the men who were granted them. The book brings to the fore the overarching constitutional themes that span this country's history and ties together presidencies in a way never before accomplished. Exhaustively researched and compellingly presented, *The Presidents and the Constitution* shines new light on America's brilliant constitutional and presidential history.

Presidential Nomination in Polarized Times Scholastic Inc.

An official in the Nixon, Ford, Reagan, and both Bush administrations, Peter W. Rodman draws on his

firsthand knowledge of the Oval Office to explore the foreign-policy leadership of every president from Nixon to George W. Bush. This riveting and informative book about the inner workings of our government is rich with anecdotes and fly-on-the-wall portraits of presidents and their closest advisors. It is essential reading for historians, political junkies, and for anyone in charge of managing a large organization.

Deeds Done in Words University of Chicago Press

This reader offers two readings per chapter organized in a debate-style format, representing opposing viewpoints. The straightforward, thought-provoking presentation facilitates classroom discussion. Highlights of this fourth edition include: - New! Chapter 4, *Civil Society*, contains essays by Robert Putnam, *Bowling Alone: The Collapse of American Community*, and William A. Galston and Peter Levine, *America's Civic Condition: A Glance at the Evidence*. - New! More than 800,000 copies in print! From the author of critically acclaimed and bestselling memoir *Falling Leaves*, this is a poignant and moving true account of her childhood, growing up as an unloved daughter in 1940s China. A Chinese proverb says, "Falling leaves return to their roots." In her own courageous voice, Adeline Yen Mah returns to her roots to tell the story of her painful childhood and her ultimate triumph in the face of despair. Adeline's affluent, powerful family considers her bad luck after her mother dies giving birth to her, and life does not get any easier when her father remarries. Adeline and her siblings are subjected to the disdain of her stepmother,

while her stepbrother and stepsister are spoiled with gifts and attention. Although Adeline wins prizes at school, they are not enough to compensate for what she really yearns for -- the love and understanding of her family. Like the classic Cinderella story, this powerful memoir is a moving story of resilience and hope. Includes an Author's Note, a 6-page photo insert, a historical note, and the Chinese text of the original Chinese Cinderella. A PW BEST BOOK OF THE YEAR AN ALA-YALSA BEST BOOK FOR YOUNG ADULTS "One of the most inspiring books I have ever read." -The Guardian

An Introduction Houghton Mifflin Harcourt

Illustrated timeline inside the front cover.

Six Crises Praeger

The American presidency is the most powerful political office in the world. But this impressive statement serves only to raise a whole series of fundamental questions: What is the scope of presidential powers and what are its limits? Can the president use all the authority of his office or is that authority more formal than effective? Does the presidency have sufficient power to meet today's needs or do the problems of the modern age demand a more powerful executive? Is there a danger of dictatorship in the growth of political authority or will the presidency remain an office of constitutional democratic leadership? This book explores such questions by presenting a wide range of views on presidential power from a variety of sources: original supporters and opponents of the office; presidents themselves; Supreme Court decisions; and professional students of the presidency.

Forging the Presidency for the Twenty-first Century Read Books Ltd

Hailed as a stellar educational resource since 1917, Magruder's American Government is updated annually to incorporate the most current, most authoritative American Government content, and meet the changing needs of today's high school students and teachers. Teacher's All-in-One Resources with Editable Worksheets on CD-ROM CD-ROM includes Teacher's Edition and a wide range of on-level and Foundations lesson plans, worksheets, and assessments. This built-in differentiation allows teachers to pick and choose among the resources that meet the needs of all students!

The First Year of a Failing and Chaotic Presidency Createspace Independent Publishing Platform

Arguing that "the presidency" is not defined by the Constitution—which doesn't use the term—but by what presidents say and how they say it, *Deeds Done in Words* has been the definitive book on presidential rhetoric for more than a decade. In *Presidents Creating the Presidency*, Karlyn Kohrs Campbell and Kathleen Hall Jamieson expand and recast their classic work for the YouTube era, revealing how our media-saturated age has transformed the ever-evolving rhetorical strategies that presidents use to increase and sustain the executive branch's powers. Identifying the primary genres of presidential oratory, Campbell and Jamieson add new analyses of signing statements and national eulogies to their explorations of inaugural addresses, veto messages, and war rhetoric, among other types. They explain that in some of these genres, such as farewell addresses intended to leave an individual legacy, the president acts alone; in others, such as State of the Union speeches that urge a legislative agenda, the executive solicits reaction from the other branches. Updating their coverage through the current administration, the authors contend that many of these rhetorical acts extend over time: George W. Bush's post-September 11 statements, for example, culminated in a speech at the National Cathedral and became a touchstone for his subsequent address to Congress. For two centuries, presidential discourse has both succeeded brilliantly and failed miserably at satisfying the demands of audience, occasion, and institution—and in the process, it has increased and depleted political capital by enhancing presidential authority or ceding it to the other branches. Illuminating the reasons behind each outcome, Campbell and Jamieson draw an authoritative picture of how presidents have used rhetoric to shape the presidency—and how they continue to re-create it.

Nuclear Madness and the Mind of Donald Trump Debating Democracy A Reader in American Politics This volume, the third in the official history of the Atomic Energy Commission, makes sizable contributions in several areas, including the Eisenhower presidency. During the years in which work on the book has moved forward, that presidency has been one of historiographical frontiers, an area of exciting explorations and new developments. A "revisionism" has emerged to challenge a conception that had taken shape earlier and was quite negative in its appraisal of Eisenhower. Some findings of the revisionists now seem quite firmly established, but the new interpretation has not swept the field. Challenges to it have also appeared. A volume focusing on nuclear energy cannot make contributions to all aspects of the controversy over President Eisenhower, but this book can and does have much to say about some main features of the debate. In the process, the book illustrates, as did the earlier volumes in the series, how very good "official history" can be. This book on the Atomic Energy Commission is not a narrow history of a government agency. Dealing with the

AEC during the period when issues concerning nuclear weapons and nuclear power emerged as large public concerns, the volume ranges well beyond the commission. Much of the work deals with Eisenhower. Although not uncritical, the authors find much to admire in him. Subjects and topics covered include: Dwight Eisenhower, Harold Stassen, Lewis Strauss, Nuclear Testing, nuclear power, EURATOM, AEC, nuclear test ban, Clinton Anderson (U.S. Senator), Argonne National Laboratory, Hans Bethe, Candor Operation, Castle Test Series, John Foster Dulles, disarmament, nuclear fallout, General Electric, Christian Herfer, Bourke Hickenlooper, Chet Holifield, IAEA, JCAE, Los Alamos, John McCone, Thomas Murray, Richard Nixon, NATO, Oak Ridge, Open Skies, J. Robert Oppenheimer, plutonium, PWR, Hyman Rickover, Seawolf, Roy Snapp, Edward Teller, Soviet Union, USSR, Upshot-Knothole test series, On the Beach movie. Atoms For Peace and War 1953-1961: Eisenhower and the Atomic Energy Commission * Chapter 1 - A Secret Mission * Chapter 2 - The Eisenhower Imprint * Chapter 3 - The President and the Bomb * Chapter 4 - The Oppenheimer Case * Chapter 5 - The Political Arena * Chapter 6 - Nuclear Weapons: A New Reality * Chapter 7 - Nuclear Power for the Marketplace * Chapter 8 - Atoms for Peace: Building American Policy * Chapter 9 - Pursuit of the Peaceful Atom * Chapter 10 - The Seeds of Anxiety * Chapter 11 - Safeguards, EURATOM, and the International Agency * Chapter 12 - Nuclear Issues: A Time for Decision * Chapter 13 - Nuclear Issues: The Presidential Campaign of 1956 * Chapter 14 - In Search of a Nuclear Test Ban * Chapter 15 - Politics of the Peaceful Atom * Chapter 16 - EURATOM and the International Agency, 1957-1958 * Chapter 17 - Toward a Nuclear Test Moratorium * Chapter 18 - A New Approach to Nuclear Power * Chapter 19 - Science for War and Peace * Chapter 20 - The Test Ban: A Fading Hope * Chapter 21 - The Great Debate

Gazetteer of the Bombay Presidency ... Houghton Mifflin College Division

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as # 1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. Peril is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. "We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. Peril is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with Fear and Rage. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M.

Nixon's final days.

The Presidents and the Constitution Routledge

Here, the contributors suggest how embracing the art of rhetoric might have allowed Bush to respond more successfully to the challenges of his presidency. Drawing on the resources of the Bush Presidential library and interviews with some of his White House aides, they explore such issues as the first Gulf War, the fall of the Berlin wall, Bush's environmental stance, and the 1992 re-election campaign.

The Presidency and the Political System Edinburgh University Press

The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Rocket Man Texas A&M University Press

Failure should not be an option in the presidency, but for too long it has been the norm. From the botched attempt to rescue the U.S. diplomats held hostage by Iran in 1980 under President Jimmy Carter and the missed intelligence on Al Qaeda before 9-11 under George W. Bush to, most recently, the computer meltdown that marked the arrival of health care reform under Barack Obama, the American presidency has been a profile in failure. In *Why Presidents Fail and How They Can Succeed Again*, Elaine Kamarck surveys these and other recent presidential failures to understand why Americans have lost faith in their leaders—and how they can get it back. Kamarck argues that presidents today spend too much time talking and not enough time governing, and that they have allowed themselves to become more and more distant from the federal bureaucracy that is supposed to implement policy. After decades of "imperial" and "rhetorical" presidencies, we are in need of a "managerial" president. This White House insider and former Harvard academic explains the difficulties of governing in our modern political landscape, and offers examples and recommendations of how our next president can not only recreate faith in leadership but also run a competent, successful administration.

Peril CQ Press

A scholar specializing in the study of the U.S. presidency takes a close-up look at the leadership

style and strategy of American presidents from Franklin Roosevelt to Bill Clinton, assessing each in six general categories--communication, organization, natural skill, vision, cognitive style, and emotional intelligence.

Debating Democracy A Reader in American Politics Houghton Mifflin College Division

Debating the Presidency NYU Press

For many years before he became President, Richard Nixon's decisions vitally affected the well-being of the nation. Six of those decisions significantly shaped the man who would later become the 37th President of the United States. *Six Crises* is a close-up look at this dynamic man, recalling the demands placed upon him, the thinking behind his decisions, and the pressures of political life.

Donald J. Trump CQ Press

American Government 2e is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them.

A Tale of Two Terms Columbia University Press

'Political Science' offers a thorough introduction to the basic concepts and theories of political science. With a critical look at the major theories, it exposes students to many ways of thinking, and challenges them to think critically while emphasizing both US and comparative politics.

The Hardest Job in the World Addison-Wesley Longman

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyze the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.
