Counseling Women Abingdon Press

This groundbreaking book, now updated and expanded, furthers its original, effective, time-saving approach that benefits pastors overtaxed by counseling demands. Dr. Charles Kollar presents a

departure in pastoral counseling, showing that counseling need not be long-term or depend on psychological manipulation to produce dramatic results. In most cases, the solution lies with the counsees themselves. Using the tested methods found in Solution-Focused Pastoral Counseling, pastors, apart from counselors, will be well equipped to help their counsees discover a solution and put it in motion speedily and productively. SFPC is short-term—typically one to five sessions, in which the counselor seeks to create solutions with—not for—the counselee. The focus is on the possibility of life without the problem through an understanding of what is different when the problem does not occur or is less intrusive. The goal is healthy change, sooner rather than later, by helping the counselee see and work on the solution with God’s activity already present in his or her life. The solution-focused approach does not require the counselor to be a highly trained psychological expert. It requires biblically based sensitivity and common sense. Yet this approach also recognizes its limitations and understands that there are situations in which other professional and/or medical help is required.

Pastoral Care and Counseling Harper Collins

Seasoned counselors and professors Ron Hawkins and Tim Clinton offer a comprehensive guide that empowers Christian counselors by clarifying their task: to help people take possession of their souls...through the power of the Spirit; under the authority of the Word; in a supportive community of accountability...that they may be like Christ. The authors address head-on today's enticing new imitations of true peace and tantalizing opportunities for people in pain to anesthetize

themselves. But they also highlight the foundation of hope: God loves, he empowers, and he refuses to abandon his passion for connection with his children. Case studies illustrate how to help people take possession of the thinking self, the feeling self, the decision-making self, the physical self, and the relational self. This comprehensive plan for effective intervention is perfect for lay counselors, students, and professionals looking for ways to integrate their faith and practice.

Gospel-Centered Family Counseling Zondervan

Everyone talks about the personal ministry of the Word, but how do we make one-another ministry truly biblical? Gospel-Centered Counseling equips readers to change lives with Christ’s changeless truth. It does so by examining life’s seven ultimate questions and then guiding readers on a journey that explores the biblical, gospel-centered narrative of: The Word: “What is truth?” “Where can I find answers?” The Trinity: “Who is God?” “Can I know Him personally?” Creation: “Who am I?” “What makes people tick?” Fall: “What went wrong?” “Why do we do the things we do?” Redemption: “Can I change?” “How do people change?” Glorification: “Where am I headed?” “How does our future destiny impact our present reality?” Sanctification: “How can I help?” “How can I change lives?” Bob Kellemen builds on the foundation of the written Word and provides a gospel-centered resource for understanding people, diagnosing problems, and prescribing biblically-based solutions. Gospel-Centered Counseling is the first volume in The Equipping Christian Counselors Series, a comprehensive relational training curriculum for the local church that provides a model for equipping God’s people to change lives with Christ’s changeless

truth. This two-volume series weaves together comprehensive biblical insight with compassionate Christian engagement.

Pastoral Care and Counseling Trafford

This history of Protestant pastoral counseling in America examines the role of pastoral counselors in the construction and articulation of a liberal moral sensibility. Analyzing the relationship between religion and science in the twentieth century, Susan E. Myers-Shirk locates this sensibility in the counselors' intellectual engagement with the psychological sciences. Informed by the principles of psychology and psychoanalysis, pastoral counselors sought a middle ground between science and Christianity in advising anxious parishioners who sought their help for personal problems such as troubled children, violent spouses, and alcohol and drug abuse. Myers-Shirk finds that gender relations account in part for the great divide between the liberal and conservative moral sensibilities in pastoral counseling. She demonstrates that, as some pastoral counselors began to advocate women's equality, conservative Christian counselors emerged, denouncing more liberal pastoral counselors and secular psychologists for disregarding biblical

teachings. From there, the two sides diverged dramatically. *Helping the Good Shepherd* will appeal to scholars of American religious history, the history of psychology, gender studies, and American history. For those practicing and teaching pastoral counseling, it offers historical insights into the field.

Christian Counseling Ethics Crossway

Grounded in empirical research and richly illustrated with case studies, this introduction continues the theoretical, practical, and theological expansion of Pastoral Care and Counseling. Because of increasing cultural diversity and the fact that more training is done outside of seminaries in non-seminary related colleges and universities, there is fragmentation in the discipline. This makes a coherent orientation to pastoral care and counseling as a ministry increasingly difficult. To address this confusion, author, Loren Townsend, calls us to readdress basic understandings. He also makes the case that pastoral identity can function as a unifying concept.

Dictionary of Pastoral Care and Counseling Paulist Press

A client raises spiritual questions. Can a Christian therapist working in a government agency talk with a client about faith? A young couple with two children asks a Christian counselor to help them negotiate an end to their marriage. What responsibility does the counselor have to try to repair the relationship? A youth group member confidentially reveals to the pastor that he is taking drugs. Should the pastor tell the boy's parents? A counselor who teaches a college course has a client show up for class. What should she do? These are just a few of the complex dilemmas that therapists, counselors and pastors face nearly every day. Handling these situations appropriately is critical for

both the client's progress and the professional's personal credibility and protection from liability. State and federal codes, professional association statements and denominational guidelines have been drawn up to address ethical issues like competence, confidentiality, multiple relationships, public statements, third parties and documentation. In this book you'll find them all compiled and interpreted in light of Christian faith and practice. Written by qualified professional counselors and respected academic instructors, this book is an indispensable resource for understanding and applying ethics in Christian counseling today.

Christian Counseling 3rd Edition Fortress Press

For the first time ever, three pioneers in the field of acceptance and commitment therapy (ACT) present an edited volume that outlines how the core ACT processes can be applied to religious and spiritual care approaches. If you are a clergy leader or

pastoral counselor, people struggling with difficult situations or life traumas frequently turn to you for guidance. And while you're passionate about helping, you may be unprepared for counseling people with certain mental health challenges. On the other hand, if you are a psychotherapist, you may need guidance in supporting your client's religious belief system in therapy. In either case, this book presents a powerful road map to help you provide the best care. In this book, you'll find a complete overview of ACT, as well as strategies for integrating ACT and issues related to spirituality. You'll also learn how the core processes of ACT—such as commitment to change and values-based living—can be seamlessly tied into spiritual and religious counseling, no matter your faith or therapeutic background. By teaching you how to fuse conceptual psychological and spiritual principles, this book will provide you with the tools needed to enhance your counseling skill set.

The Christian Counselor's Handbook SAGE

The Pastor as Counselor (Foreword by Ed Welch) Harvest House Publishers

Drawing on psychological, theological, and cultural studies on suffering, Carrie Doehring encourages counselors to view their ministry through trifocal lenses and include approaches that are premodern (apprehending God through religious rituals), modern (consulting rational and empirical sources), and postmodern (acknowledging the contextual nature of knowledge). Utilizing strategies from all three perspectives, Doehring describes the

basic ingredients of a caregiving relationship, shows how to use the caregiver's life experience as a source of authority, and demonstrates how to develop the skill of listening and establish the actual relationship. She then explains the steps of

psychological assessment, systemic assessment, and theological reflection, and finally she delineates the basic steps for plans of care: attending to the careseeker's safety, building trust, mourning losses, and reconnecting with the ordinariness of life.
