Counselling Skills in Action Routledge

More than any other text on the market, *The Heart of Counseling* is effective in helping students to understand the importance of therapeutic relationships and to develop the qualities that make the therapeutic relationships they build with clients the foundation of healing. In these pages, students come to see how all skills arise from and are directly related to the counselor's development and to building therapeutic relationships. Student learning ranges from therapeutic listening and empathy to structuring sessions, from explaining counseling to clients and caregivers to providing wrap-around services, and ultimately to experiencing therapeutic relationships as the foundation of professional and personal growth. *The Heart of Counseling* includes: extensive case studies and discussions applying skills in school and agency settings specific guidance on how to translate the abstract concepts of therapeutic relationships into concrete skill sets exploration of counseling theories and tasks within and extending from core counseling skills videos that bring each chapter to life test banks, instructor's manuals, syllabi, and guidance for learning-outcomes assessments for professors

**The Skills of Finding Solutions to Problems** Allyn & Bacon

Counselling skills are very powerful. Really listening and providing compassionate empathy without judging is a core part of social work practice with service users. This book provides a theoretically informed understanding of the core skills required to provide counselling interventions that work. It provides detailed discussion of three core skills which are identified as: talking and responding, listening and observing and thinking. Over 11

chapters these core skills are described in terms of what they mean, how they can be learned and developed, how they can be used and misused and, most importantly, how specific skills can be employed in a coherent and evidence-informed counselling approach. Loughran also looks in detail at the skills required to deliver interventions consistent with three approaches: Motivational Interviewing, Solution-Focused Work and Group work. Illustrative case examples and exercises offer further opportunities for reflection and exploration of self-awareness as well as for practising and enhancing skills development, thus making the book required reading for all social work students, professionals looking to develop their counselling skills and those working in the helping professions more generally. Terms such as social worker, therapist and counsellor will be included as they inform counselling skills in social work.

### **Counseling Skills Through Therapeutic Relationships** Routledge

This is the only comprehensive text to focus on the development of practical interviewing and counseling skills for Master's-level mental health counseling students. It is structured around the goals established by the CACREP's 2009 document on standards for MHC programs, and uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies. The text emphasizes the importance of multicultural facets of interviewing and counseling throughout, challenging students to examine their own backgrounds and biases as they develop professionally.

The School Counseling and School Social Work Treatment Planner, with DSM-5 Updates, 2nd Edition McGraw-Hill International

"The second edition is very welcome and represents an extremely useful addition to theory/models texts. Pam brings a

very lively style of debate to these issues and, extremely importantly, adds a critical edge which is what students require within the realm of contemporary practice." Professor Jonathan Parker, Head of Department of Social Work, University of Hull.

What skills do social workers need to become effective practitioners? How can these skills be perfected and made transferable across different service user and carer groups, contexts, and countries? How can these skills be used to enhance multi-agency co-operation and collaboration? Written by an experienced academic-practitioner, the new edition of this best-selling text is updated to include the current educational, policy and practice context of social work. It includes descriptions of over fifty social work skills, with case examples to illustrate their creative use in practice. Giving a name to these skills, and being able to identify and demonstrate their effective use in contemporary social work practice, highlights the importance of an evidence based and research led approach to practice. In particular, this edition contains new material on: Social work methods, practice approaches and perspectives The knowledge base of social work and the importance of the relationship between theory and practice How the terms skill and intervention are defined and effectively applied in practice The starting point for this text is that social work is - and has to be - a highly skilled activity. It is important to stress this fact because social work practitioners work with some of the most complex, unpredictable and troubling areas of human experience. For this reason, social work practice is also an intellectual activity. This calls for practitioners to acquire a 'toolbox' of skills that can be used to enable people to move forward. Social Work Skills is essential reading for all social work students and a valuable reference text for practising social workers and human service

professionals.

*A Handbook for Building Skills* McGraw-Hill Education (UK)

'As a course book or an aide to individual learning this book contains a wealth of information and guidance based on years of study and practice. It is easy to use because it is clearly signposted. I particularly like the way the author addresses the range of issues a student needs to consider before embarking on a counselling course. The structure of building block by block, skill by skill simplifies assessment' - *Counselling and Psychotherapy Journal*

*Interviewing and Counselling Skills for Canadians* Sage Publications Pvt. Limited

The main aim of this practical Handbook is to strengthen counselling and communication skills of skilled attendants (SAs) and other health providers, helping them to effectively discuss with women, families and communities the key issues surrounding pregnancy, childbirth, postpartum, postnatal and post-abortion care. The MNH Counselling Handbook is chiefly

designed to be used by groups of SAs with the help of a facilitator. It can also be used by individual SAs who can get together with colleagues for discussions and activities where needed. It relies on a self-directed learning approach, allowing SAs to work at their own pace, drawing on their past counselling experience. The way it is used will be determined by each country's context, and the SAs preference. The MNH Counselling Handbook is divided into three main sections. Part 1 is an introduction which describes the aims and objectives and the general layout of the Handbook. Part 2 describes the counselling process and outlines the six key steps to effective counselling. It explores the counselling context and factors that influence this context including the socio-economic, gender, and cultural environment. A series of guiding principles is introduced and specific counselling skills are outlined. Part 3 focuses on different maternal and newborn health topics, including general care in the home during pregnancy; birth and emergency planning; danger signs in pregnancy; post-abortion care; support during labour; postnatal care of the mother and newborn; family planning counselling; breastfeeding; women with HIV/AIDS; death and bereavement; women and violence; linking with the community. Each Session contains specific aims and objectives, clearly outlining the skills that will be developed and corresponding learning outcomes. Practical activities have been designed to encourage reflection, provoke discussions, build skills and ensure the local relevance of information. There is a review at the end of each session to ensure the SAs have understood the key points before they progress to subsequent sessions.

Drawing from the author's vast experience as teacher, researcher, and practitioner, Lawrence Shulman's DYNAMICS AND SKILLS OF GROUP COUNSELING equips students in the helping professions with a solid introduction to methods for effective group counseling. Guided by theory, empirical research, years of teaching experience, his own group practice, and the wisdom of colleagues, Shulman's text brings concepts to life with vivid cases that include Record of Service reports and dialogue from actual groups. These illustrative examples connect theory to current practice and address the day-to-day realities of leading counseling groups. Extremely practical, the book presents students with a clear format on how to run a group built around four phases of work: the preliminary (preparatory) phase; the beginning (contracting) phase; the middle (work) phase; and the ending and transition phase. Recognizing the broad applications of these methods, the latter part of the text shows how these lessons can be applied to a wide range of settings. Reflecting the latest research and practices, DYNAMICS AND SKILLS OF GROUP COUNSELING delivers an insightful, authoritative, and comprehensive introduction to the field. Praise for the first edition: 'The content of the book is excellent... The strength lies in its detailed application of ideas to practice. The use of the case material to illustrate application is excellent and works well.' - Helen Cosis-Brown, University of Middlesex This new edition of *Counselling Skills for Social Work* argues that good counselling skills are at the heart of effective social work practice. Building on the success of the first edition, this core textbook brings a range of therapeutic models, with their theoretical underpinnings and skills, directly into a social work context. By looking at how the underlying theory can be applied to

professional practice, chapters identify the key skills which can be employed for the most effective social work intervention. Key features of the book include: - a practical skills-based approach; - a focus on service-user experiences and range of case-studies drawn from a variety of 'real-life' settings; - a new chapter dedicated to counselling young people; - chapter content is linked to the most recent NOS and GSCC guidelines structuring training and practice; - end-of-chapter Reflective Questions and Tips for Practice summarising the key theoretical concepts and their applications. Written in a lively and engaging style this updated new edition will be an invaluable text for undergraduate students in social work. It will also be useful for qualified practitioners to enhance understanding of communication and the process of change through the medium of counselling skills.

----- 'How hard it is to find a book to recommend to trainees, which will give them an insight into what counselling (and psychotherapy too, for that matter) is really like. This book does exactly that.... This is a book which would be equally useful to the humanistic practitioner and the more

orthodox one. The breadth of sympathy is admirable in dealing with what is common to all orientations. This is one of those rare books which does justice both to the human experiences involved in counselling and psychotherapy, and to the theory which might explain those experiences' - Changes What is the experience of counselling from the perspectives of both client and counsellor? What can be learned for the practice of counselling from an understanding of how it feels to be a client or a counsellor? Addressing these questions, central to this book are the personal accounts of individual clients and counsellors, who each relate their own very different experiences of counselling. They explore such issues as identity, expectations, trust, power and boundaries in the client-counsellor relationship. And each examines the intense personal meanings of 'success' or 'failure' in the client or counsellor role. An analysis of the implications for the counselling relationship concludes the volume.

**The Essential Skills for Setting Up a Counselling and Psychotherapy Practice** SAGE

· In what ways is counselling relevant to contemporary social work? · How do counselling skills integrate with social work roles and responsibilities? This book examines these skills and their applicability, drawing from social work and counselling theories and methods using clear, practical examples. Skills are discussed with reference to social work knowledge and values illustrating how, when used competently, contextually and sensitively they

can appropriately underpin good social work practice. Questions and activities for self development are linked to the practices discussed. This new edition of *Counselling Skills in Social Work Practice* has been thoroughly revised to reflect the National Occupational Standards for social work which identify the importance of communication skills and a developmental understanding of people in their social contexts. The chapters are linked to the six key roles for social work practice. This book builds on the strengths of the first edition, as well as addressing the challenges of practice in relevant legislative and policy contexts. The book includes: · Evidence of how the competencies which underpin counselling practice are directly transferable to effective social work practice · Practical advice on communication skills · Examples of how to build effective working relationships; a whole chapter is now devoted to the specific skills required for working within inter-agency and multi-disciplinary teams This book is key reading on the subject of ethical and effective social work for those teaching, studying or practising in the field.
