Cultural Studies, Identity and Politics Between the Modern and the Post-modern Skyhorse

In Goliath, New York Times bestselling author Max Blumenthal takes us on a journey through the badlands and high roads of Israel-Palestine, painting a startling portrait of Israeli society under the siege of increasingly authoritarian politics as the occupation of the Palestinians deepens. Beginning with the national elections carried out during Israel's war on Gaza in 2008-09, which brought into power the country's most right-wing government to date, Blumenthal tells the story of Israel in the wake of the collapse of the Oslo peace process. As Blumenthal reveals, Israel has become a country where right-wing leaders like Avigdor Lieberman and Bibi Netanyahu are sacrificing democracy on the altar of their power politics; where the loyal opposition largely and passively stands aside and watches the organized assault on civil liberties; where state-funded Orthodox rabbis publish books that provide instructions on how and when to kill Gentiles; where half of Jewish youth

declare their refusal to sit in a classroom with an Arab; and where mob violence targets Palestinians and African asylum seekers scapegoated by leading government officials as "demographic threats." Immersing himself like few other journalists inside the world of hardline political leaders and movements, Blumenthal interviews the demagogues and divas in their homes, in the Knesset, and in the watering holes where their young acolytes hang out, and speaks with those political leaders behind the organized assault on civil liberties. As his journey deepens, he painstakingly reports on the occupied Palestinians challenging schemes of demographic separation through unarmed protest. He talks at length to the leaders and youth of Palestinian society inside Israel now targeted by security service dragnets and legislation suppressing their speech, and provides in-depth reporting on the small band of Jewish Israeli dissidents who have shaken off a conformist mindset that permeates the media, schools, and the military. Through his far-ranging travels, Blumenthal illuminates the present by uncovering the ghosts of the past—the histories of Palestinian neighborhoods and villages now gone and forgotten; how that history has set the stage for the current crisis of Israeli society; and how the Holocaust has been turned into justification for occupation. A brave and unflinching account of the real facts on the ground, Goliath is an unprecedented and compelling work of journalism.

Tasmania to London. 800 hitchhiking trips. One year. Intrepid traveler and author Jamie Maslin does it again as he undertakes one of the most grueling, enlightening, and hilarious journeys of his life. How many rides does it take to hitch from Tasmania to London? Intrepid

traveler and rogue wanderer Jamie Maslin decides to find out. The Long Hitch Home is a vibrant travelog of well-researched social, cultural, and historical introductions to the score of countries Maslin passed through. Whether writing about the exotic backstreets of cities few of us will get to see firsthand, or the unique geographical wonders of far off countries, Jamie Maslin gives a thrilling account of what it is like to hit the road and live with intensity and rapture.

The Long Hitch Home Penguin UK

A powerful memoir "about a difficult childhood . . . tough stuff, honest and real"—The Oregonian Peter Hoffmeister was a nervous child who ran away repeatedly and bit his fingernails until they bled. Home-schooled until the age of fourteen, he had only to deal with his parents and siblings on a daily basis, yet even that sometimes proved too much for him. Over the years, he watched his mother disintegrate into her own form of mania, while his father—a scholar and doctor who had once played semi-pro baseball—was strict and pushed Peter particularly hard. He wanted only the best from his son, but in the process taught Peter to expect only the worst from himself. In the midst of his chaotic home life, Peter began to hear a voice—an insistent, monotone that would periodically dictate his actions. When Peter finally entered public school he started to break free from his father's control—only to fall sway to the voice more and more. His obsessive-compulsive behavior morphed into ruthless competition in sports and, ultimately, into lies, violence, and drugs. The End of Boys follows Hoffmeister to the very brink of sanity and back, in a harrowing and heartbreaking account of the trauma of adolescence and the redemption available to us all, if only we choose to find it. "Peter Brown Hoffmeister calls every sense into

play, providing rich imagery, grounded reflection, and the tension inherent in a coming-of-age tale in which drugs, violence, and a genetic tendency toward OCD conspire." —Los Angeles Review "The End of Boys takes no prisoners with its gritty, entrancing realism . . . a chilling and captivating read . . . a voice that is refreshingly new." —Eugene Weekly

In *Iranian Hospitality, Afghan Marginality*, Elisabeth Yarbakhsh unpacks ideas around culture, identity, and the relationship between Iranian citizens and Afghan refugees living in Shiraz, Iran, and surrounding areas. Yarbakhsh highlights the ways in which shifting policies and practices toward refugees over the past forty years have run parallel to the transitive notions of what it means to be Iranian. Yarbakhsh exposes the complex interplay of identity and hospitality as it emerges out of variously competing and intersecting Islamic, historical, and literary narratives of Iranian identity, carefully illustrating how these factors circumscribe Afghan refugee life in the city of Shiraz.

Surviving Paradise Routledge

A muggy night in Abu Dhabi, 2011. Under the stadium lights a 30,000-strong sea of Libyans, Palestinians, Syrians and Egyptians wait in anticipation. Alongside them are Saudis, Iranians and Israelis. Defiance and excitement course through the crowd like electricity. Standing together, they are waiting for Metallica's first ever show in the Middle East. Many have faced untold violence, but for tonight, nothing else matters... This is the untold story of that crowd. Of the young men and women and the music they make in the backrooms of shabby houses in al-Zarqa and al-Qatif, Nazareth and Cairo. Of illegal shows in Tehran and Riyadh. Of songs that ousted a dictator in Cairo. Of exiles that have ended in glory, in isolation, and in blood. Journalist and lifelong heavy metal fan, Orlando Crowcroft, spent six years penetrating the rock and metal scene in the Middle East. *Rock in a Hard Place* is a different voice, one that is at odds with the Middle East of violence, extremism, war and ISIS: a voice recognizable to anyone who has ever turned up a speaker or an amp to drown out the din of the everyday, and a voice that may help unite us when we need it

most.

Understanding Media Vintage Books

'A riveting chronicle of faulty science, false promises, arrogance, greed, and shocking disregard for the wellbeing of patients suffering from mental disorders. An eloquent, meticulously documented, clear-eyed call for change' Dirk Wittenborn
 In this masterful work, Andrew Scull, one of the most provocative thinkers writing about psychiatry, sheds light on its troubled history. For more than two hundred years, disturbances of reason, cognition and emotion - the sort of things that were once called 'madness' - have been described and treated by the medical profession. Mental illness, it is said, is an illness like any other - a disorder that can be treated by doctors, whose suffering can be eased, and from which patients can return. And yet serious mental illness remains a profound mystery that is in some ways no closer to being solved than it was at the start of the twentieth century. In this clear-sighted and provocative exploration of psychiatry, acclaimed sociologist Andrew Scull traces the history of its attempts to understand and mitigate mental illness: from the age of the asylum and surgical and chemical interventions, through the rise and fall of Freud and the talking cure, and on to our own time of drug companies and antidepressants. Through it all, Scull argues, the often vain and rash attempts to come to terms with the enigma of mental disorder have frequently resulted in dire consequences for the patient. Deeply researched and lucidly conveyed, *Desperate Remedies* masterfully illustrates the assumptions and theory behind the therapy, providing a definitive new account of psychiatry's and society's battle with mental illness.

With Exercises and a Key Leuven University Press

Increasingly, young people live online, with the vast majority of their social and cultural interactions conducted through means other than face-to-face conversation. How does this transition impact the ways in which young migrants understand, negotiate, and perform identity? That's the question taken up by *Digital Passages: Migrant Youth 2.0*, a ground-breaking analysis of the ways that youth culture online interacts with issues of diaspora, gender, and belonging. Drawing on surveys, in-depth interviews, and ethnography, Koen Leurs builds an interdisciplinary portrait of online youth culture and the spaces it opens up for migrant youth to negotiate power relations and to promote intercultural understanding.

In *All Things Must Fight to Live*, Bryan Mealer takes readers on a harrowing two-thousand mile journey through Congo, where gun-toting militia still rape and kill with impunity. Amidst burnt-out battlefields where armies still wrestle for control, into the dark corners of the forests, and along the high savanna, where thousands have been slaughtered and quickly forgotten, Mealer searches for signs that Africa's most troubled state will soon rise from ruin. At once illuminating and startling, *All Things Must Fight to Live* is a searing portrait of an emerging country facing unimaginable upheaval and almost impossible odds, as well as an unflinching look at the darkness that continues to exist in the hearts of men. It is non-fiction at its finest—powerful, moving, necessary.

This volume documents the transformation of age-old antisemitic stereotypes into a new form of discrimination, often called "New Antisemitism" or "Antisemitism 2.0." Manifestations of antisemitism in political, legal, media and other contexts are reflected on theoretically and contemporary developments are analyzed with a special focus on online hatred. The volume points to the need for a globally coordinated approach on the political and legal levels, as well as with regard to the modern media, to effectively combat modern antisemitism.

A Reader's Guide to Travel Narratives Princeton University Press

During recent years, attempts have been made to move beyond the Eurocentric perspective that characterized the social sciences, especially anthropology, for over 150 years. A debate on the "anthropology of anthropology" was needed, one that would consider other forms of knowledge, modalities of writing, and political and intellectual practices. This volume undertakes that challenge: it is the result of discussions held at the first organized encounter between Iranian, American, and European anthropologists since the Iranian Revolution of 1979. It is considered an important first step in overcoming the dichotomy between "peripheral anthropologies" versus "central anthropologies." The contributors examine, from a critical perspective, the historical, cultural, and political field in

which anthropological research emerged in Iran at the beginning of the twentieth century and in which it continues to develop today.

A Novel Walter de Gruyter GmbH & Co KG 'Sound Targets' explores the role of music in American military culture, focusing on the experiences of soldiers returning from active service in Iraq. Pieslak describes how American soldiers hear, share, use & produce music, both on & off duty.

Twelve Years a Slave Catapult Couchsurfer, hitchhiker, and rogue wanderer Jamie Maslin embarks on a couchsurfing adventure to the homeland of "firebrand," "populist," "anti-American" president Hugo Chavez: the Bolivarian Republic of Venezuela. Alone in the crime capital of the world Maslin immediately finds himself in trouble—arrested by knife-wielding police officers and inoculated with an unwanted vaccination. After a terrifying start in Caracas, he soon leaves the teeming city and travels to the places tourists never see, staying on the couches of people he befriended online just days earlier, and meeting everyone from fervent social revolutionaries to the country's wealthy elite. He sets off in search of mile-high waterfalls, flat topped jungle plateaus, rolling deserts, and the famous lightning that appears suddenly in the sky with no rain or thunder. Visiting sprawling slums and opulent mansions, Maslin offers a fascinating and timely social, cultural, and historical introduction to a country increasingly in the headlines. Often irreverent, frequently informative, and habitually funny, this is the remarkable account of a young adventurer's journey through a breathtakingly beautiful and dynamic country where the politics of oil and social revolution are never far from the surface.
