Racism Cambridge University Press  
Racism after Apartheid, volume four of the Democratic Marxism series, brings together leading scholars and activists from around the world studying and challenging racism In eleven thematically rich and conceptually informed chapters, the contributors interrogate the complex nexus of questions surrounding race and relations of oppression as they are played out in the global South and global North. Their work challenges Marxism and anti-racism to take these lived

realities seriously and consistently struggle to build human solidarities.

University Press  
Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local

“powhitetrash.” At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors (“I met and fell in love with William Shakespeare”) will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. “*I Know Why the Caged Bird Sings* liberates the reader into life simply because Maya Angelou confronts her own life with such a

moving wonder, such a luminous dignity.”—James Baldwin From the Paperback edition. *Race and Racisms* Routledge Revised edition of the author's *Race & racisms*, [2015]

*Race and Racisms* Beacon Press

A broad examination of the rise of nationalism, populism, xenophobia, and racism throughout the world The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism provides expert insight into the complex, interconnected factors that are influencing patterns of human relations worldwide in a time of rising populist nationalism, intensified racial and religious tensions, and mounting

hostilities towards immigrants and minorities. Analyzing the underlying forces which continue to drive global trends, this volume examines contemporary patterns based on the most recent evidence spanning five continents—offering a diversity of interpretations, models and perspectives that address the challenges facing the study of race, ethnicity, and nationalism. The Companion features original contributions by both established experts and emerging scholars that explore an expansive range of theoretical, historical, and empirical case studies. Organized into five sections, the text first discusses growing trends in the United States, the significance of populism in major societies around the globe, and how global changes are influencing regional variations in race, ethnicity, and nationalism. An investigation of global migration patterns is followed by examination of conflict and violence, from urban riots and boundary disputes to warfare and genocide. The final section focuses on the policy debates resulting from changing

patterns and their impact on politics, the economy, and society. Timely and highly relevant, this book: Discusses contemporary issues such as the failure of school systems to provide equal opportunities to minorities, the evolution of the School-to-Prison pipeline, and the Black Lives Matter movement Explores shifts in American race relations, the influence of social media and the internet, and the links between increased globalization and contemporary forms of nationalism, racism, and populism Features essays on national and ethnic identity in China, Japan, and South Korea, India, Central Asia, Africa, Latin America, and Europe Analyzes policies regarding borders, immigration, refugees, and human rights in different countries and regions Offers perspectives on the radicalization of social movements, the creation of ethnic, linguistic and other boundaries between groups, and the models used to understand intractable conflicts in many global settings The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism is an indispensable

resource for scholars, researchers, instructors, and students across the social sciences, including sociology, political science, global affairs, economics, comparative race and ethnic relations, international migration, social change, and sociological theory. *Why Race Still Matters* Picador Race and Racisms: A Critical Approach engages students in significant questions related to racial dynamics in the U.S. and around the world. Written in accessible, straightforward language, the book discusses and critically analyzes cutting-edge scholarship in the field. Organized into topics and concepts rather than discrete racial groups, the text addresses: \* How and when the idea of race was created and developed \* How structural racism has worked historically to reproduce inequality \* How we have a society rampant with racial inequality, even though most people do not consider themselves to be racist \* How race, class, and gender work together to create inequality and identities \* How immigration policy in the United States has been racialized \* How racial

justice could be imagined and realized Centrally focused on racial dynamics, Race and Racisms also incorporates an intersectional perspective, discussing the intersections of racism, patriarchy, and capitalism.

### **Theories of Race and Racism** SAGE

This anthology helps students understand race and ethnicity as a social construction and illustrates how these factors are embedded in the institutions that structure their own lives. Nearly 50 readings by established and emerging scholars expose students to the most important theoretical debates. New to the third edition is a statistical appendix *A Companion to Racial and Ethnic Studies* Oxford University Press In *The Invention of Race in the European Middle Ages*, Geraldine Heng questions the common assumption that the concepts of race and racisms only began in the modern era. Examining Europe's encounters with Jews, Muslims, Africans, Native Americans, Mongols, and the Romani ('Gypsies'), from the 12th through 15th centuries, she shows how racial thinking, racial law, racial

practices, and racial phenomena existed in medieval Europe before a recognizable vocabulary of race emerged in the West. Analysing sources in a variety of media, including stories, maps, statuary, illustrations, architectural features, history, saints' lives, religious commentary, laws, political and social institutions, and literature, she argues that religion - so much in play again today - enabled the positing of fundamental differences among humans that created strategic essentialisms to mark off human groups and populations for racialized treatment. Her ground-breaking study also shows how race figured in the emergence of homo europaeus and the identity of Western Europe in this time.

Routledge Music education has historically had a tense relationship with social justice. On the one hand, educators concerned with music practices have long preoccupied themselves with ideas of open participation and the potentially transformative capacity that musical interaction fosters. On the other hand, they have

often done so while promoting and privileging a particular set of musical practices, traditions, and forms of musical knowledge, which has in turn alienated and even excluded many children from music education opportunities. The Oxford Handbook of Social Justice in Music Education provides a comprehensive overview and scholarly analyses of the major themes and issues relating to social justice in musical and educational practice worldwide. The first section of the handbook conceptualizes social justice while framing its pursuit within broader contexts and concerns. Authors in the succeeding sections of the handbook fill out what social justice entails for music teaching and learning in the home, school, university, and wider community as they grapple with cycles of injustice that might be perpetuated by music pedagogy. The concluding section of the handbook offers specific practical examples of social justice in action through a variety of educational and social projects and pedagogical practices that will inspire and guide those wishing to confront and attempt to ameliorate musical or

other inequity and injustice. Consisting of 42 chapters by authors from across the globe, the handbook will be of interest to anyone who wishes to better understand what social justice is and why its pursuit in and through music education matters. *White Guys on Campus* Rutgers University Press Debunks the pervasive and self-congratulatory myth that our country is proudly founded by and for immigrants, and urges readers to embrace a more complex and honest history of the United States Whether in political debates or discussions about immigration around the kitchen table, many Americans, regardless of party affiliation, will say proudly that we are a nation of immigrants. In this bold new book, historian Roxanne Dunbar-Ortiz asserts this ideology is harmful and dishonest because it serves to mask and diminish the US's history of settler colonialism, genocide, white supremacy, slavery, and structural inequality, all of which we still grapple with today. She explains that the idea that we are living in a land of opportunity—founded and built by immigrants—was

a convenient response by the ruling class and its brain trust to the 1960s demands for decolonialization, justice, reparations, and social equality. Moreover, Dunbar-Ortiz charges that this feel good—but inaccurate—story promotes a benign narrative of progress, obscuring that the country was founded in violence as a settler state, and imperialist since its inception. While some of us are immigrants or descendants of immigrants, others are descendants of white settlers who arrived as colonizers to displace those who were here since time immemorial, and still others are descendants of those who were kidnapped and forced here against their will. This paradigm shifting new book from the highly acclaimed author of *An Indigenous Peoples' History of the United States* charges that we need to stop believing and perpetuating this simplistic and a historical idea and embrace the real (and often horrific) history of the United States.

**Race and Racisms** Wits University Press  
This book examines the deep roots of racism in

the mental health system. Suman Fernando weaves the histories of racial discourse and clinical practice into a narrative of power, knowledge, and black suffering in an ostensibly progressive and scientifically grounded system. Drawing on a lifetime of experience as a practicing psychiatrist, he examines how the system has shifted in response to new forms of racism which have emerged since the 1960s, highlighting the widespread pathologization of black people, the impact of Islamophobia on clinical practice after 9/11, and various struggles to reform. Engaging and accessible, this book makes a compelling case for the entrenchment of racism across all aspects of psychiatry and clinical psychology, and calls for a paradigm shift in both theory and practice.

**The SAGE Handbook of Race and Ethnic Studies** Routledge  
Race and Racism in Russia identifies the striking changes in racial ideas, practices, exclusions and violence in Russia since the 1990s, revealing how 'Russianness' has become a synonym for racial whiteness. This ground-

breaking book provides new theories and substantive insights into race and ethnicity in a Russian context.

**Not "A Nation of Immigrants"** John Wiley & Sons

"White resistance to racial equality is nothing new—yet its expression can change over time. Examining emerging manifestations can shed light on the larger forces that underpin racial inequalities. In this volume, leading scholars of race and whiteness assess contemporary shifts in white attitudes about racial justice and racial ideology, illustrating these dynamics with case studies at the personal, ideological, and institutional levels. Clashes such as the standoff with law enforcement at Cliven Bundy's ranch and white nationalist videos on YouTube vividly illustrate the vitality of contemporary racism. Examinations of more easily overlooked, yet also consequential arenas—art museums that enforce their boundaries as elite white spaces, conservative "right on crime" policies that mean new ways of surveillance and punishment for people of color, and

settler colonialism in the work of liberal environmental advocacy groups-also give insight into the novel mechanisms and specific ideologies within institutions that reproduce racial inequality. Collectively, this empirically-rich collection helps explicate the racialized fear of change (whether grounded in reality or the imagination) that reinforces the pillars of white supremacy. Contributors also explore, with a critical eye, social movements for racial equality"--

In recent years there has been a steady increase in the racial and ethnic diversity of the playing workforce in many sports around the world. However, there has been a minimal throughput of racial and ethnic minorities into coaching and leadership positions. This book brings together leading researchers from around the world to examine key questions around 'race', ethnicity and racism in sports coaching. The book focuses specifically on the

ways in which 'race', ethnicity and racism operate, and how they are experienced and addressed (or not) within the socio-cultural sphere of sports coaching. Theoretically informed and empirically grounded, it examines macro- (societal), meso- (organisational), and micro- (individual) level barriers to racial and ethnic diversity as well as the positive action initiatives designed to help overcome them. Featuring multi-disciplinary perspectives, the book is arranged into three thematic sections, addressing the central topics of representation and racialised barriers in sports coaching; racialised identities, diversity and intersectionality in sports coaching; and formalised racial equality interventions in sports coaching. Including case studies from across North America, Europe and Australasia, 'Race', Ethnicity and Racism in Sports Coaching is essential reading for students, academics and practitioners with a critical interest in the sociology of sport, sport coaching, sport management, sport development, and 'race' and ethnicity studies.

*Unmasking the Racial Contract* Oxford University Press, USA

Winner of the 2019 AERA Division J Outstanding Publication Award and the 2019 ASHE Outstanding Book Award On April 22, 2015, Boston University professor Saida Grundy set off a Twitter storm with her provocative question: "Why is white America so reluctant to identify white college males as a problem population?" *White Guys on Campus* is a critical examination of race in higher education, centering Whiteness, in an effort to unveil the frequently unconscious habits of racism among White male undergraduates. Nolan L. Cabrera moves beyond the "few bad apples" frame of contemporary racism, and explores the structures, policies, ideologies, and experiences that allow racism to flourish. This book details many of the contours of contemporary,

systemic racism, while engaging the possibility of White students to participate in anti-racism. Ultimately, *White Guys on Campus* calls upon institutions of higher education to be sites of social transformation instead of reinforcing systemic racism, while creating a platform to engage and challenge the public discourse of "post-racialism."

*Racism* Duke University Press

'Why are you making this about race?' This question is repeated daily in public and in the media. Calling someone racist in these times of mounting white supremacy seems to be a worse insult than racism itself. In our supposedly post-racial society, surely it's time to stop talking about race? This powerful refutation is a call to notice not just when and how race still matters but when, how and why it is said not to matter. Race critical scholar Alana Lentin argues that society is in urgent need of developing the skills of racial literacy, by jettisoning the idea that race is something and unveiling what race does as a key technology of modern rule, hidden in plain sight. Weaving together international

examples, she eviscerates misconceptions such as reverse racism and the newfound acceptability of 'race realism', bursts the 'I'm not racist, but' justification, complicates the common criticisms of identity politics and warns against using concerns about antisemitism as a proxy for antiracism.

Dominant voices in society suggest we are talking too much about race. Lentin shows why we actually need to talk about it more and how in doing so we can act to make it matter less.

A provocative and timely collection of essays from a celebrated cultural critic on race, diversity, and resegregation. "The

Smartest Book of the Year" (The Washington Post) In these provocative, powerful essays acclaimed writer/journalist Jeff Chang (*Can't Stop Won't Stop, Who We Be*) takes an incisive and wide-ranging look at the recent tragedies and widespread protests that have shaken the country. Through deep reporting with key activists and thinkers, passionately personal writing, and distinguished cultural criticism, *We Gon' Be Alright* links #BlackLivesMatter to #OscarsSoWhite, Ferguson to Washington D.C., the Great Migration to resurgent nativism. Chang explores the rise and fall of the idea of "diversity," the roots of student protest, changing ideas about Asian Americanness, and the impact of a century of racial separation in housing. He argues that resegregation is the unexamined condition of our time, the undoing of which is key to moving the nation forward to racial justice and cultural equity.

This engaging reader consists of 57 edited articles, divided into seven parts. Part I establishes the importance of examining race as a contemporary social issue. Part II establishes the analytical frameworks that are now being used to think about race in society. Part III examines the most

immediately experienced dimensions of race: beliefs and ideology. Part IV examines racial identity and interracial relationships, topics that are especially interesting to students. Part V analyzes the importance of the political economy of race, showing how the economic exploitation of racial groups is buttressed by political arrangements in the state. In particular, the racial division of labor is supported by concepts of citizenship that deny

full rights of citizenship to certain groups. Part VI details the consequences of race and racism as manifested in different social institutions, including work, family, health, housing, education, and social justice. Each section includes articles examining the outcomes within social institutions that stem from the reality of racial inequality in society. Part VII focuses on social movements and social change.
