The Safety of Navigation, implementing SOLAS - Chapter V has been prepared to help ship-owners, masters, crews and industry to understand and comply with the SOLAS Regulations and offers practical guidance on how they should be implemented. It is important that all parties fully understand the requirements of Chapter V and the associated documents and recognise their own specific responsibilities under each Regulation. Of all the international conventions dealing with maritime safety, the most important is the International Convention for the Safety of Life at Sea (SOLAS), which covers a wide range of measures designed to improve the safety of shipping. Substantial revisions to the fifth version of SOLAS came into force on 1 July 2002, with the new Regulations implemented under UK legislation by the Merchant Shipping (Safety of Navigation) Regulations 2002

A Balanced Approach for the Modern Writer and Editor Whether working in a traditional newsroom or as a one-person blogging operation, every good writer needs to become his or her own best editor. Editing for the Digital Age provides editors and writers with the tools necessary to ensure that published material is accurate, readable, and complete. Author Thom Lieb provides guidance in copy editing fundamentals, including correcting grammar, conforming the writing to a style guide, and revising material so that it is tightly written and clear. The text is designed for today's digital publishing landscape and addresses the many issues writers and editors now face on a daily basis—handling legal issues such as liability, copyright, and libel; writing headlines that will attract readers; creating multimedia packages to support an article or post; and using various forms of social media to curate content and connect with audience members. Chapters focus on key areas and themes for editing in the digital age, and "Write Right" writing and grammar exercises are woven into every chapter to progressively build students' editing skills.

This model course is intended to provide the knowledge, skill and understanding of ECDIS and electronic charts to the thorough extent needed to safely navigate vessels whose primary means of navigation is ECDIS. The course emphasizes both the application and learning of ECDIS in a variety of underway contexts. The course is designed to meet the STCW requirements in the use of ECDIS, as revised by the 2010 Manila Amendments. It should be understood that this is a generic course which requires a structured and complementary on-board ship specific ECDIS familiarization for each shipboard ECDIS system on which the navigating officer serves. Those who successfully complete the course should be able to demonstrate sufficient knowledge to undertake the duties assigned under the SSP.
