### The Bad Side of Books

Cosimo Classics  
In the Preface to this second edition of her first book, Sandra M. Gilbert addresses the inevitable question: "How can you be a feminist and a Lawrentian?" The answer is intellectually satisfying and historically revealing as she traces an array of early twentieth-century women of letters, some of them proto-feminists, who revered Lawrence despite his countless statements that would today be condemned as "sexist." H.D. regarded him as one of her "initiators" whose words "flamed alive, blue serpents on the page." Anais Nin insisted that he "had a complete realization of the feelings of women." By focusing on Lawrence's own definition of a poem as an "act of attention," Gilbert demonstrates how he developed the mature style of *Birds, Beasts and Flowers*, his finest collection of poetry. She discusses this volume at length, examines many of his later poems in detail, including the hymns from *The Plumed Serpent*, *Pansies*, *Nettles*, and *More Pansies*, and ends with a close look at *Last Poems*. Her detailed examination provides a clearer image of Lawrence as an artist—an artist whose poetry complements his novels and whose fiction enriches but does not outshine his poetry.

This book traces D. H. Lawrence's development as a poet from his earliest to his latest poems. Focusing on the revision of poems in the *Collected Poems*, 1928, Mandell uncovers the implicit autobiographical narrative that underlies the collection and that dictates its structure. Lawrence rearranged and rewrote the poems to conform to a chronologic, thematic, and mythic plan, a plan he hints at in the unpublished *Foreword to Collected Poems*. In its final form, the poetry tells the story of Lawrence's "demon," a figure of his essential self, by recounting the chronological development of the "new" from the "old" self. Comparing form and content of versions of representative poems from the collection, Mandell analyzes the evaluation not only of Lawrence's poetic style but also of his ideas concerning human and physical nature. She contends that Lawrence was a mature poet with a developed system of poetic and philosophical thought by 1917, when he published *Look! We Have Come Through!* At that time he rewrote extensively. Through comparison of selected poems, several of which appear in print for the first time, we can reproduce Lawrence's emendations and thus depict the creative mind at work.

**Complete Poems by Lawrence** New York Review of Books  
D. H. Lawrence's best known collection of poems. The title does not refer to flowers, but is derived from the French *pensees*, meaning thoughts -thoughts which, according to Lawrence in his introduction, come "as much from the heart and the genitals as from the head." In the foreword D. H. Lawrence writes: "I wish these ?Pansies? to be taken as thoughts rather than anything else; casual thoughts that are true while they are true and irrelevant when the mood and circumstance changes. I should like them to be as fleeting as pansies, which wilt so soon, and are so fascinating with their varied faces, while they last."

*Love Poems and Others* by D.H Lawrence features thirty-two poems of various lengths. With themes of love, marriage, gender, sexuality and emotional health, Lawrence's work is both relatable and revolutionary. Separated into three sections, *Love Poems and Others* addresses an eclectic variety of human struggles. The first section, *Love Poems* explores how gender changes the expectations of love and sex. Through the portrayal of the search for love, this section examines the almost violent human need for connection, pondering how society both enables and prevents this instinctual need. The next section, *Dialect* reproduces and preserves the language and concerns of the people in Nottinghamshire, England, a county in the East Midlands in which D.H Lawrence spent most of his youth. Through the honest depiction of this region, modern-day readers are afforded the privileged understanding of this historic area as Lawrence portrays the intricacies of the people who once lived there. The final section of *Love Poems and Others* is titled *Schoolmaster*. Following the narrative of a schoolmaster, this section explores themes of masculinity and youth. Each of the thirty-two poems featured in *Love Poems and Others* is crafted with masterful rhythm, vivid imagery, and tender sentiment. Through the use of accessible language and relatable themes, Lawrence explores the taboo and unspoken in his poetry, provoking strong reactions. Including provocative perspectives, honest depictions, and representation of a local culture and dialect, *Love Poems and Others* proves to be as insightful as it is beautiful. Originally published over one-hundred years ago in 1915, D.H Lawrence's *Love Poems and Others* simultaneously preserves the culture and customs of his time while also addressing social issues that modern society still struggles with, attesting to the timelessness of the human spirit. Featuring fan-favorite poems such as *Lilies in the Fire* and *Dog-Tired*, this edition of *Love Poems and Others* by D.H Lawrence is now presented with a stunning new cover design and is printed in an easy-to-read font. With these accommodations, modern readers are able to appreciate the gorgeous and substantial verses of the prolific and provocative author and poet, D.H Lawrence.

"The essential American soul is hard, isolate, stoic, and a killer. It has never yet melted." — D. H. Lawrence, *Studies in Classic American Literature* (1923) *Studies in Classic American Literature* (1923) by D. H. Lawrence is considered culturally important to Western culture in its literary criticism of multiple American authors: Benjamin Franklin, Poe, Melville, Whitman, and Fenimore Cooper, among others. D.H. Lawrence: *Being Alive: Selected Poems* Edited with an introduction by Margaret Elvy D.H. Lawrence's strident and idiosyncratic evocations of sex, touch, Spring, flowers, nature, love, black suns, fish and other glories are gathered here in this new selection. *British Poets Series. Bibliography and notes.* D.H. Lawrence's poetry is far less known than his fiction. It is often loose, rather than fluid, and unstructured rather than free verse, and messy rather than well-defined. It is a poetry, as Lawrence stresses, of the moment, a poetry in the process of becoming, constantly dissolving. In the Foreword to his book *Pansies*, he wrote of that breathless transience, embodied for him in the life of a flower: the breath of the moment, and one eternal moment easily contradicting the next eternal moment. Only don't nail the pansy down. You won't keep it any better if you do. In the introduction to the American edition of *New Poems*, Lawrence wrote: Let me feel the mud and the heavens in my lotus. Let me feel the heavy, silting, sucking mud, the spinning of sky winds. Let me feel them both in purest contact, the nakedness of sucking weight, nakedly passing radiance. Give me nothing fixed, set, static. Don't give me the infinite or the eternal: nothing of infinity, nothing of eternity. Give me the still, white seething, the incandescence and the coldness of the incarnate moment: the moment, the quick of all change and haste and opposition: the moment, the immediate present, the Now. The immediate moment is not a drop of water running downstream. It is the source and issue, the bubbling up of the stream. Here, in this instant moment, up bubbles the stream of time, out of the wells of futurity, flowing on to the oceans of the past. The source, the issue, the creative quick. There is poetry of this immediate present, instant poetry, as well as poetry of the infinite past and the infinite future. The seething poetry of the incarnate Now is supreme, beyond even the everlasting of the before and after. Lawrence's typical poetry occurs in poems such as *Sicilian Cyclamens*, *Snake and Snap-Dragon*, longish, loose poems with a lot of space that allow Lawrence to explore his subject. Lawrence covers a surprisingly wide range of subjects in his poeise - far wider than, say, Robert Graves or Thomas Hardy or John Keats. Among poets, there is no one quite like him. Like every poet, he has his pet notions, and keeps hacking away at them: the river of blood of the *Sons and Lovers* era, the democracy of touch from *Lady Chatterley's Lover*, the Christological machismo of *The Plumed Serpent* lyrics, the hatred of labour, the love of all things Mediterranean, and the primacy of the body.
