THE TIMES AND

WATERSTONES BEST ART BOOK OF 2023 'Intimate and insightful . . . reads

like a novel by Samuel Beckett' Paul Theroux A portrait of one of the twentieth century's greatest sculptors from one of our most eminent art historians Today the work of Alberto Giacometti is world-famous and his sculptures sell for record-breaking prices. But from his early days as an unknown outsider to the end of a dramatic international career, Giacometti lived in the same hovel of a studio in Paris. It was Paris that made him, and he in turn immortalised the city

through his art. Arriving in Paris from the Swiss Alps in 1922, Giacometti was shaped not only by his relationships with remarkable artists and writers – from Picasso, Breton and Dalí to Sartre, Beauvoir and Beckett – but by the everyday life, pre-war and post-war, of Paris itself. His distinctive figures emerged from the city's unique atmosphere: the crumbling grey stone of its humbler streets and the café-terraces buzzing with radical ideas and racy gossip. In Giacometti in Paris, Michael Peppiatt,

who spent thirty years documenting the Parisian art world and mixing with many of the people Giacometti knew, brilliantly charts the course of the artist's life and work. From falling in and out with the Surrealists to years of artistic anguish, from devotion to his mother to intense friendships, tragic love affairs and a fraught marriage, this is an intimate portrait of an outstanding artist in exceptional times. *Test-Driven Development with Python* Hal Leonard

Autumn Leaves UPNE In Hungary, jazz was at the forefront of heated debates sparked by the racialised tensions between national music traditions and newly emerging forms of popular culture that challenged the prevailing status quo within the cultural hierarchies of different historical eras. Drawing on an extensive, four-year field research project, including ethnographic observations and 29 in-depth interviews, this book is the first to explore

the hidden diasporic narrative(s) of Hungarian jazz through the system of historically formed distinctions linked to the social practices of assimilated Jews and Romani musicians. The chapters illustrate how different concepts of authenticity and conflicting definitions of jazz as the "sound of Western modernity" have resulted in a unique hierarchical setting. The book's account of the fundamental opposition between US-centric mainstream jazz (bebop)

and Bartók-inspired free jazz camps not only reveals the extent to which traditionalism and modernism were linked to class- and race-based cultural distinctions, but offers critical insights about the social logic of Hungary's geocultural positioning in the 'twilight zone' between East and West to use the words of Maria Todorova. Following a historical overview that incorporates comparisons with other Central European jazz cultures, the book offers a rigorous analysis of how the

transition from playing 'caféhouse music' to bebop became a significant element in the status claims of Hungary's 'significant others', i.e. Romani musicians. By combining the innovative application of Pierre Bourdieu's cultural sociology with popular music studies and postcolonial scholarship, this work offers a forceful demonstration of the manifold connections of this particular jazz scene to global networks of cultural production, which also continue to shape it.

Who knew that Paul McCartney originally referred to Yesterday as 'Scrambled Eggs' because he couldn't think of any lyrics for his heart-

breaking tune? Or that Patti LaBelle didn't know what 'Voulez-vous couches avec moi ce soir?' actually meant? These and countless other fascinating back stories of some of our best-known and best-loved songs fill this book, a collection of the highly successful weekly The Life of a Song columns that appear in the FT Weekend every Saturday. Each 600-word piece gives a mini-biography of a single song, from its earliest form (often a spiritual, or a jazz number), through

the various covers and changes, often morphing from one genre to another, always focusing on the 'biography' of the song itself while including the many famous artists who have performed or recorded it. The selection covers a wide spectrum of the songs we all know and love - rock, pop, folk, jazz and more. Each piece is pithy, sparkily written, knowledgeable, entertaining, full of anecdotes and surprises. They combine deep musical knowledge with the vivid background of

the performers and musicians, and of course the often intriguing social and political background against which the songs were created.

Gettin' Around examines how the global jazz aesthetic strives, in various ways, toward an imaginative reconfiguration of a humanity that transcends entrenched borders of ethnicity and nationhood, while at the same time remaining keenly aware

of the exigencies of history. Jürgen E. Grandt deliberately refrains from a narrow, empirical definition of jazz or of transnationalism and, true to the jazz aesthetic itself, opts for a broader, more inclusive scope, even as he listens carefully and closely to jazz's variegated soundtrack. Such an approach seeks not only to avoid the museal whiff of a "golden age, time past" but also to broaden the appeal and the applicability of the overall critical argument. For Grandt,

“international” simply designates currents of people, ideas, and goods between distinct geopolitical entities or nation-states, whereas “transnational” refers to liminal dynamics that transcend preordained borderlines occurring above, below, beside, or along the outer contours of nation-states. Gettin’ Around offers a long overdue consideration of the ways in which jazz music can inform critical practice in the field of transnational (American) studies and grounds these

studies in specifically African American cultural contexts.

transformation, the stunning availability – should we truly will it, and despite all that can weigh upon existence, above all ideologically – of joy and love and freedom.
