Islamic Culture in Kashmir Collins India
This comprehensive biography depicts in depth the complex and controversial man who played a significant role in the history of northwestern India during the nineteenth century. Described by his European contemporaries as "the Talleyrand of the East" and the "Ulysses of the hills," Maharaja Gulab Singh was perhaps the most dexterous and successful Indian diplomat of the nineteenth century. At a time when other Indian states were falling to the British, Gulab Singh founded the kingdom of Kashmir, which survived under his heirs for over a century. Based largely on primary sources in English, Persian, and Urdu, this new biography provides fresh insights into Gulab Singh's motives and policies, and brings into focus his role as fiefholder, Raja, and Maharaja, and as a man, soldier, and politician. However, the book is more than a portrait of a man. It sheds light on the entire diplomatic history of northwestern India during the period. This big and important biography is exceptionally well written. The author's narrative skill provides a fascinating picture of the diplomatic intrigue, sadistic tortures, the licentious activities of the Sikh army, and the economic exploitation of the common people.

Millions of children and adults across the nation spend their days in school buildings, and they need safe, healthy environments to thrive, learn, and succeed. This book explores the school environment using the methods and perspectives of environmental health science. Though environmental health has long been understood to be an important factor in workplaces, homes, and communities, this is the first book to address the same basic concerns in schools. The editors are physicians and educators trained in pediatrics, occupational and environmental medicine, and medical toxicology, and the authors are experts in their fields drawn from across the United States and abroad. Each section of the book addresses a different concern facing schools today. In the first six sections, the various aspects of the school environment are examined. Chapters include the physical environment of the school, air quality issues, pest control, cleaning methods, food safety, safe designs of playgrounds and sports fields, crime and violence prevention, and transportation. In the last two sections, recommendations are made for school administrators on how to maximize the health of their schools. Appropriately evaluating the school environment, implementing strategies to address children and adults with disabilities, emphasizing health services, infectious disease prevention and recognition, and occupational health for faculty and staff are all addressed. The entire book is evidence-based, readable, generously illustrated, and practical. An indispensable resource for parents, school staff, administrators, government officials, and health professionals, this book is for anyone who cares about the health of our schools.

Amma Bi is an elderly widow who lives alone in her deserted Lucknow haveli. Every afternoon, at precisely 3 o'clock, she hears the sound of unknown footsteps.

Every afternoon, she peeks out ... but no one is there. In a state of growing panic, Amma Bi considers moving to an old people's home, before finally taking in a lodger -- a winsome young woman named Sabiha. Her arrival fills Amma Bi's lonely world with love and laughter, and Jumman, the household help, is transformed as well. When Sabiha finds herself in trouble, Amma Bi must draw on hidden reserves of skill and empathy in order to resolve the situation... *Dopehri* -- legendary film and theatre personality Pankaj Kapur's first novel -- is a wonderfully evocative work of great charm, wry humour and quiet power, a story that readers will fall in love with. *India's Foreign Policy* John Wiley & Sons
On 13 May 2011, Mamata Banerjee, leader of the All India Trinamool Congress, defeated the Left Front to become the state's first female chief minister. It was her rallying cry of poriborton, and her slogan, Ma, Mati, Manush (Mother, Earth, People), which captured the imagination of the people and led to her landslide victory, ending the decades-long dominance of the Left Front. But what triggered this change? And what were the conditions which enabled the Left Front to win election after election

Kashmir Under Sultans introduces the reader to a subject that begins with the foundation of the Sultanate and ends with

the conquest of Kashmir by Akbar. During the Sultanate period, Kashmir had achieved a high standard of culture, but with the disappearance of her independence, her culture gradually declined. Poets, painters, and scholars had to leave the Valley and seek their livelihood elsewhere owing to the absence of local patronage. They then entered the service of the Mughal emperors and were added to the court, thereby lessening the cultural impoverishment of Kashmir. The book encloses political, social, economic and cultural activities that had a lasting influence on the Kashmir Valley in that period. It is of considerable value to social historians as Professor Mohibbul Hasan offers insights into political and cultural currents and crosscurrents in Kashmir. This title is co-published with Aakar Books. Print editions not for sale in South Asia (India, Sri Lanka, Nepal, Bangladesh, Pakistan and Bhutan)
