Economics for the IB Diploma: Quantitative Skills Workbook Cambridge University Press

Do we need yet another textbook on business fundamentals when every publishing house has stacks of such books ready for sale? No, we do not need another standard textbook. What we need is a new kind of teaching tool that at once accommodates the modern-day classroom and exposes new century students to the contemporary world of global capitalism in which today's businesses operate. In primer form, Dr. Patrice Flynn clarifies the functional areas of business, a term used to describe what every businessperson needs to understand to be successful, from entrepreneurship to small business development, legal structure, going global, finance, big data, marketing, management, and more. This primer demonstrates how a master teacher teaches new century students, thus giving supremacy to pedagogy along with rigorous content. The primer can be used with both business students and the growing number of nonbusiness students interested in learning how business works before entering the world of work. Every student will come away not only with a sense of the business areas that pique their interest but also with a deeper understanding of business from which to craft next career steps.

**For the IB Diploma** Hodder Education This captivating ethnography explores Vietnam's sex industry as the country ascends the global and regional stage. Over the course of five years, author Kimberly Kay Hoang worked at four exclusive Saigon hostess bars catering to diverse clientele: wealthy local Vietnamese and Asian businessmen, Viet Kieus (ethnic Vietnamese living abroad), Western businessmen, and Western budget-tourists. *Dealing in Desire* takes an in-depth and often personal look at both the sex workers and their clients to show how Vietnamese high finance and benevolent giving are connected to the intimate spheres of the informal economy. For the domestic super-elite who use the levers of political power to channel foreign capital into real estate and manufacturing projects, conspicuous consumption is a means of projecting an image of Asian ascendancy to potential investors. For Viet Kieus and Westerners who bring remittances into the local economy, personal relationships with local sex workers reinforce their ideas of Asia's rise and Western decline, while simultaneously bolstering their diminished masculinity. *Dealing in Desire* illuminates Ho Chi Minh City's sex industry as not just a microcosm of the global economy, but a critical space where dreams and deals are traded.
