An accessible, student-friendly handbook that covers all of the essential study skills that will ensure that Science, Engineering or Technology students get the most out of their course. Study Skills for Science, Engineering & Technology Students has been developed specifically to provide tried & tested guidance on the most important academic and study skills that students require throughout their time at university and beyond. Presented in a practical and easy-to-use style it demonstrates the immediate benefits to be gained by developing and improving these skills during each stage of their course.

**Foreign Language, Area, and Other International Studies** Cambridge University Press Today, acquiring English language skills has become so essential, especially for those who are looking for new jobs in reputed organizations as well as for the practising professionals. Many engineering students, even though they have adequate knowledge of their subject, are unable to express themselves well in English. Taking this into account, engineering colleges/institutes have introduced exclusive English Language Laboratories where students are drilled in the practical aspects of the English language. This compact and comprehensive book is a step-by-step practical guide to students, telling them how to prepare technical reports and how to acquire the basic communication skills—listening, speaking, reading and writing. The book deals with conversation, situational dialogues and role plays, and Group Discussions (GDs). It also gives detailed discussion about Interviews—step-by-step preparation, practical and psychological preparation, the dos and don'ts for interview—besides dealing with different kinds of interviews: telephonic, videoconferencing, and others. In addition, the text stresses the importance of researching the organization, and salary negotiations. Finally, the book shows the students how to make powerpoint presentations (PPTs), the structure of presentation and using audio visuals. This activity based, skill-oriented, learner centred book is designed according to the WBUT syllabus on Technical Report Writing and Language Laboratory Practice for the B.Tech. students. However, it would be equally useful for B.Tech./B.E. students across the country. **DISTINGUISHING FEATURES :** A practical and student friendly text, the stress being on the functional aspects of the language and various activities for acquiring the language. Gives the Methodology of conducting activities such as GDs, Interviews and Presentation. Provides model GD topics and the step-by-step process of making PPTs. Clearly spells out all the details, right from preparing a good job application, researching the company (including its financial health), to preparing the job portfolio, to wearing the proper dress, handling questions, and negotiating salary. Provides an extensive list of probable questions along with their answers to prepare students for mock interviews. Also gives well-crafted questions at the end of each lesson.

Job seekers would learn how to upload their portfolios and highlight their skills and achievements and connect with prospective employers and collaborators. Book Reviews "I have been a regular user of the book by Prof. Nira Konar and found it a very reliable resource. The chapters on ‘Group Discussion and Body Language’ are particularly helpful. Besides, the chapter on ‘Communication Theory’ has been relevantly and effectively explained keeping in mind the needs of the students. Overall, the book is very accessible by all levels of students. It is a part of recommended reading for my students." - Nandini Mukherjee Course Coordinator, Department of Communicative English, St. Xavier's College, Kolkata "An extremely concise, lucidly written and reader-friendly book, that serves as a handy reference manual for all in-service English language teachers of degree engineering colleges. The B.Tech Communicative English syllabus has been closely followed, with detailed sections on grammar, writing and comprehension. The chapters on vocabulary take an insightful look at etymology, word origins, synonymy and antonymy. Detailed word lists and practice exercises make the section extremely helpful for practicing teachers. The sections on grammar are fairly detailed, offering a thorough analysis of Verbs, Tenses, Voice, Narration, Transformation of Sentences and Error Correction. There are plenty of practice exercises for the teacher to choose from. Reading skills are well discussed and technical writing is given all the importance and predominance it usually occupies in any course on technical communication. The section on report writing is extremely useful as a guide for teachers for teaching students the formatting and writing essentials in documenting reports. There is a section on professional speaking too, which enriches the content of the book. On the whole, the book is of continuing usefulness and relevance in any technical English course and will be used by teachers and students alike for many years to come." - Dr Indrajit Bose Assistant Professor of English, GNIT, Kolkata "Dr. Konar's book acts as a comprehensive guide to the students of professional, technical as well as basic courses to hone their language skills. The language of the book is persuasive, fluid and student-friendly which makes it useful even to the first generation learners of English. The scope of this book extends from word-building to report writing and covers almost all the thrust areas of language training in a nutshell. Hence, it deserves a shelf-space in the library of any institution." - Ayushman Banerjee, Assistant Professor in English, Haldia Government College, Kolkata "This is one of the best books on 'Communication' available in the market. Dr. Nira Konar is a brand by herself whenever English Language Teaching (ELT) comes into discussion. This compact edition discusses in detail the various aspects of language ranging from Vocabulary, Grammar, Syntax to effective communication in business. The book gives a clear reading of LSRW skills such as writing, reading, listening, and public speaking. It further confers different means of effective communication, situational dialogues, body language, and group discussions. The book follows the present MAKAUT curriculum of English for B.Tech 1st year 2nd Semester (HM-HU 201 & HM-HU 291) thoroughly. It not only gives an overview of the Theory syllabus but also provides details of Language Laboratory activities as well. “Communication Skills for Professionals” enables the readers to express themselves clearly and communicate effectively at the workplace. This book not only deals with the rudiments of communication but also gives insights into the body language and provides important tips on how to be successful at interviews and group discussions. Primarily intended for students of engineering and technology, the book will also be useful for Management students and the students of all disciplines who want to acquire the skill in corporate communication and excel in their respective professional areas." - Sohini Datta Assistant Professor, Department of Management, IEM, Sector V, Salt Lake, Kolkata "Easy and in-depth writing on the subject is the aim of this book. The author has put in here the fruits of teaching the students from the wide-ranging and first-hand knowledge of business speaking and writing, and listening in a friendly way. It is enriched with extensive references. On every page of

the book the students will see how a simpler style of English is balanced with their need." - Dalia Sen Assistant Professor, Bengal Institute of Technology (Under Techno India Group), Kolkata *Buss Corres'Ce & Report Writing, 4E* Macmillan International Higher Education The Importance Of English Both As A Link Language, A Means Of Communication And As A Medium Of Instruction Has Been Steadily Growing Since Independence, So That The Total Number Of Learners Of English In India Today Would Easily Exceed The Total Populations Of Many Countries Of Europe. This book is a useful guide for the teaching fraternity, administrators and education technology professionals to make good use of AI across outcome-based technical education (OBTE) ecosystem and infuse innovations and affordable digital technologies to traditional pedagogic processes to make teaching-learning more independent of human factor (teacher/student quality), time and place and at the same time more impactful and enjoyable for the learners. Providing access to the digital media and learning tools (even to the extent of mobile apps) to the students would allow them to keep pace with innovations in learning technologies, learn according to their own pace and improve their understanding level and have instantaneous feedback and evaluation. The book explores these new challenges and scope of using computational intelligence in educational technology. The book also addresses how based on the data collected from the outcome of conventional educational system, intelligent diagnostic and feedback system is developed which will change the teaching strategies and corresponding teaching-learning process. The book covers a wider framework of digital pedagogy and its intelligent applications on various sectors of education system.

This collection of essays reflects on the ways in which writing centres in South Africa are working in and across disciplines. Institutional constraints and challenges that arise from these collaborations are addressed and opportunities for transforming teaching and learning spaces are explored. The chapters speak to the global move in higher education to reconsider how knowledge is made, who makes it, and how support and development opportunities for students and lecturers should be created and sustained across the disciplines. This volume contributes to the body of knowledge in the growing field of the scholarship of teaching and learning in higher education in South Africa. It builds on the work of the first collection of such essays: *Changing Spaces: Writing Centres and Access to Higher Education* (Eds. A Archer and R Richards, 2011, SUN PRESS) to understand why working within the disciplines is so critical for writing development in a South African context. *Shaking the Foundations of Geo-engineering Education* ENGLISH LANGUAGE LABORATORIESA COMPREHENSIVE MANUAL

Annotation An engineer with experience in the automotive and chemical process industries,

Budinski has compiled material he used to train new engineers and technicians in an attempt to get his co-workers to document their work in a reasonable manner. He does not focus on the mechanics of the English language, but on the types of documents that an average technical person will encounter in business, government, or industry. He also thinks that students with no technical background should be able to benefit from the tutorial. c. Book News Inc
