Whenever there is degeneration of thought and increase in sin, I shall incarnate in different forms - Lord Sri Krishna says in Bhagavad Gita the Supreme Being has no form to protect the righteous and the virtuous. He has emerged in the many forms of gods and goddesses to guide and teach humanity to lead an ideal life. No major religion in the world can claim to have as many gods and goddesses as Hinduism. At the same time, no other religion has as many forms of worship and places of pilgrimage as do the Hindus. the plurality of gods and goddesses are not evidence of different streams of thought,

neither are they there to create confusion: they fulfil a definite purpose. Each god and goddess is assigned a special responsibility. In their own sphere of activity, they are benevolent. Gods and goddesses emerge and thrive upon positive values like patience, tolerance, love and forgiveness and lead one to a path of truth, honesty and integrity.

Hindu mythology is vast and features many gods and goddesses, most of whom have multiple variations of their names and associations. According to the Hindu religion, these deities were once human or superhuman beings. Some of them are still worshipped today as the gods and goddesses of the Hindu religion. In addition, many Hindus worship certain animals or objects that represent their deities.

A Sourcebook Translated from the Sanskrit Classical Mythology

Buddhism introduced many Hindu Gods and Goddesses to the Japanese. The rulers were the first to be attracted to them. Historical records show that they earnestly believed in the miracles of these divinities promised in the sutras.

Many miracle stories started appearing in popular literature as the divinities percolated down to the masses. The resulting naturalisation process in the case of some divinities went to the extent that they became an integral part of the native Shinto pantheon. Their popularity remains unabated even today. The Tantric Buddhist sects also played a vital role in propagating the divinities. They regularly worshipped the divinities in their temples where people thronged in large numbers. Many steps in these ceremonies, for instance, the homa ritual, are very familiar to the present-day Hindus. The monks have also produced a considerable volume of religious literature related to these divinities. Descriptions of many divinities show that they have not changed

substantially over centuries. A study of these writings also shows that a large volume of Hindu myths and legends related to these deities were transmitted to Japan. These writings are also a testimony to the way the ancestors of the present-day Hindus thought about these deities, say, around the eighth or ninth century of the Christian era.

A decoding of Hindu mythology Hindus have one God. They also have 330 million gods: male gods; female gods; personal gods; family gods; household gods; village gods; gods of space and time; gods for specific castes and particular professions; gods who reside in trees; in animals; in minerals; in geometrical patterns and in man-made objects. Then there are a whole host of demons. But no Devil. In this groundbreaking book Dr Devdutt Pattanaik; one of India's most popular mythologists; seeks an answer to these apparent paradoxes and unravels an inherited truth about life and death; nature and culture; perfection and

possibility. He retells sacred Hindu stories and decodes Hindu symbols and rituals; using a unique style of commentary; illustrations and diagrams. We discover why the villainous Kauravas went to heaven and the virtuous Pandavas (all except Yudhishtira) were sent to hell; why Rama despite abandoning the innocent Sita remains the model king; why the blood-drinking Kali is another form of the milk-giving Gauri; and why Shiva wrenched off the fifth head of Brahma. Constructed over generations; Hindu myths serve as windows to the soul; and provide an understanding of the world around us. The aim is not to outgrow myth; but to be enriched and empowered by its ancient; potent and still relevant language.

He religion of the Aryans of India was essentially a worship of spirits sometimes spirits of real persons, sometimes imaginary spirits and that, although in early days it provisionally found room for personifications of natural forces, it could not digest them

into Great Gods, and therefore they have either disappeared or, if surviving, remain as mere Struldbrugs. engravings and line drawings include scenes from the Ramayana and Mahabharata as well as temple images of Krishna, Vishnu, Siva, and other major gods and goddesses. Many are derived from bronze figurines; others are reproduced from manuscript illustrations. All appear with captions for ease of identification.
