Distracted
Mind by Adam

Gazzaley and
Larry D. Rosen
is a highly
engaging read
of how we
cognitively
pursue our
goals and how

our brains have to frequently overcome internal and external interference, including that from modern technologies, to do this successfully. The Distracted Mind: Ancient Brains in a High-Tech World ... This is a thought provoking book on the impacts of modern technology on our ancient, distracted minds. The authors, a psychologist and a neuroscientist, walks the reader thru a

series of studies showing the detrimental impact of the constant interruptions that our technology imposes on us. The Distracted Mind: Ancient Brains in a High-Tech World ... The Distracted Mind by Adam Gazzaley and Larry D. Rosen is a highly engaging read of how we cognitively pursue our goals and how our brains have to frequently overcome internal and external

interference, including that from modern technologies, to do this successfully. The book includes excellent, clear examples of what these problems of goal interference are and how they might affect us in our daily lives.
